

Lego 21328

Seinfeld

Installation Guide

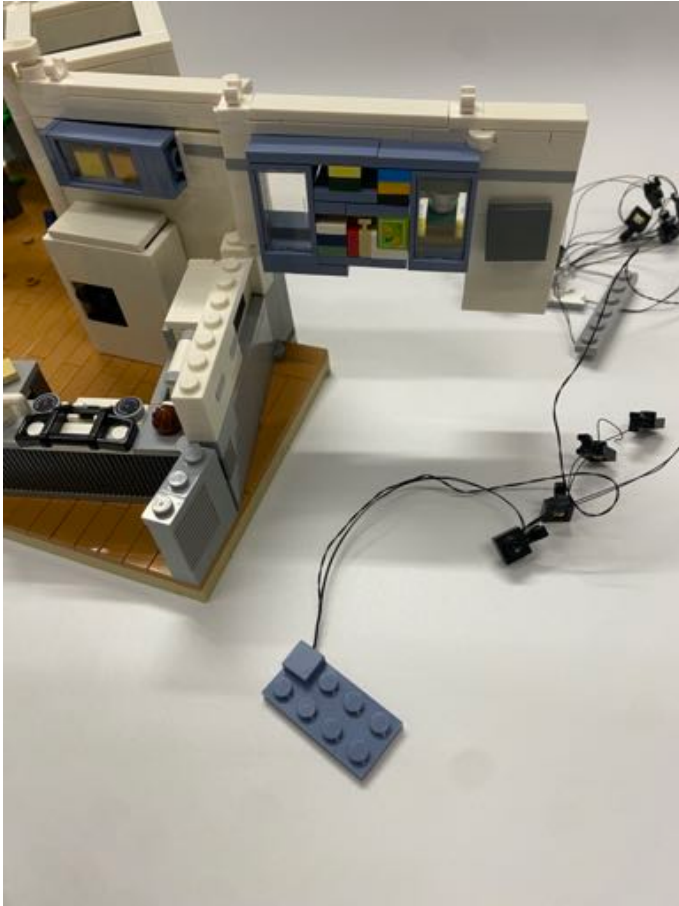

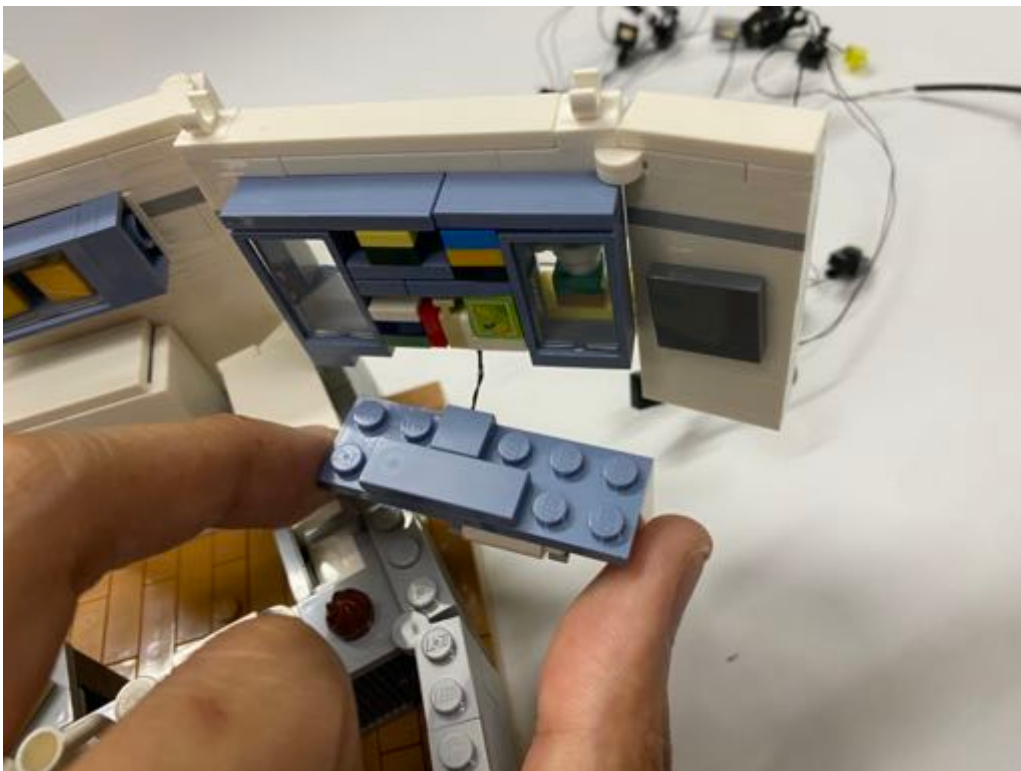

Start by removing all the spot lights and the black plates attached at the head

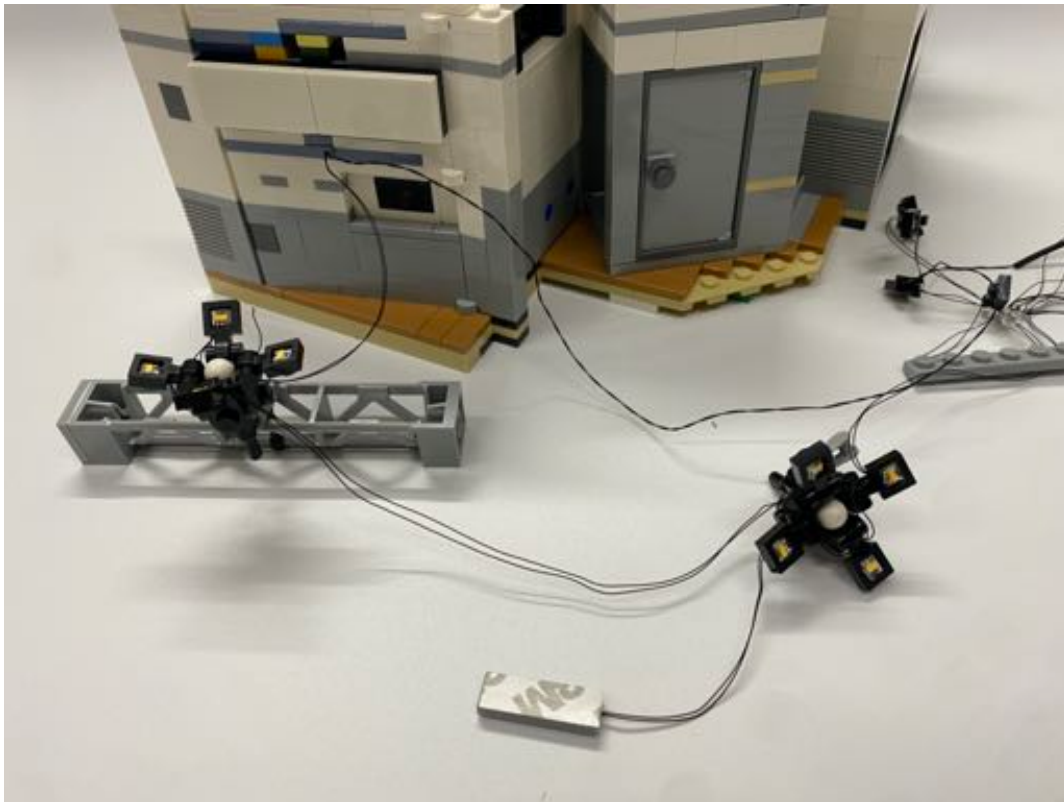

Then remove the 2x4 blue plate from the shelf and take the 1x1 tile to place on the 2x4 of lighting part

Put it back to the shelf then restore the wall

