

# Lego 21331

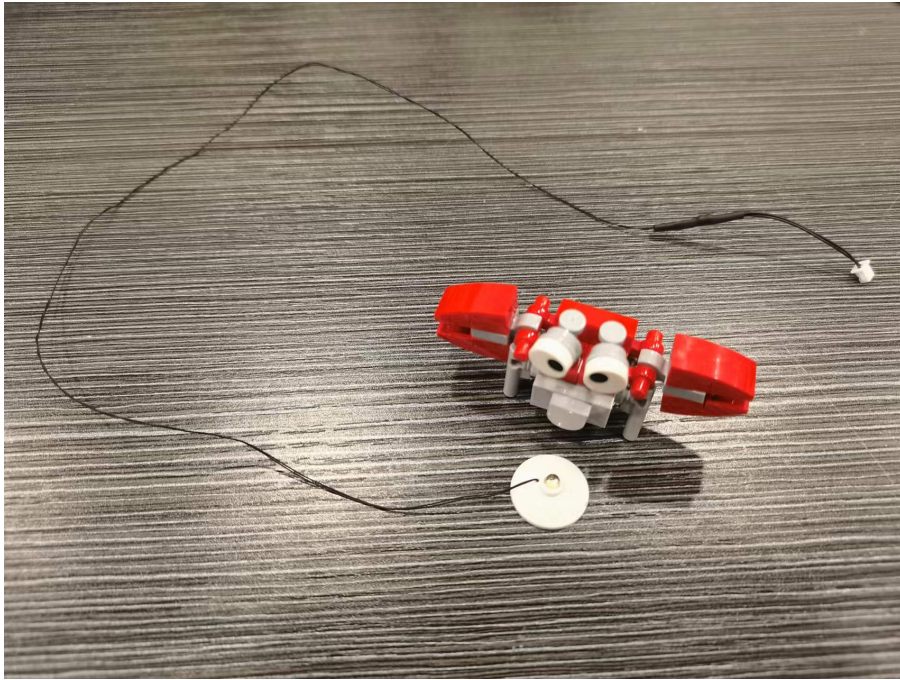

## Green Hill Zone

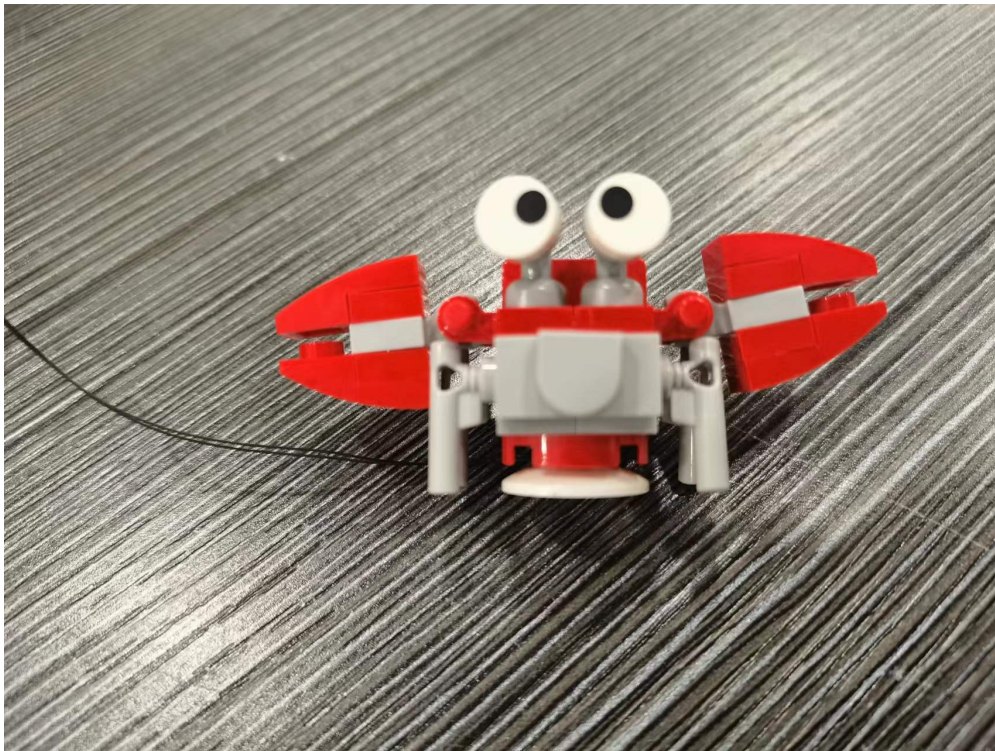

### *Installation Guide*

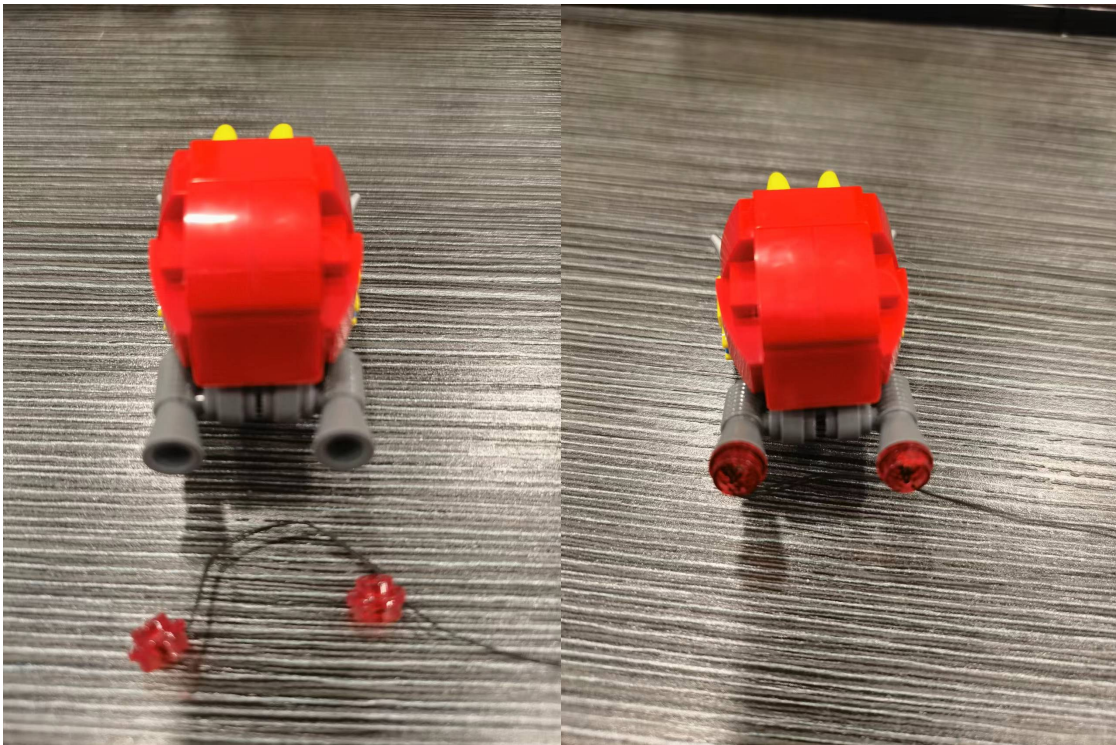

