Santa's Visit

Installation Guide

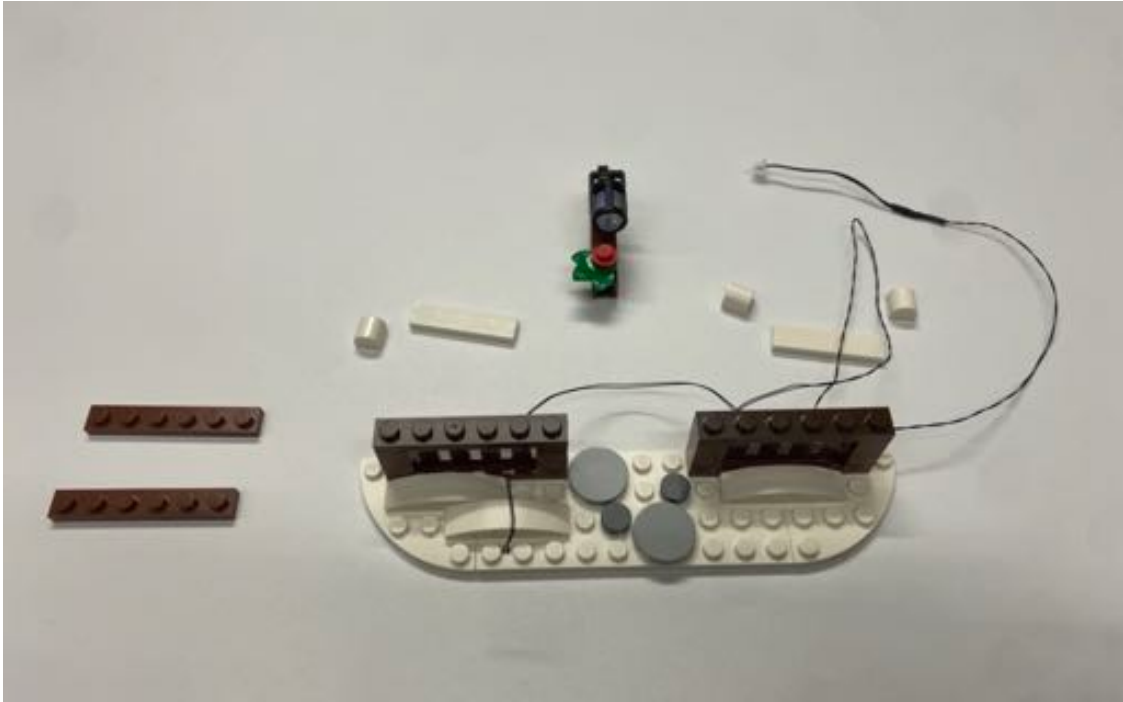

Take the shown lighting parts for the entrance

