

# Lego 10292

**F•R•I•E•N•D•S**  
***The Apartments***

## *Installation Guide*

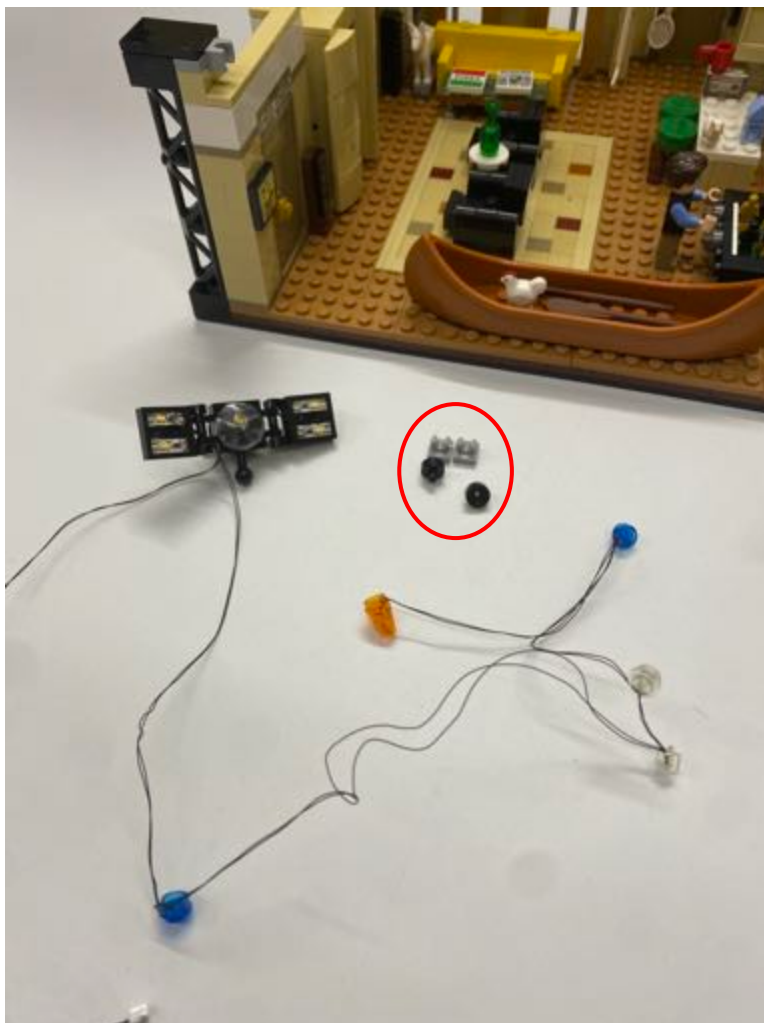

Take the following lighting parts for the left side of the house

Take out the spot light on right hand side, install the lights then put it back