Start from the single white dish lighting part for the crab

Place it at the bottom of the crab to replace its dish

Replace the shown red round plates by the lighting round plates

Then take the shown lighting parts to modify the rack of the gems

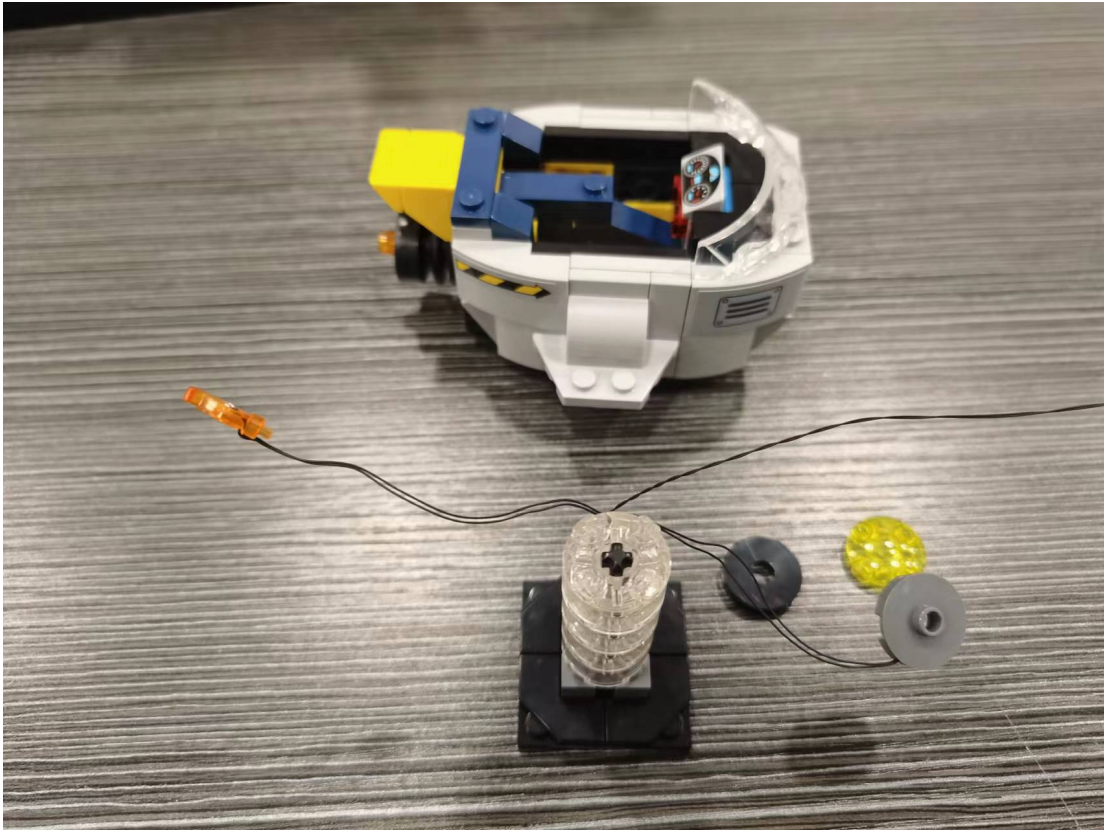

Remove the gems then replace the tiles of the rack by the lighting part

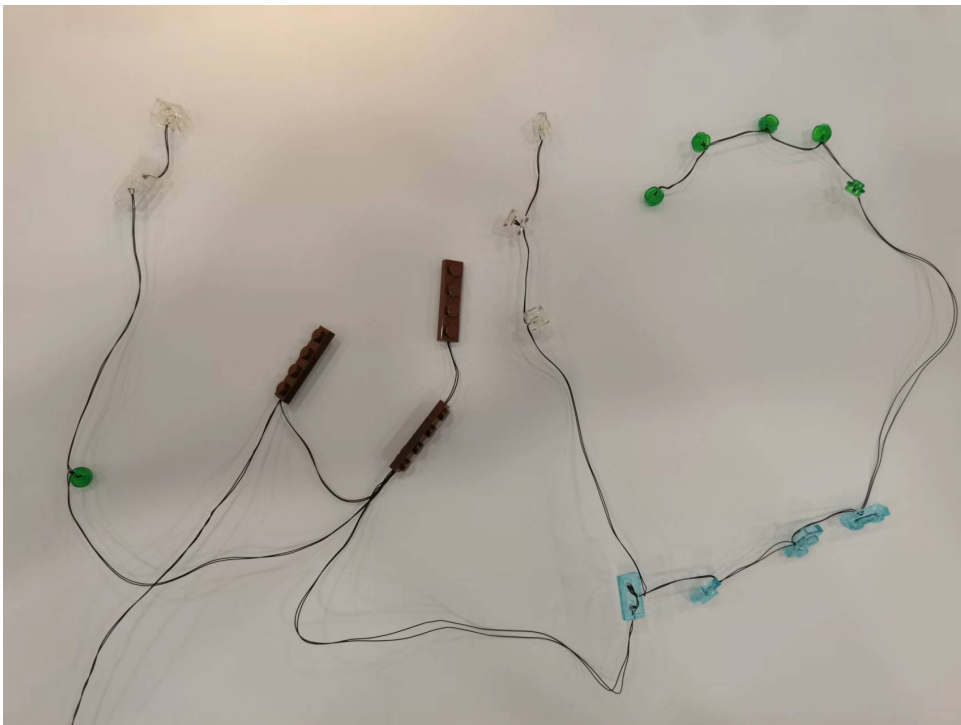

Take the shown part to assemble on the flying ship

