

LEGO 76387

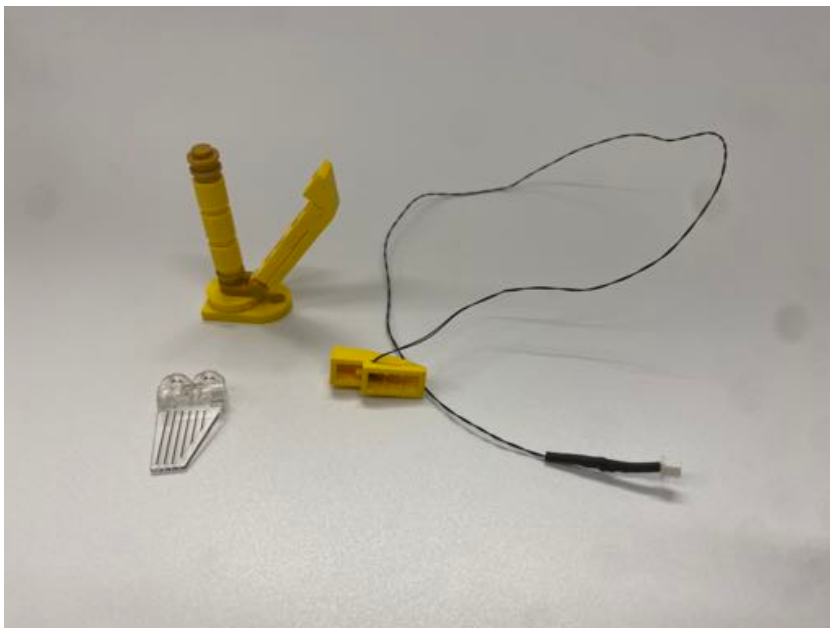

Harry Potter **Fluffy Encounter**

Installation Guide

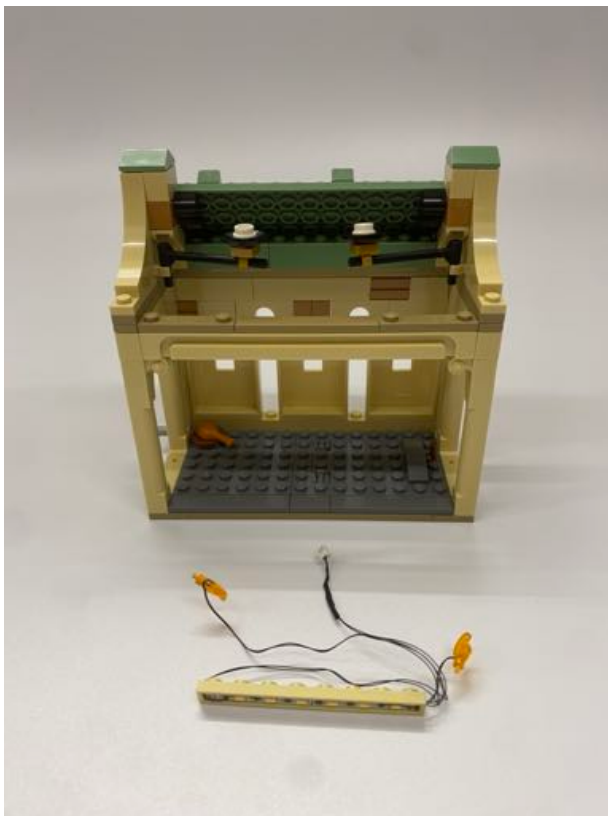

Take the lighting part shown, switch it to the the arch of the harp

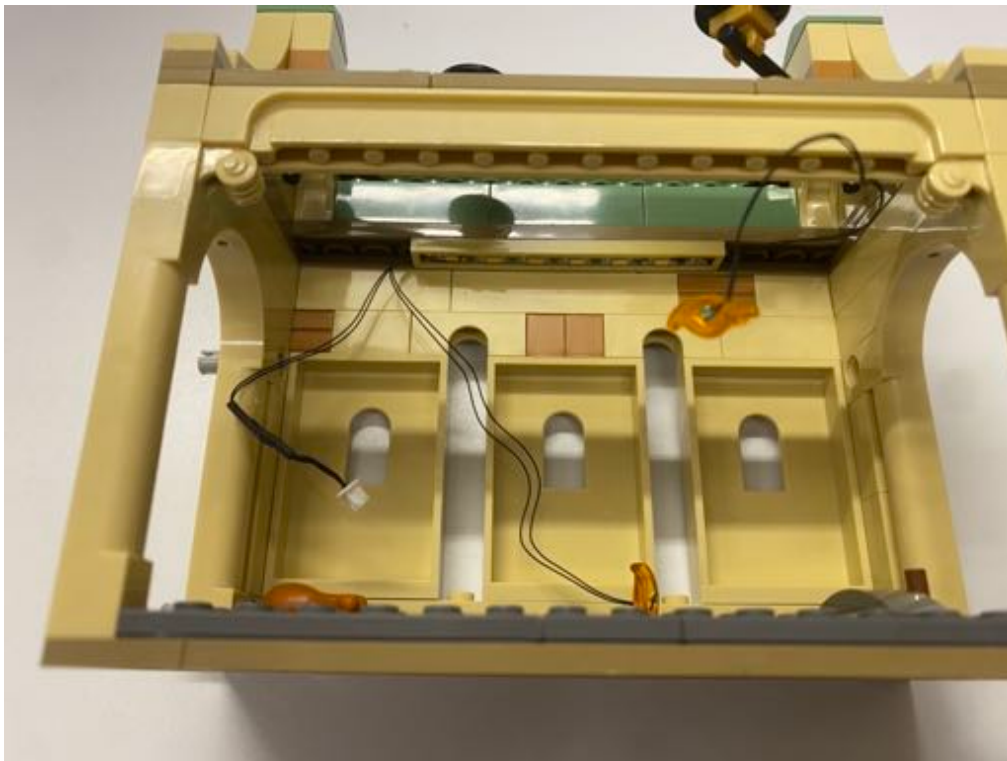