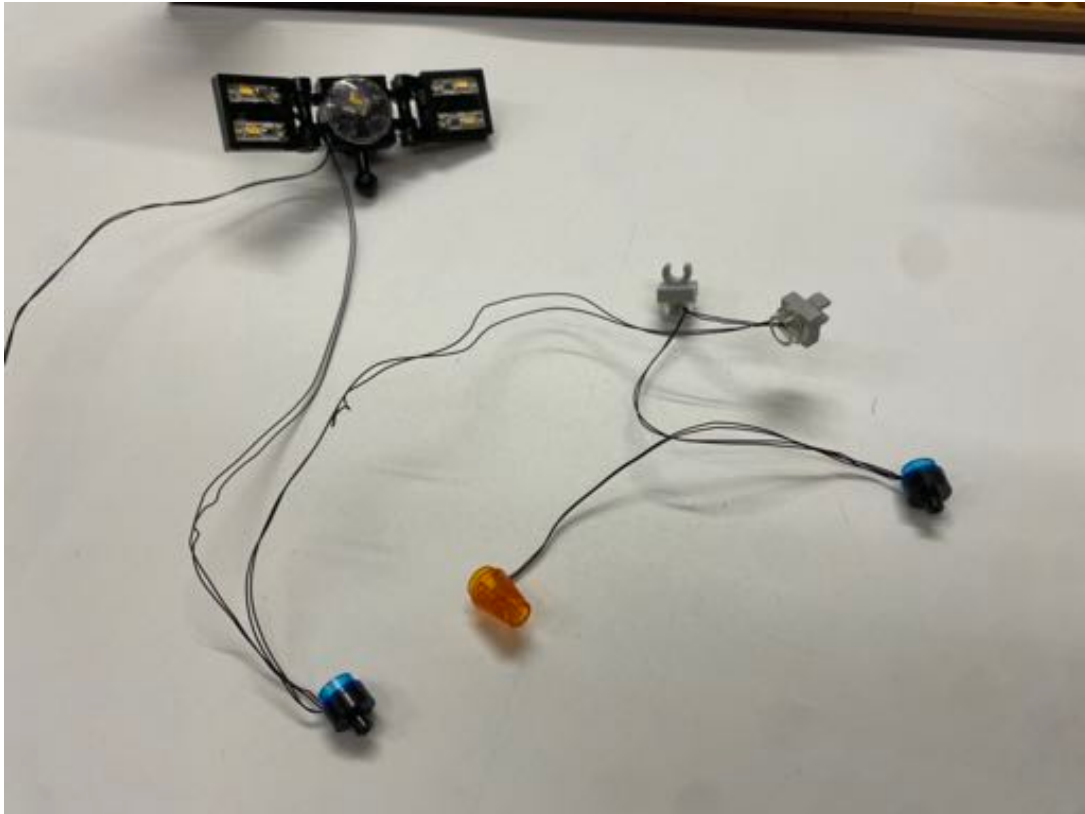

Do the same thing for the other spot light, and take out the parts shown

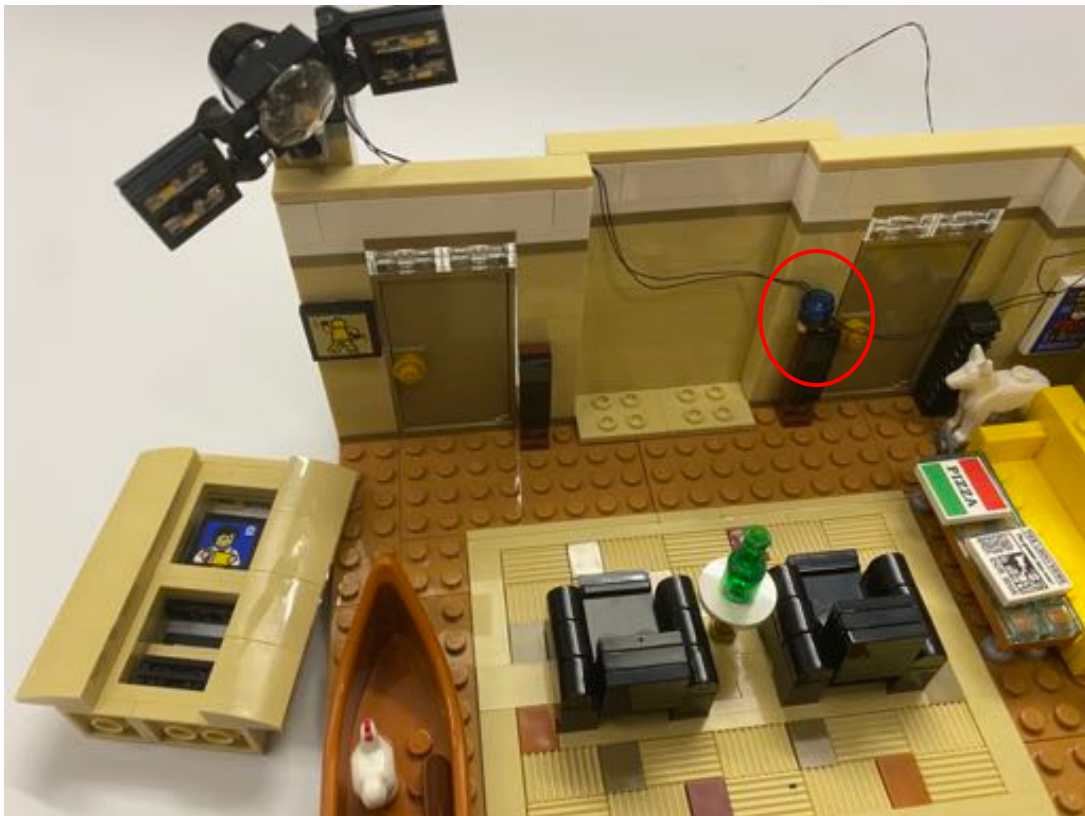

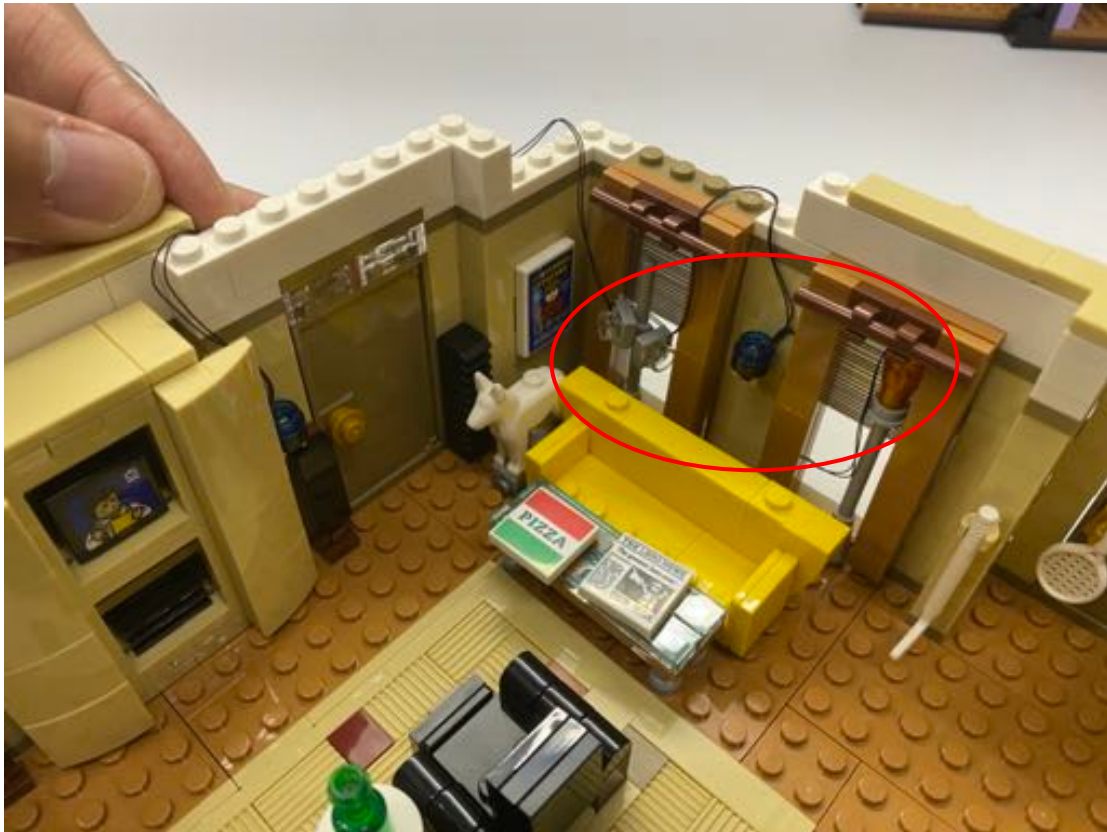

Then combine the removed parts from previous step with the lights

Put the spot light back, remove the tv shelf and install the blue light next to it

Then install the remain lights, you may take the bricks or tiles on top to hide the wires