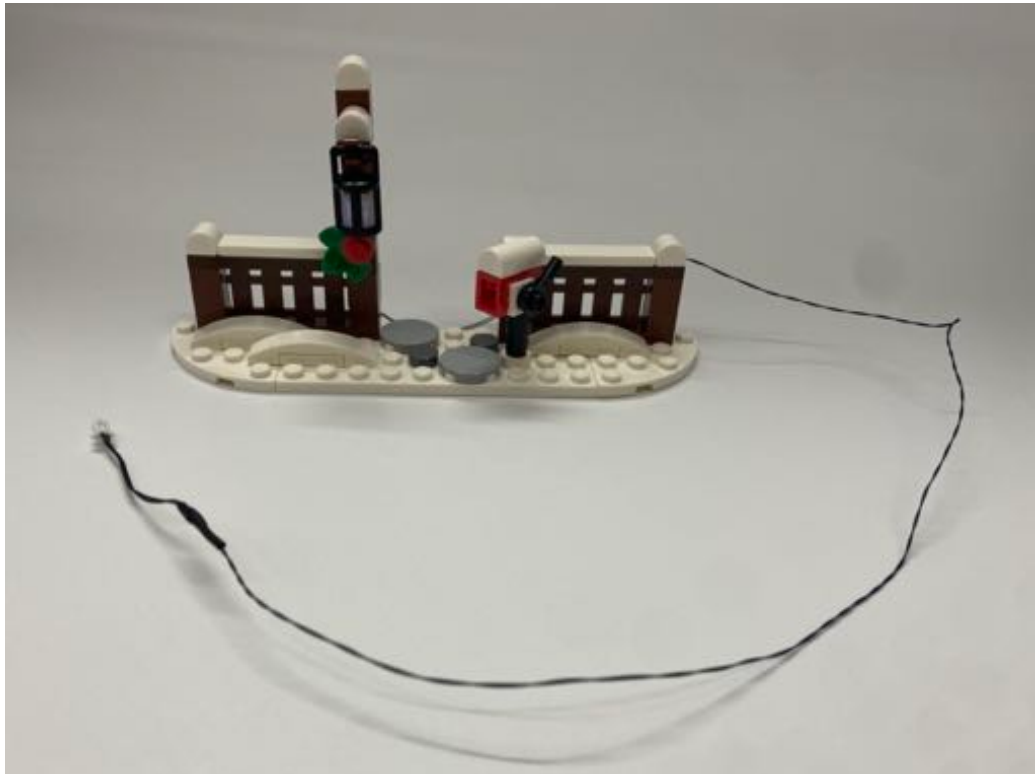

Remove the 1x6 plates from both sides, replace by the lighting parts by the exact direction