The installation for the harp is done

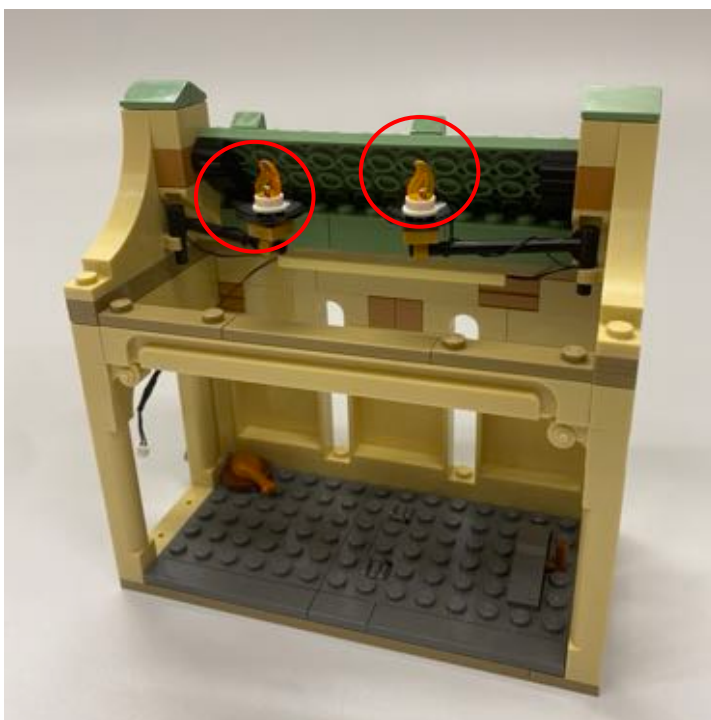

Take the shown lighting parts for this side of the house

Assemble the lighting plate to the deep inside, and make sure the connector face the left side