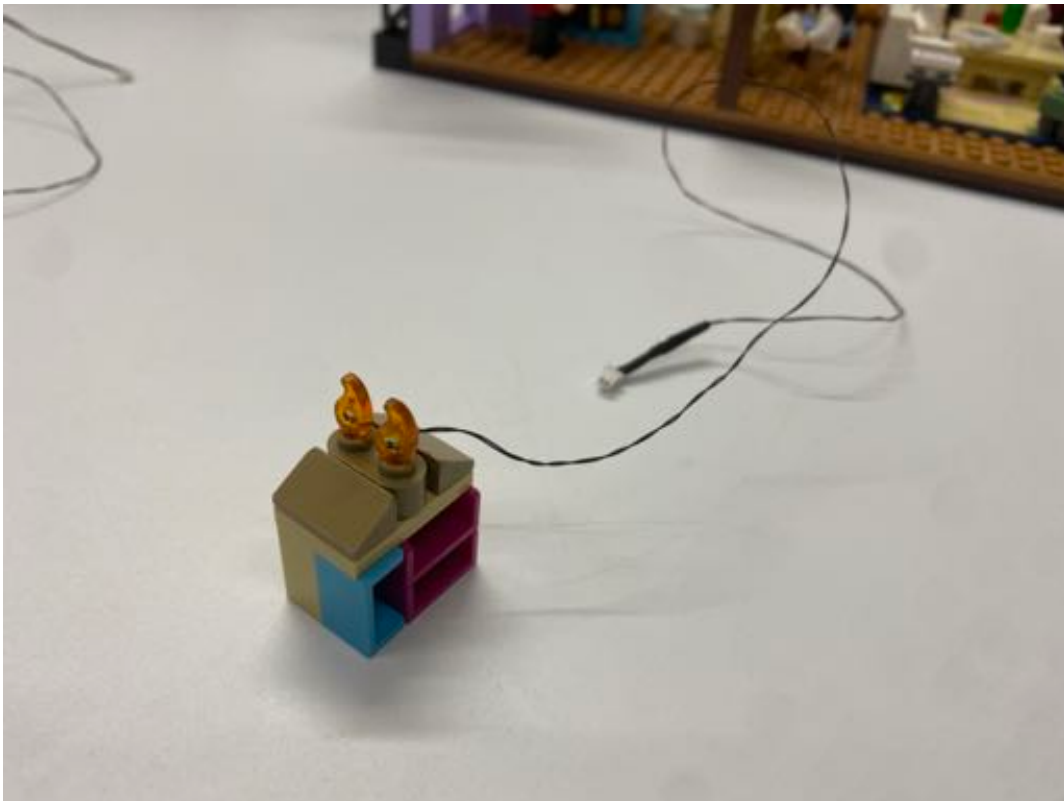

The left side lights installation is done

Now it's turn for the right side

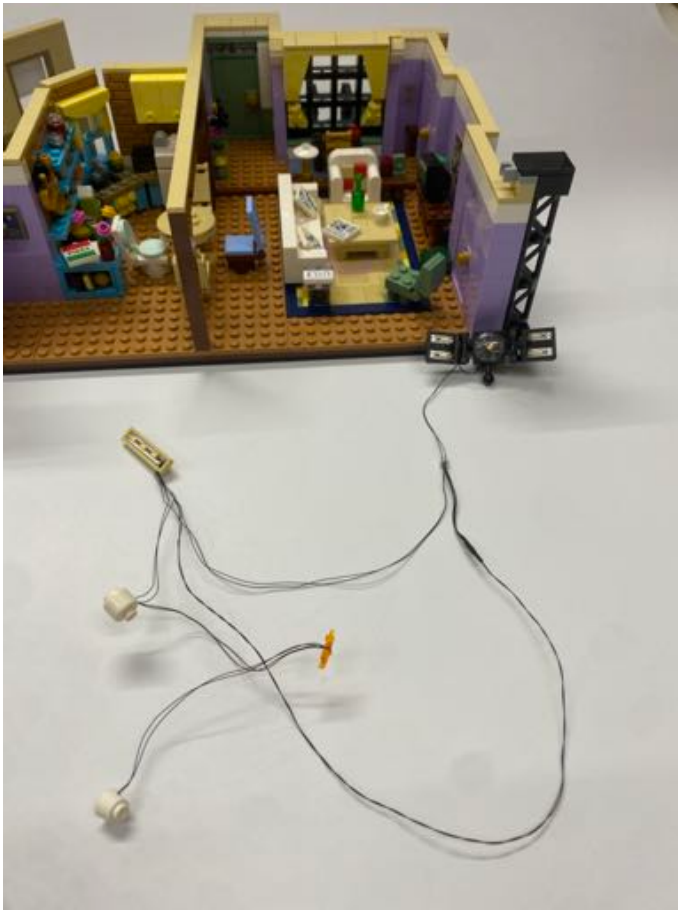

Replace the fire by the lighting parts