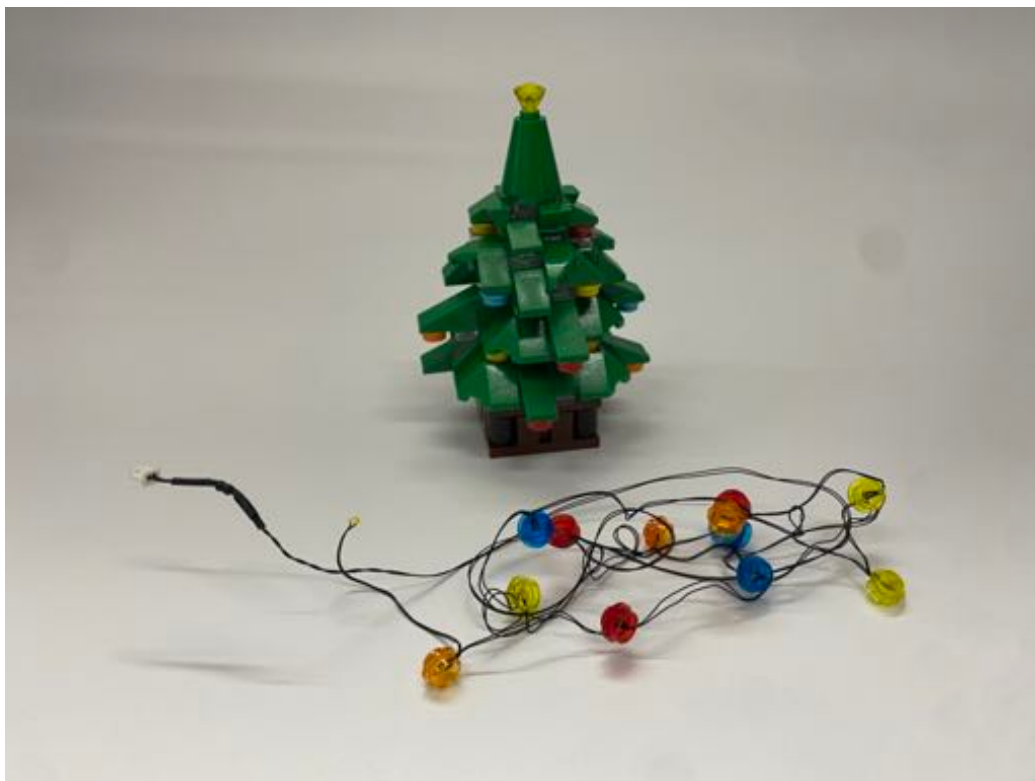

For the remain light, put it inside the clear round brick

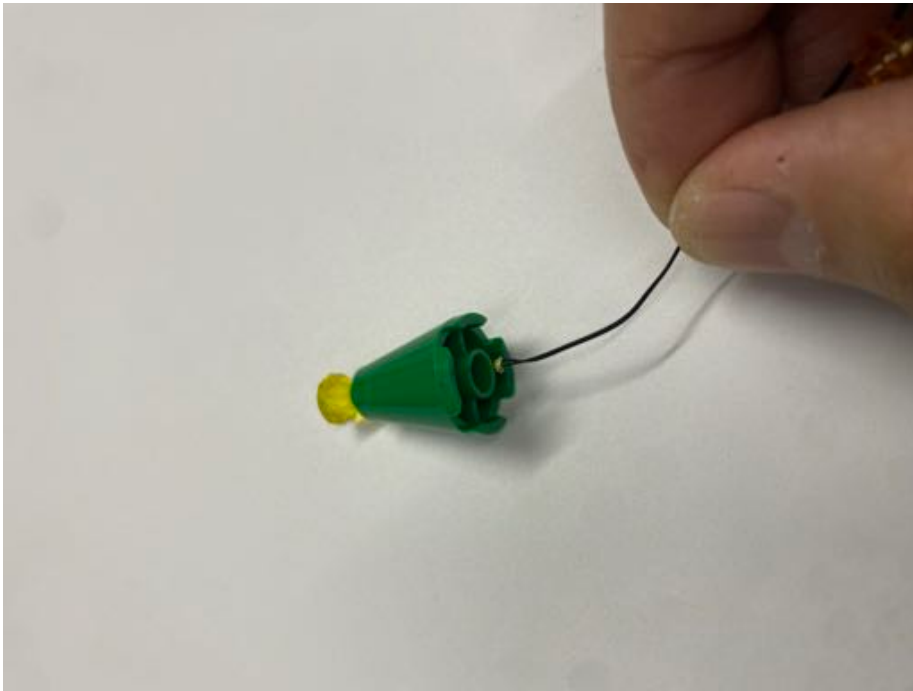

This part is done

Then assemble the lights for the tree

Start from the light bulb at the end, put it inside the cone

Restore the green cone, assemble the orange lighting round plate to the orange round plate at the middle

