

# Lego 21045

## Trafalgar Square

### Installation Guide

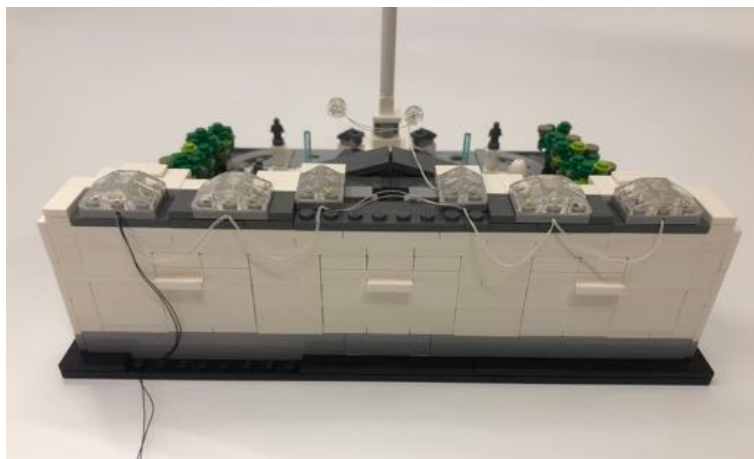

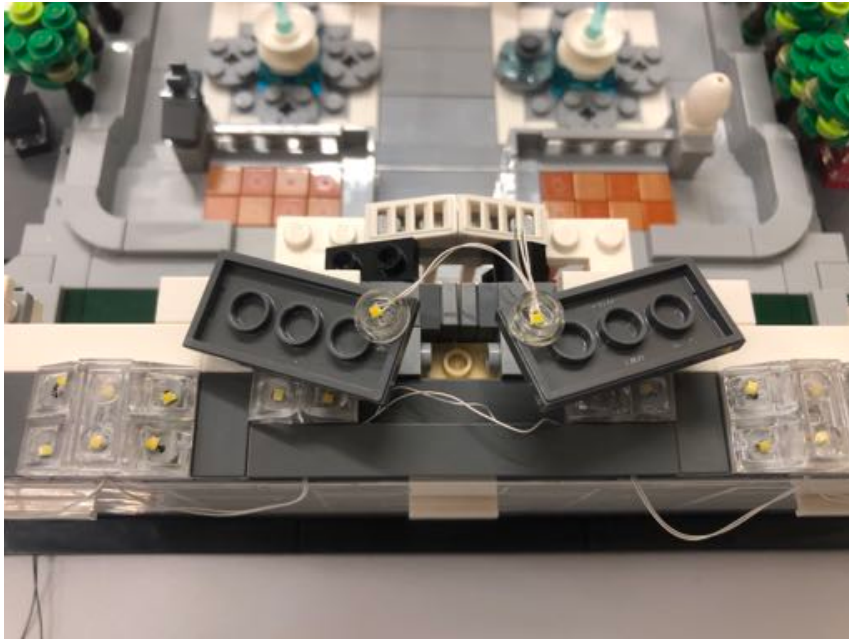

Remove following parts

Replace with the lighting parts as shown

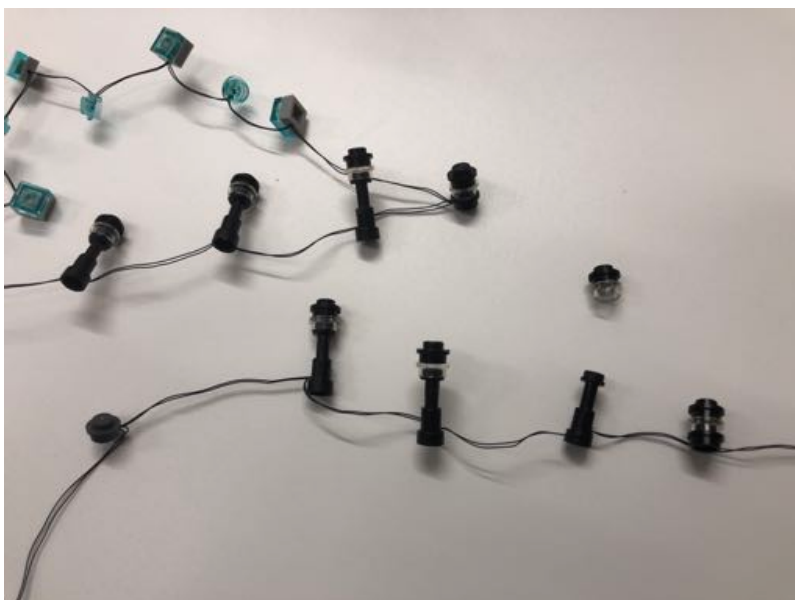

Take the 2 2x4 tile out and put the clear round plates on it like this

Put the tiles back (remember put the right handed side first)