Turn the model around, install the lighting parts on the spot lights

Restore the spot lights

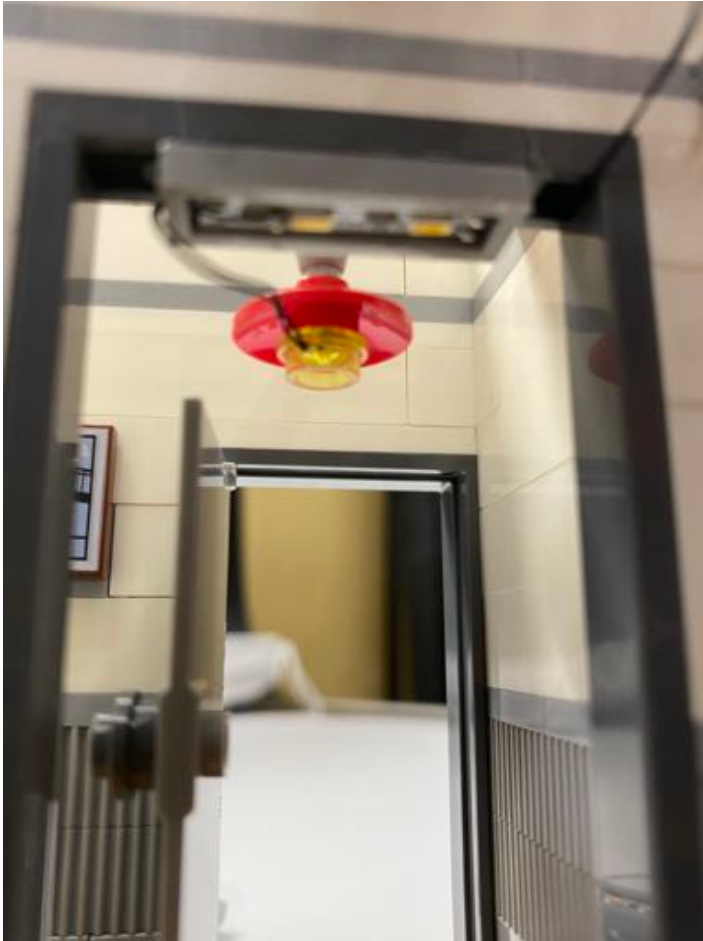

And stick the lighting tile above the fridge

Restore the spot light next to it

Then place the lighting 1x3 and round plate

Restore the last spot light

At last install the lighting plate and the clear round plate to the lamp