Keep assemble the lighting round plates by following the color

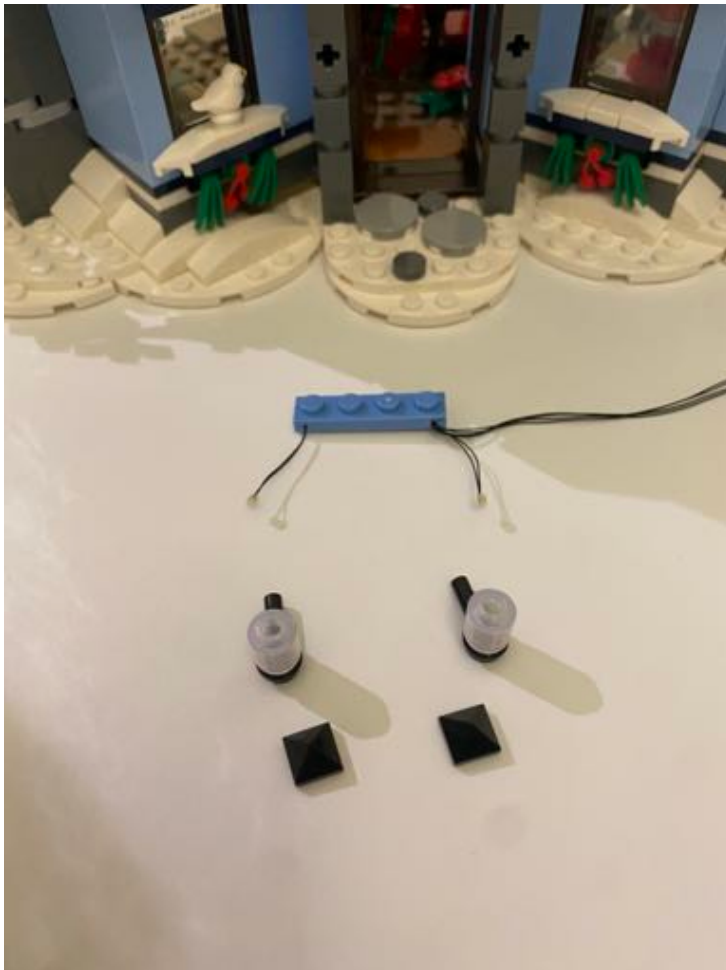

The tree lights is done

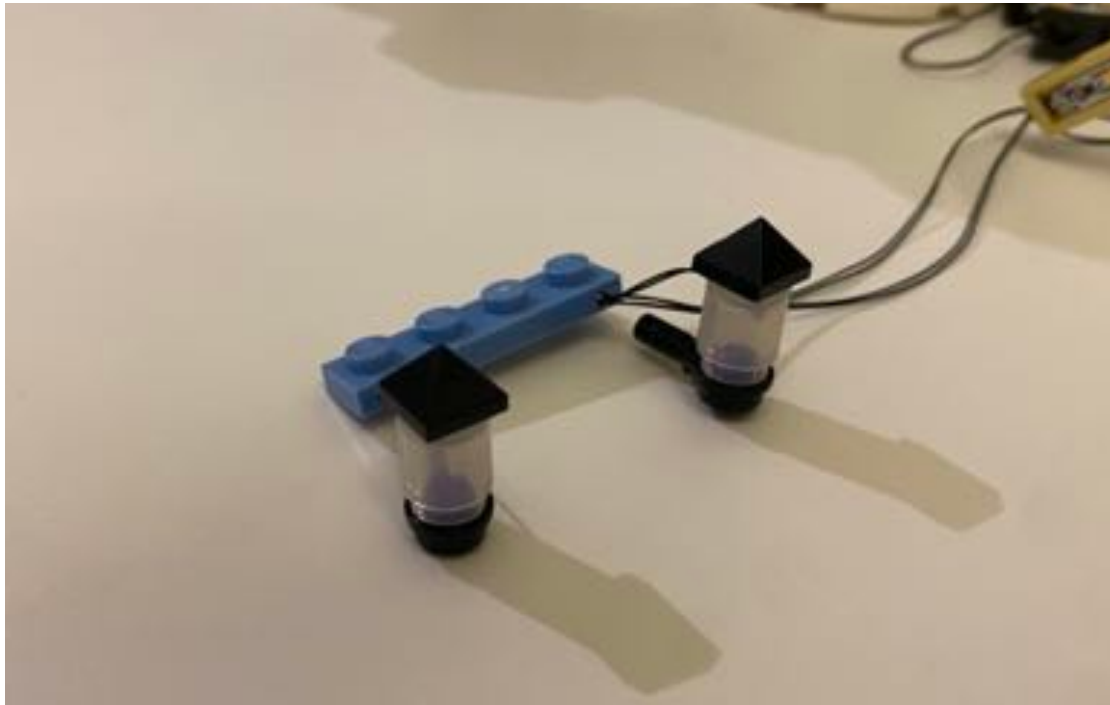

Now it's turn for the house, get the remain lighting parts be ready