Then replace the fire by the lighting parts

Now its turn for the other house

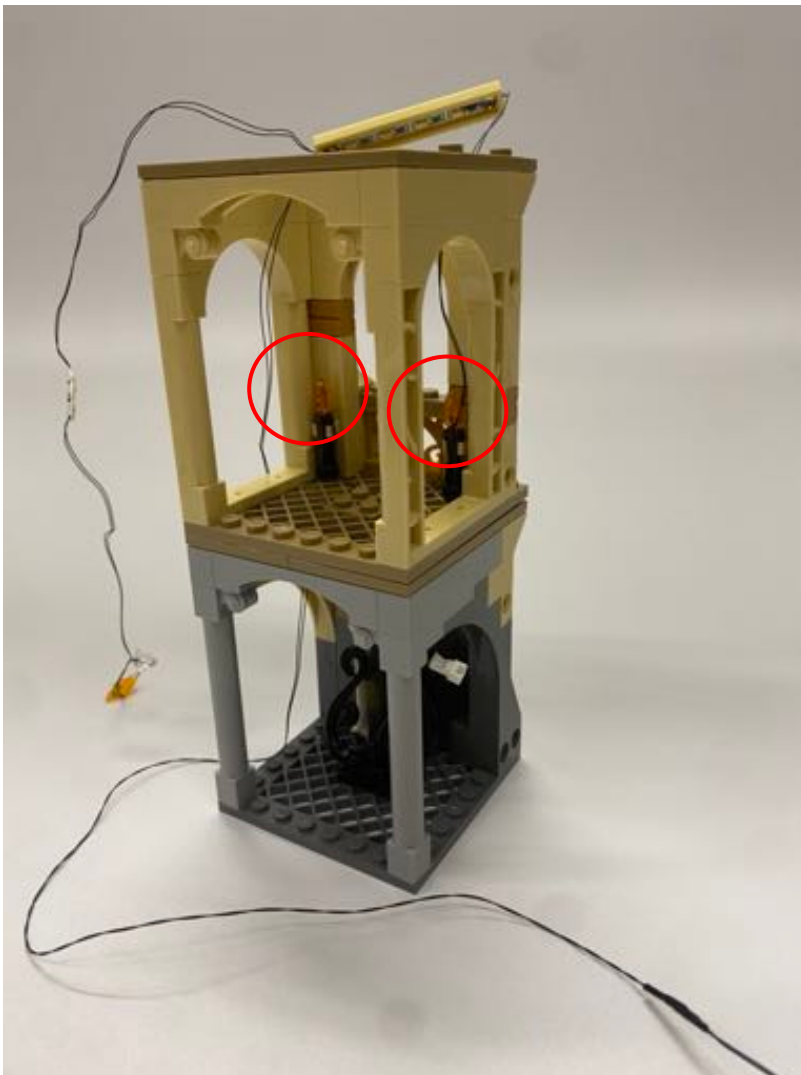

Start by separate the house by each floor

Install the lighting plate next to the short connector at the ceiling of 1st floor
Make sure the connector face the right side