Take out the spot light and install the lights

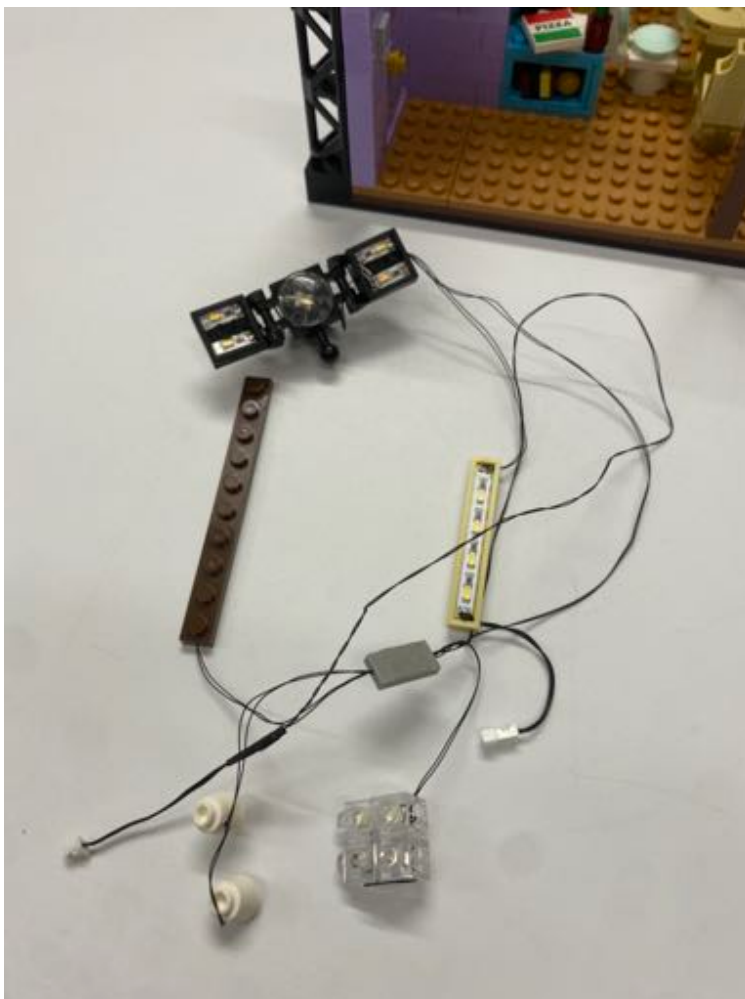

Then take the curtain off and install the 1x4 lighting plate

Put the curtain back and install the rest 3 lights

