

# Lego 76191

## *Infinity Gauntlet*

### *Installation Guide*

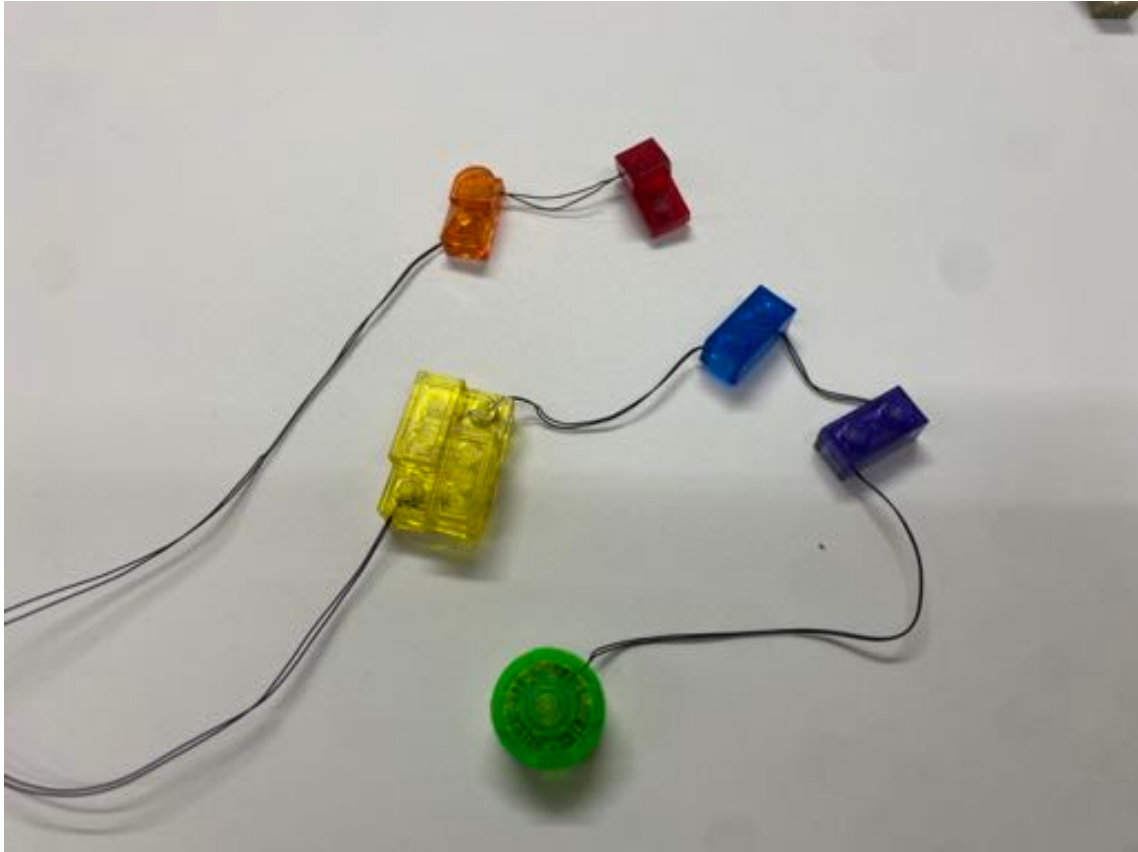

First of all take all the clear parts off

Take the plates off from the original 1x2 plates and combine with the lighting plates  
\*The clear purple will combine with the grey 1x2 lighting plate

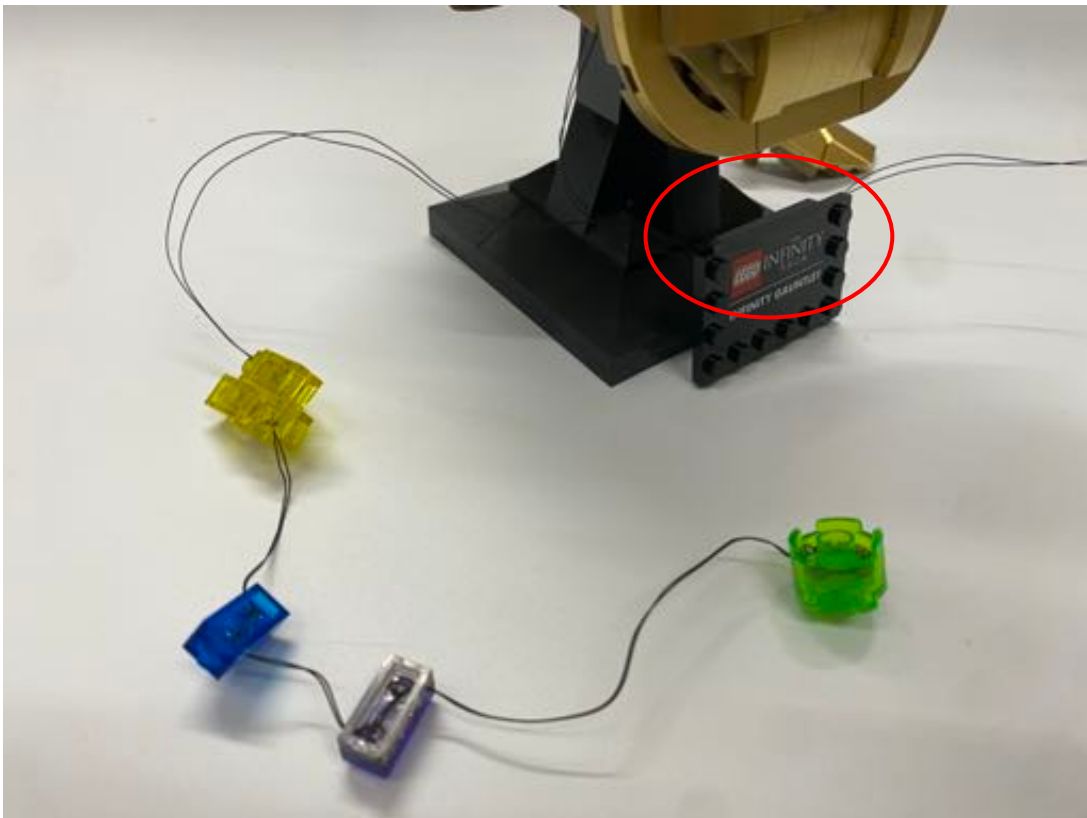

Start by installing orange and red, take the gold 1x2 plate, install the lights then put the gold plate back to cover the wire

To pull the wire to the bottom base, you can hide the wire under this part

Pull to the base and install the 1x4 black lighting plate here

Then before installing the yellow infinity stone, the wires can be hidden under the gold plates

Then install the blue and purple stones before stabling the yellow one

At last install the green stone

Put all the parts removed back to the position then you can light it up
