

# Lego 21333

*Vincent van Gogh – The Starry Night*

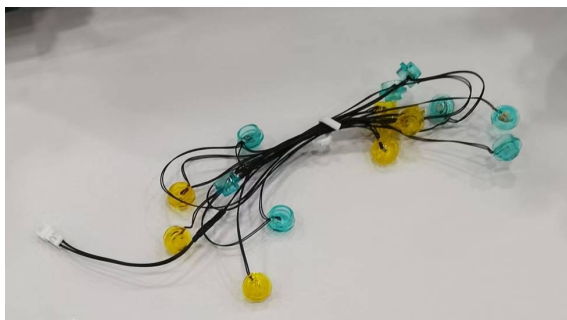

*Installation Guide*

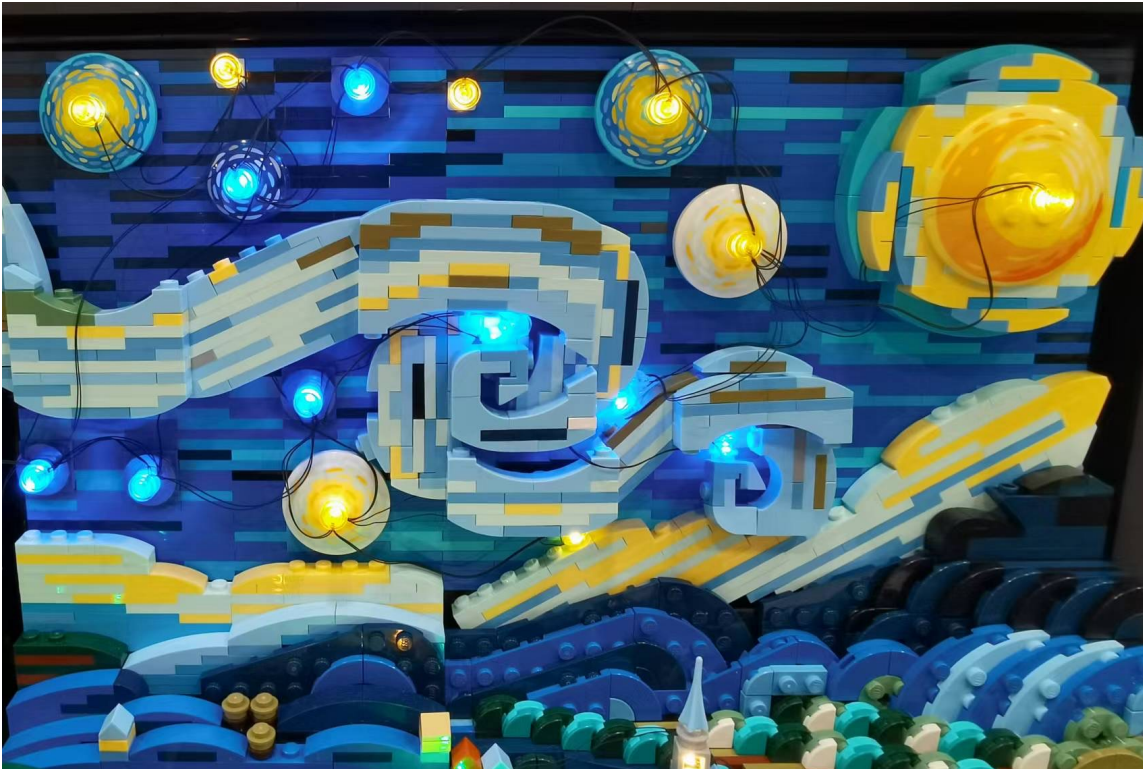

Take the lighting part with yellow and blue round plates only, assemble them on the "sky" to replace the tiles on it

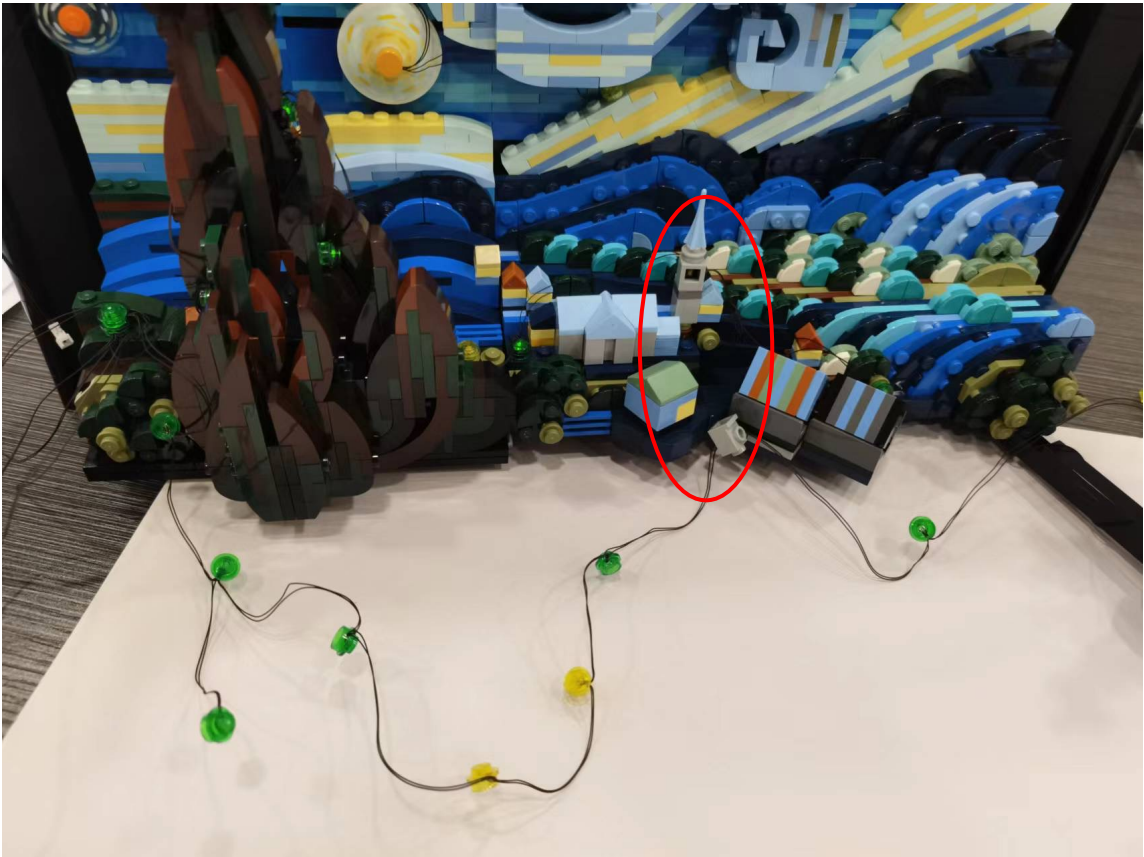

\*Start from the blue round plate next to the connector at the red circle spot

Looks like this when the light's on

Now take the other lighting part to assemble at the bottom  
The remarkable spot should be the grey brick, replace it with the one at tower first

Assemble the yellow lighting plate at the end to here

Then assemble the remain lighting round plates in between the woods randomly

At the end, gather two connector plugs and connect with the USB cable