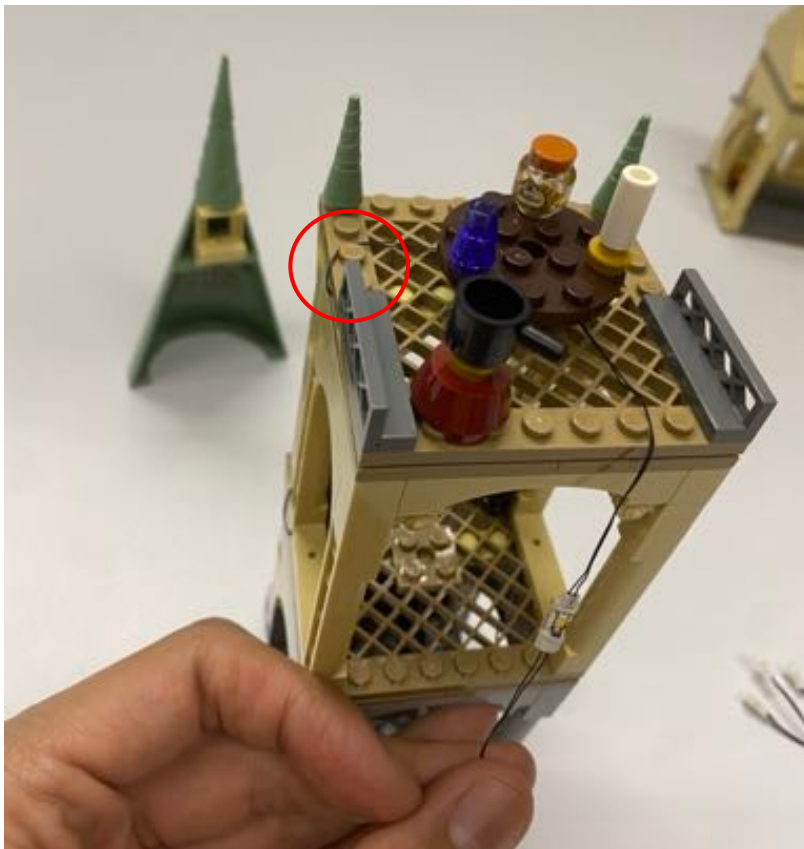

Combine with 1st floor, replace the fire of the 2nd floor by the lights

Assemble the lighting plate next to it to the 2nd floor ceiling

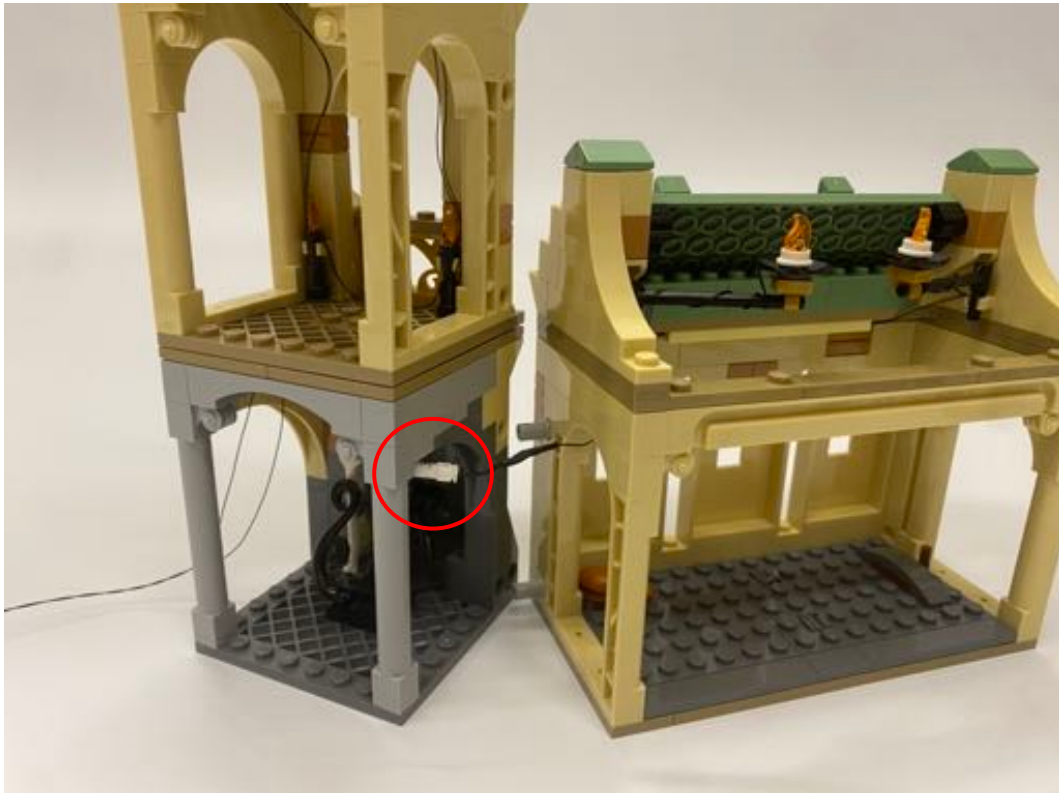

Pull the remain lights to the top floor, place the wire in between the studs

Put the green top back, assemble three lights to the following position

Combine the building, connect the wire before that

Connect the plugs with USB cable then it's ready to light up