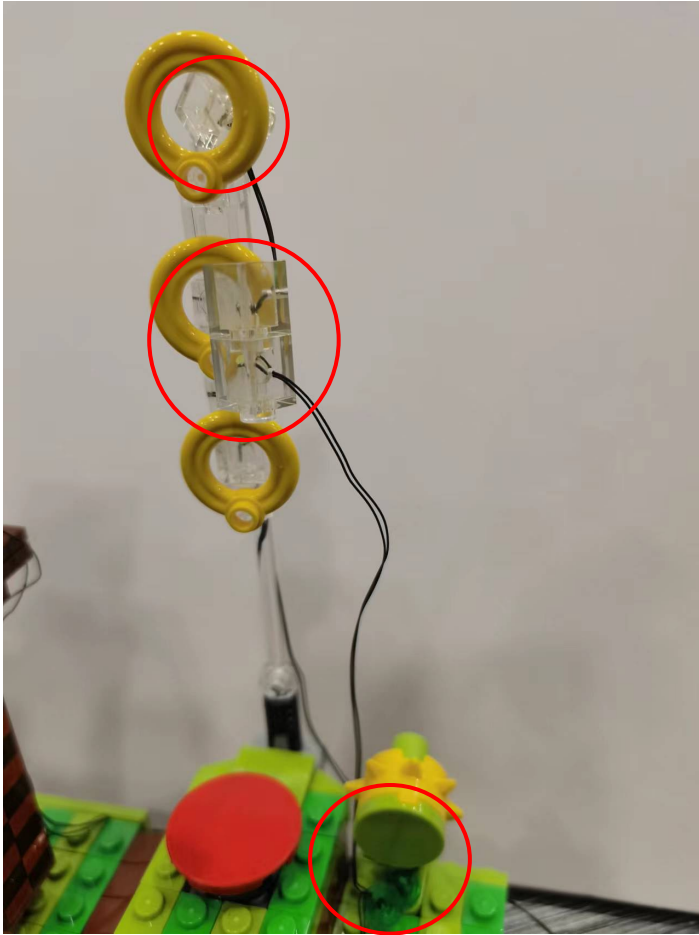

Take the ship out, replace the clear round bricks by the lighting part,  
Then put the ship back and replace the lighting fire and the front light