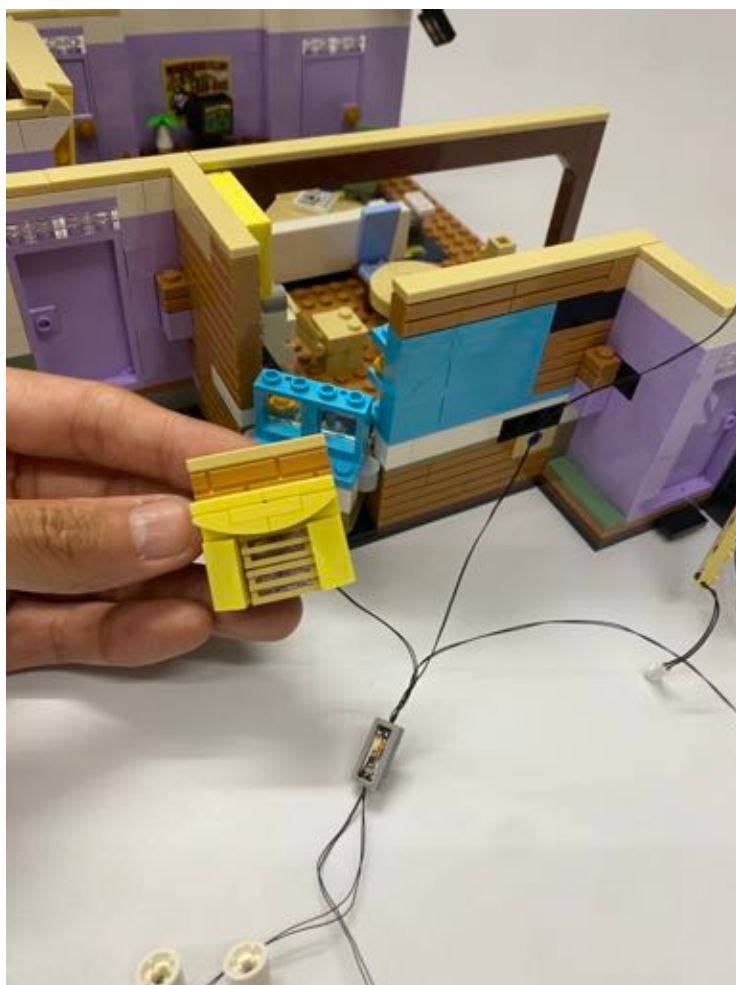

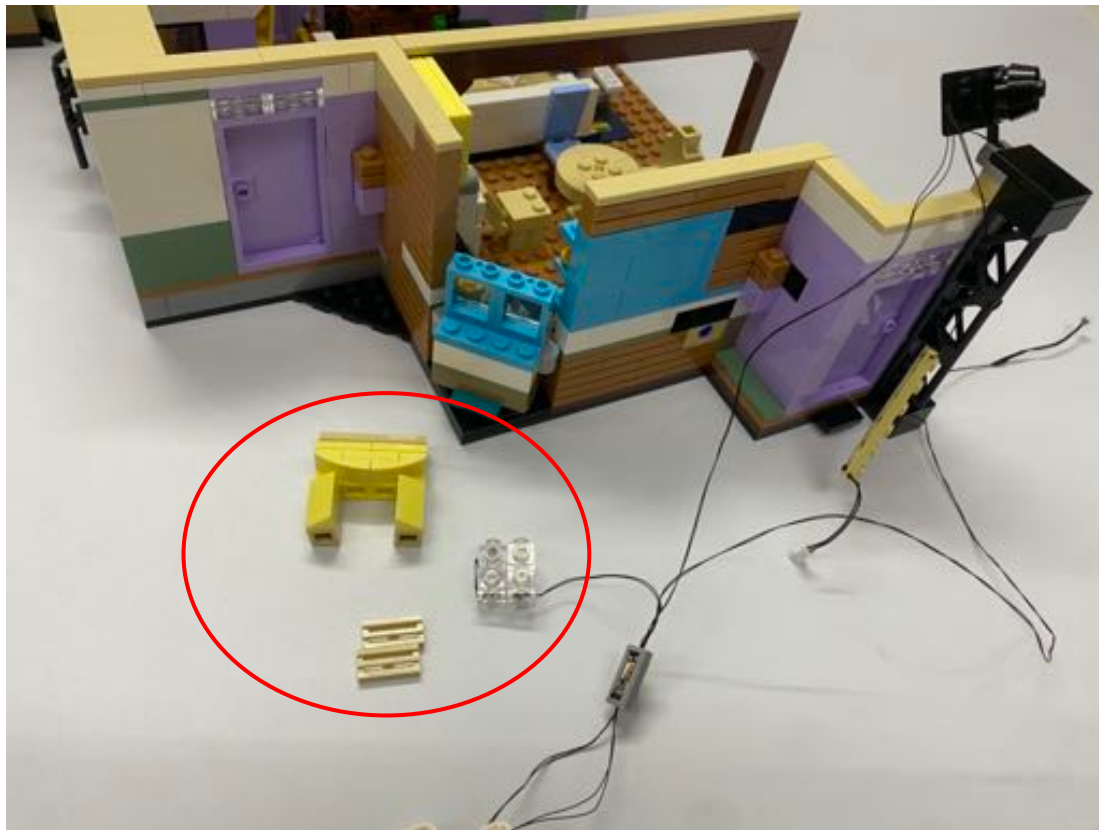

Take the other spot light off and install the lights

Remove the curtain and detach the clear parts away, replace it by the lighting parts

