

Lego 21326

Winnie
the
Pooh

Installation Guide

Take this lighting parts out first

Start by installing the 1x4 here, make sure the candle fire lighting part face to the candle area

Then install the 1x6 lighting plate and replace the fire

Then remove the top and pull the remain lights out to top

Install the 1x3 as shown

Put the top back, lead the green lighting round plate to the front and install them

Now do the similar procedure for the other side

Remove the top, install the 1x3

Then the round plates

For the front door, install the 1x4 brown lighting plate as shown

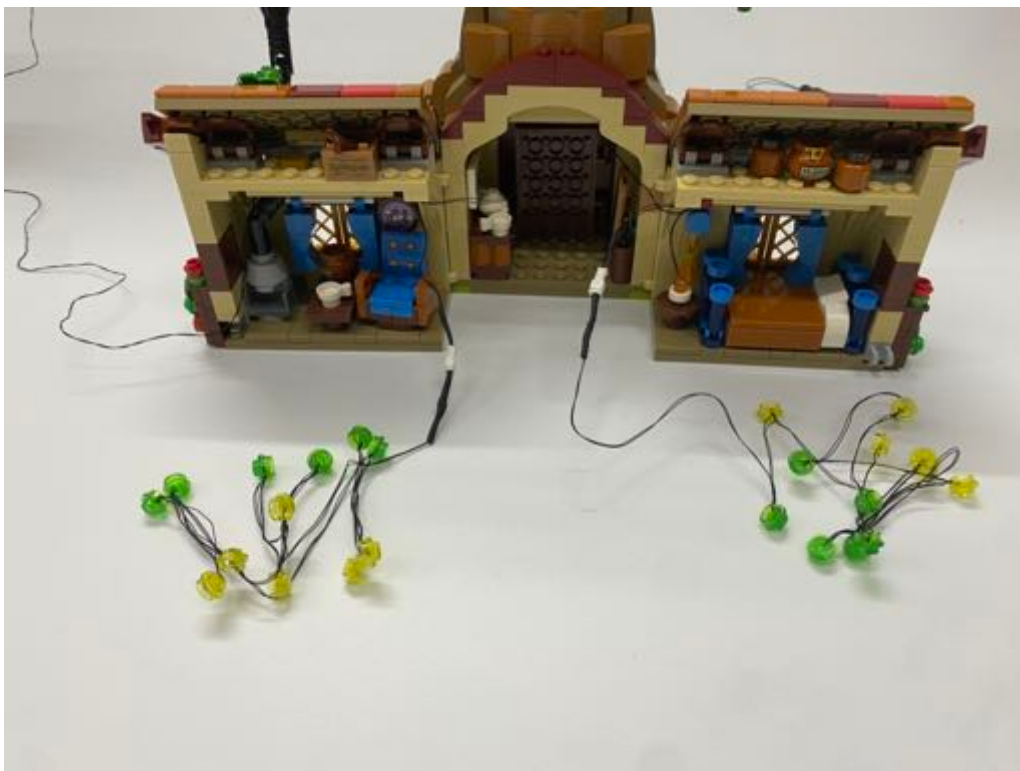

Then replace the flame

Now take these lights for the tree

Turn around the house, connect the plugs from previous step

Now just install them on the tree in free style

At last, connect with the USB cable