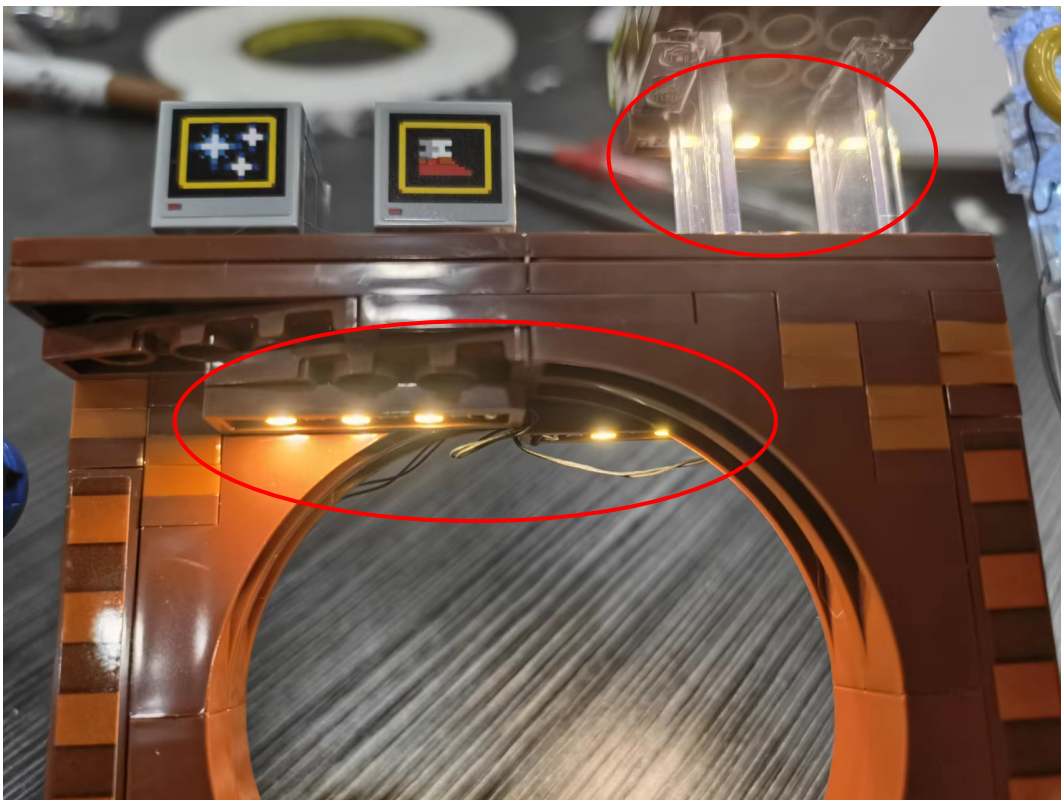

Now take this lighting parts to assemble it on the base

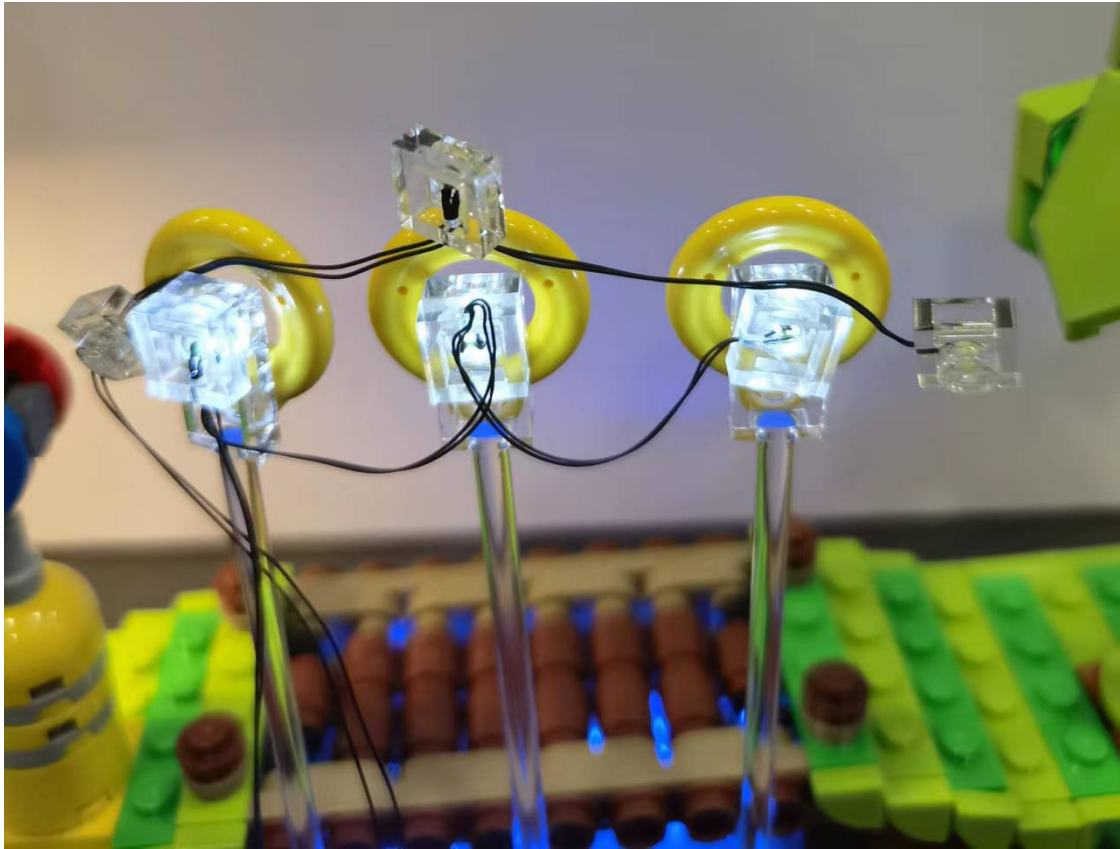

Assemble the clear bricks and the green round plate follow by at the shown spots

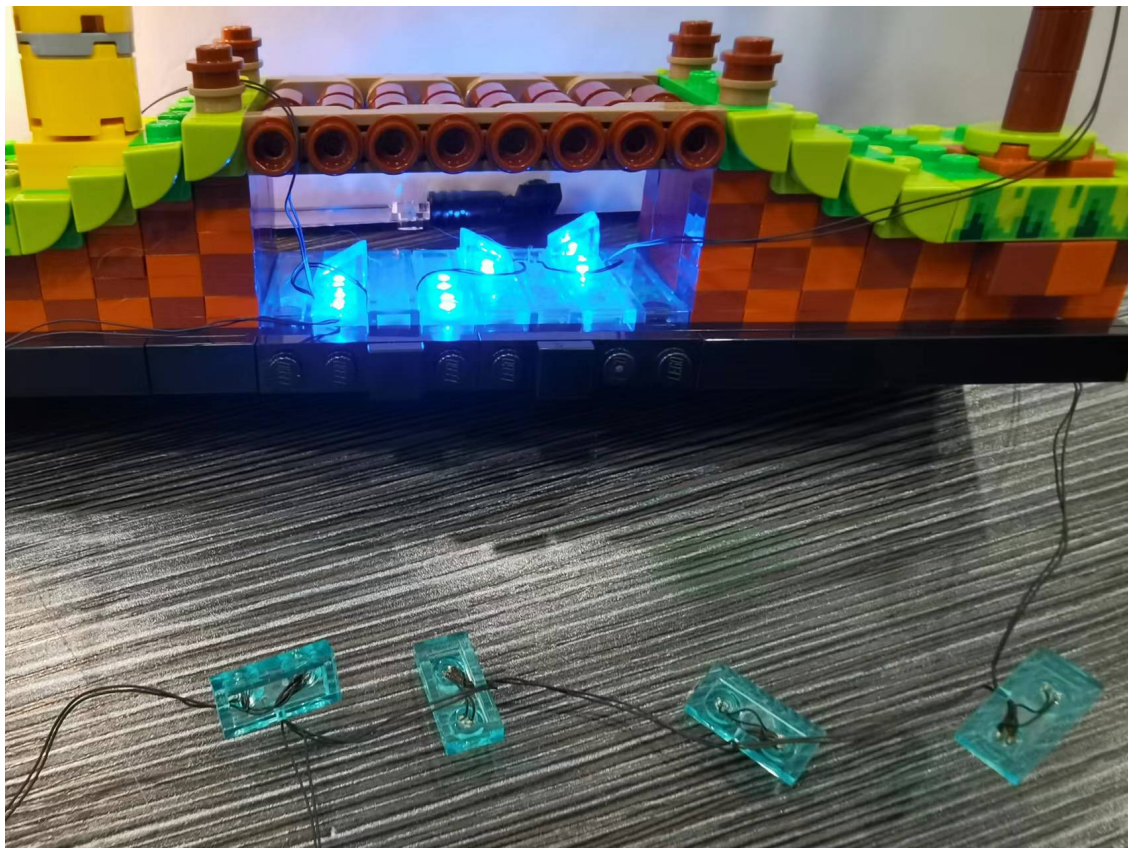

For the three brown lighting plates followed by it, assemble them on the brown circle  
The single one on top and the rest two at the lower level

Assemble the 3 pieces of lighting plates at the rings above the bridge

The blue 1x2 lighting plates will be assembled on the rive  
Remove some plates from the model to put the lights on

At last, assemble the green lighting round plates on the tree