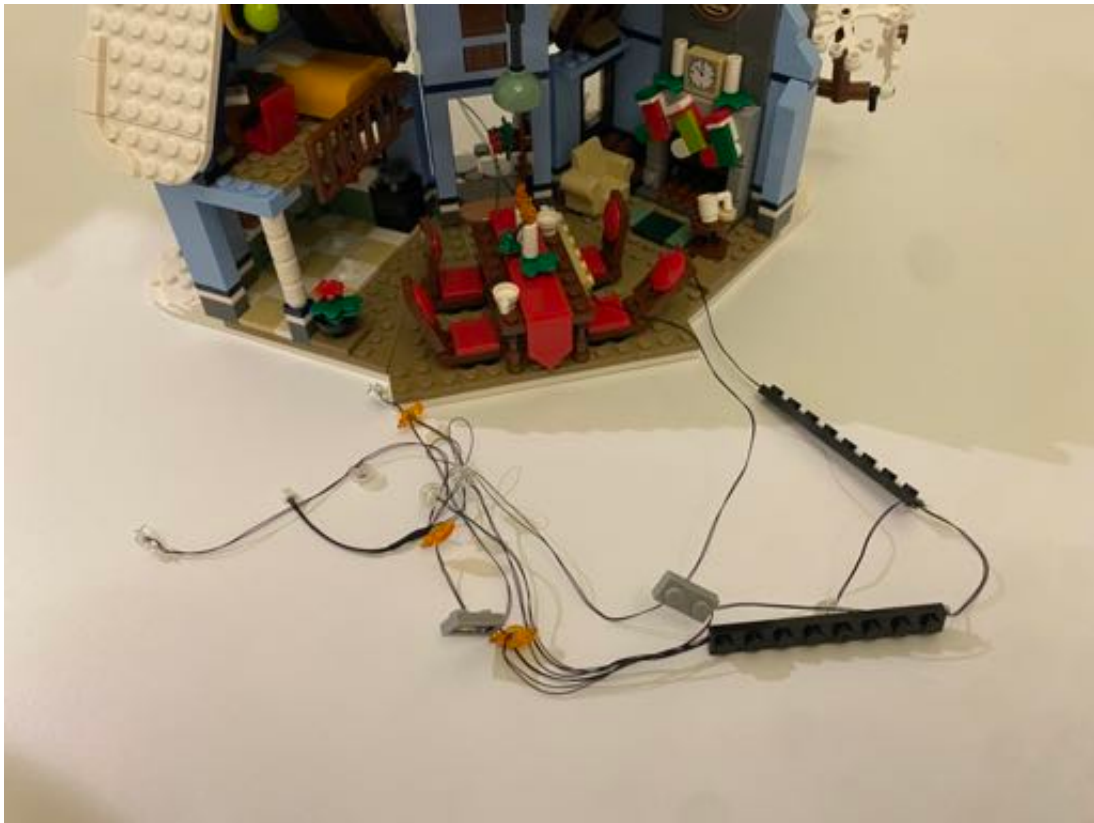

Start from the front door, remove the lamps and their tops, take the lights from 1x4 blue at the end

Put the bulbs inside the clear round bricks
Then restore the lamps and assemble the 1x4 lighting plate as shown