For the front part, remove all the black poles, take the caps off and put on the light parts

Put the lighting parts on

Remove the blue part of the water pool as shown

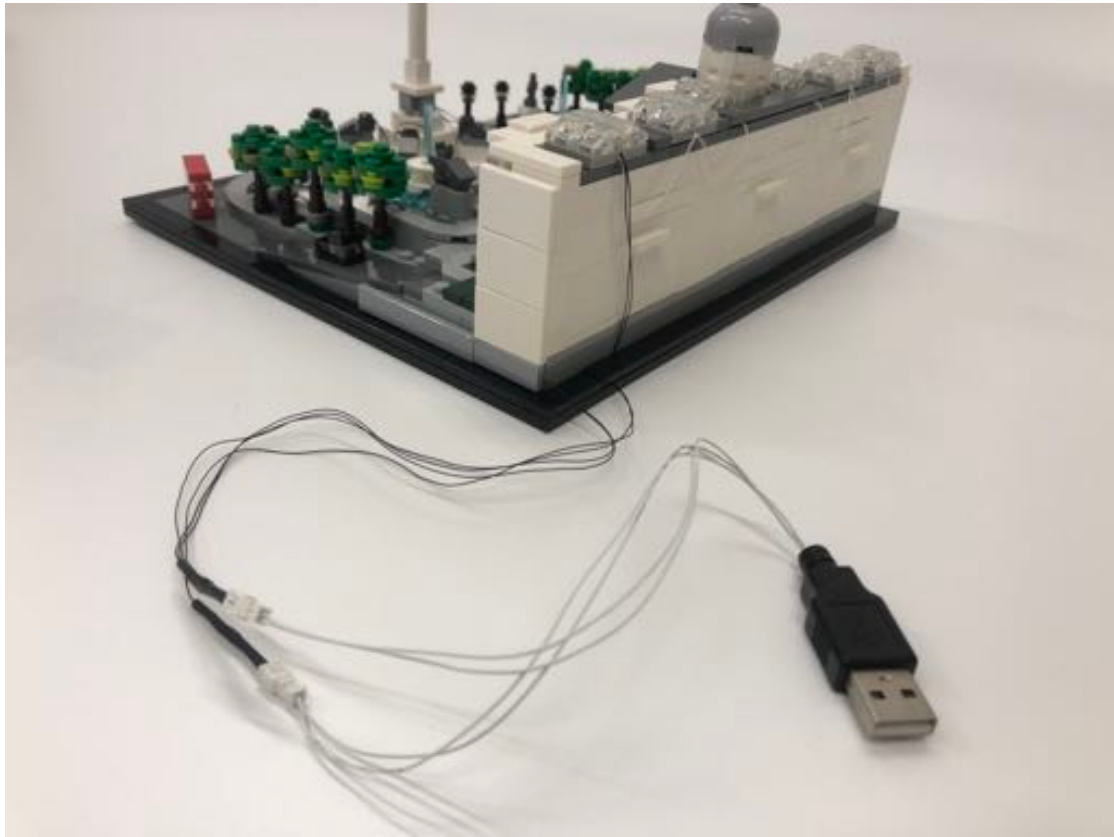

Replace the lighting parts on as shown

Remove some parts on the side to let the wires come through it and put them back (beware don't break the wire when you're trying to put the tile on

Connect both wires to the USB plug

Done~