Restore the curtain, install the lighting grey tile as shown

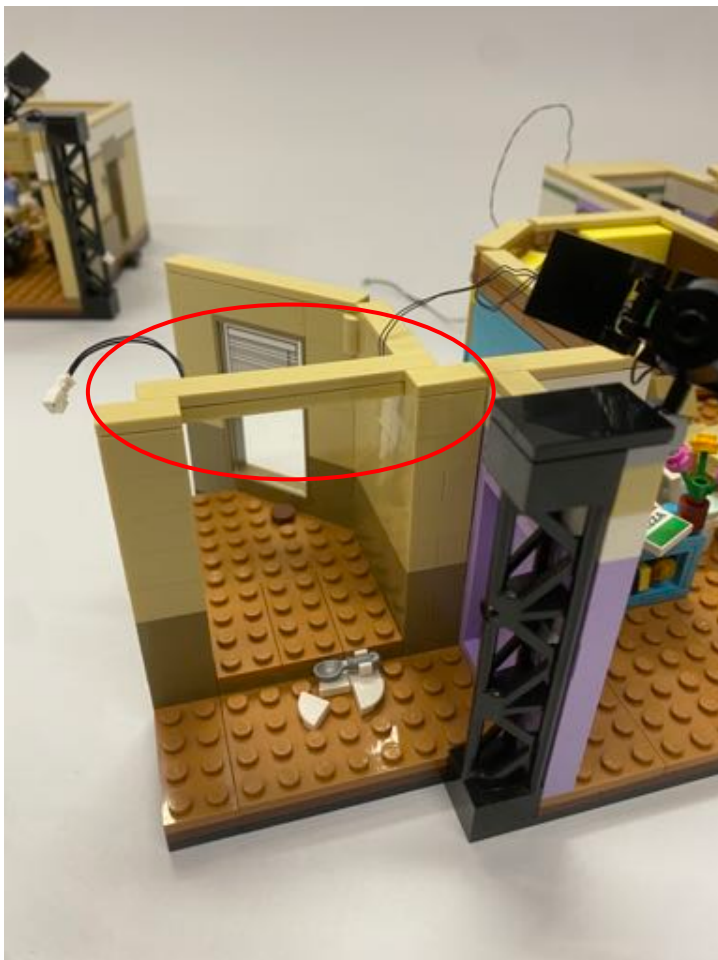

Remove the white cones, replace by the lighting parts

Install the brown lighting plate as shown

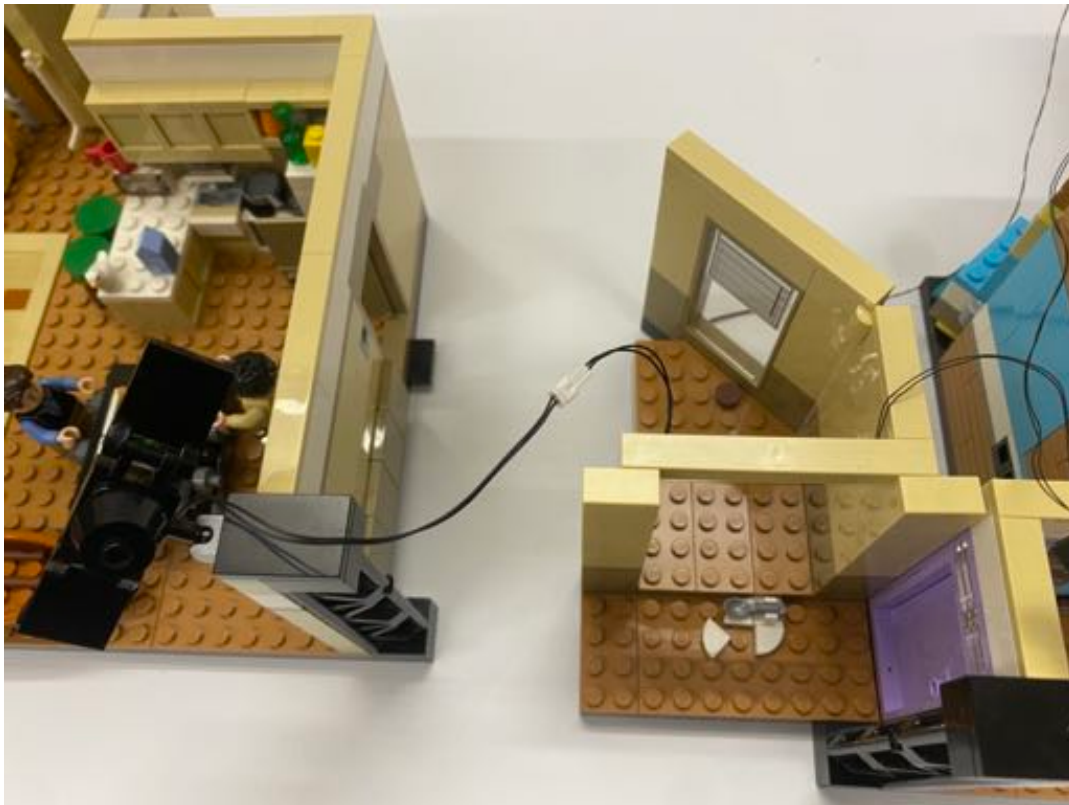

Back to the spot light, install the tan lighting plate to the hallway

Connect with other side of the room, also the wire from spot light

Connect with the USB cable then that's done