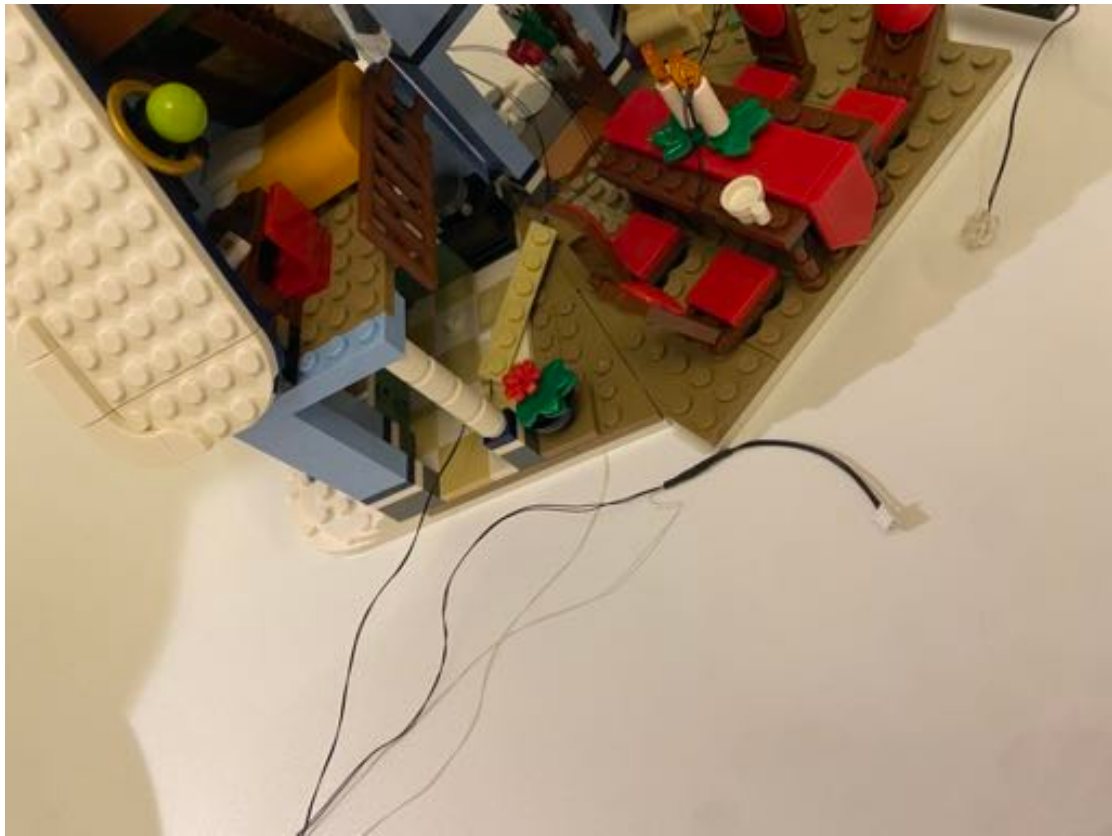

Then pull the remain lights through the door

There're 2 lighting fires are separated, assemble them on the table first

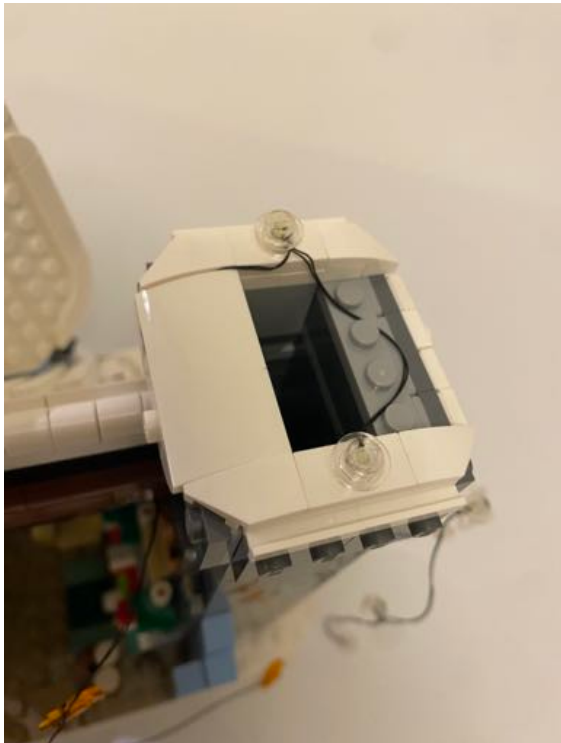

For the 1x6 lighting tan plate next to the connector, move it to the certain area and assemble it on the ceiling

Assemble the black lighting plates and the clear round plate as shown

For the clear round plates next to it, assemble 2 of them on the chimney
The rest 3 will be assembled on the tree

Replace the fire by the lighting fires, the wires can be covered by the picture

The remain lights will be assembled to the top

Assemble the grey 1x2 plates on both side and replace the lighting fire at the front

At last, connect all three connectors to the USB cable
