

Lego 75980

Harry Potter

Attack on the Burrow

Installation Guide

First of all detach the top part of the house and install with this lighting parts

Take off the shown parts

Install the black lighting plate as shown

Install the 1x2 to the end of the brick then restore it

Stuck the wire in between the studs then restore the parts removed before

Place the remain lighting plates to the lower level

Then install them as shown

Now place the wire next to connector under the bed

Now the top part is done

Split the house in this way to install the lights

Take out the candles and the lamp post, replace the parts by this lighting parts

Restore the candles and lamp, place the lighting plate at the middle

Restore the top, stable the lighting plate from last step

Now take this lighting parts out

Install the 1x4 on top of the front door

For the tan lighting plate next to it, remove the orange parts, install it as shown then put the orange part back

Replace the fire in the fireplace by the lighting part

Then it's turn for the last lighting parts

Install the tan plates next to the connector to the 2nd floor
Need to install it exactly as its shown

Then install the 1x2 brown and the 1x4 tan next to the brown

Then install the last 1x4 tan

After that install the plates to the floor below it

Now connect the wires with the other lighting parts

For the wire connecting the USB port, remove the 1x3 brick in the red circle then pass the wire through the hole

At last combine the building with the top and connect the wires
