

Lego 76402

Hogwarts: Dumbledore's Office

Installation Guide

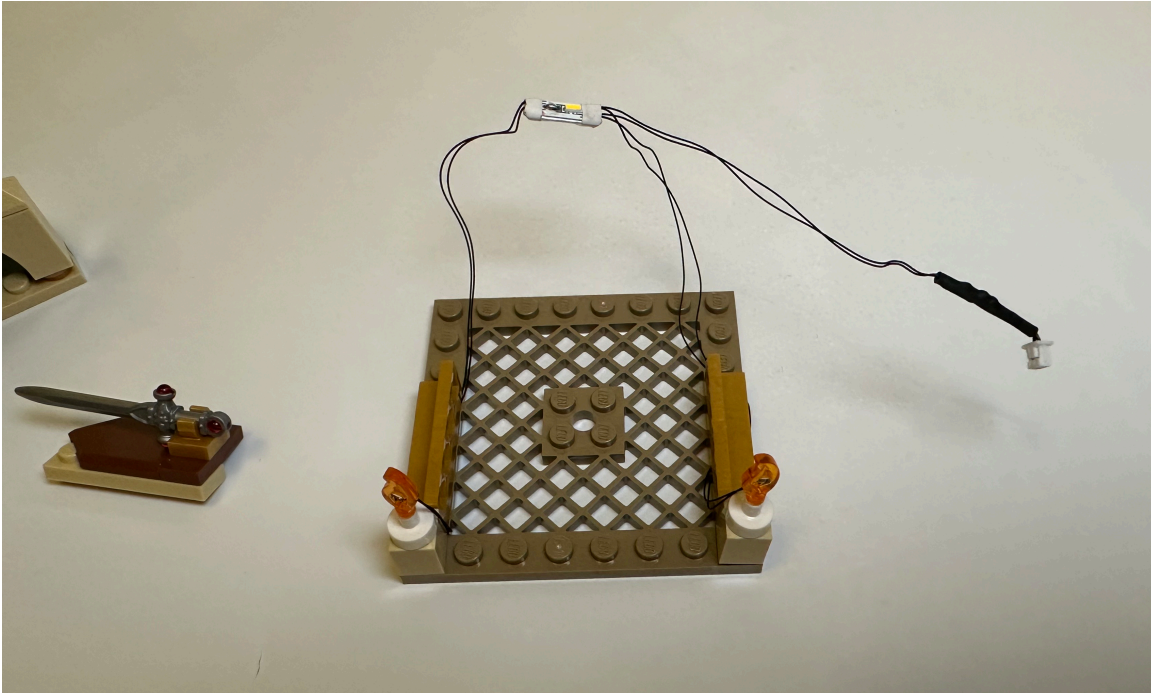

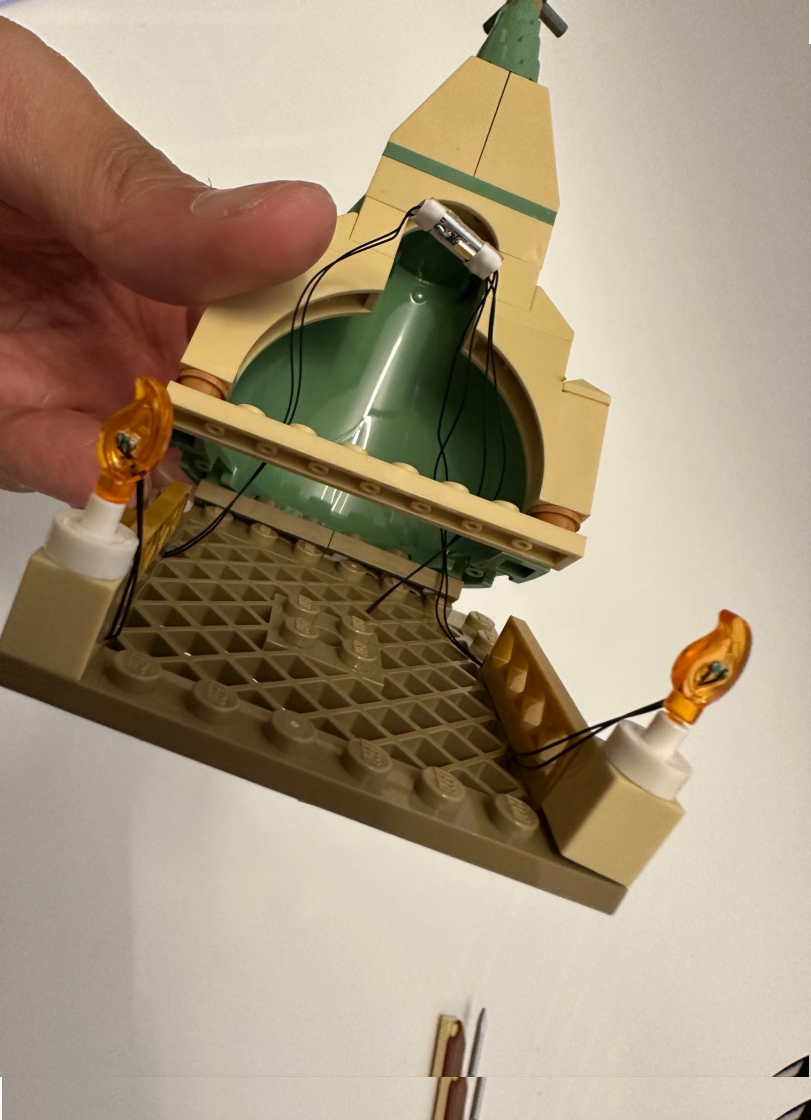

Take out the roof top and assemble with lighting part A

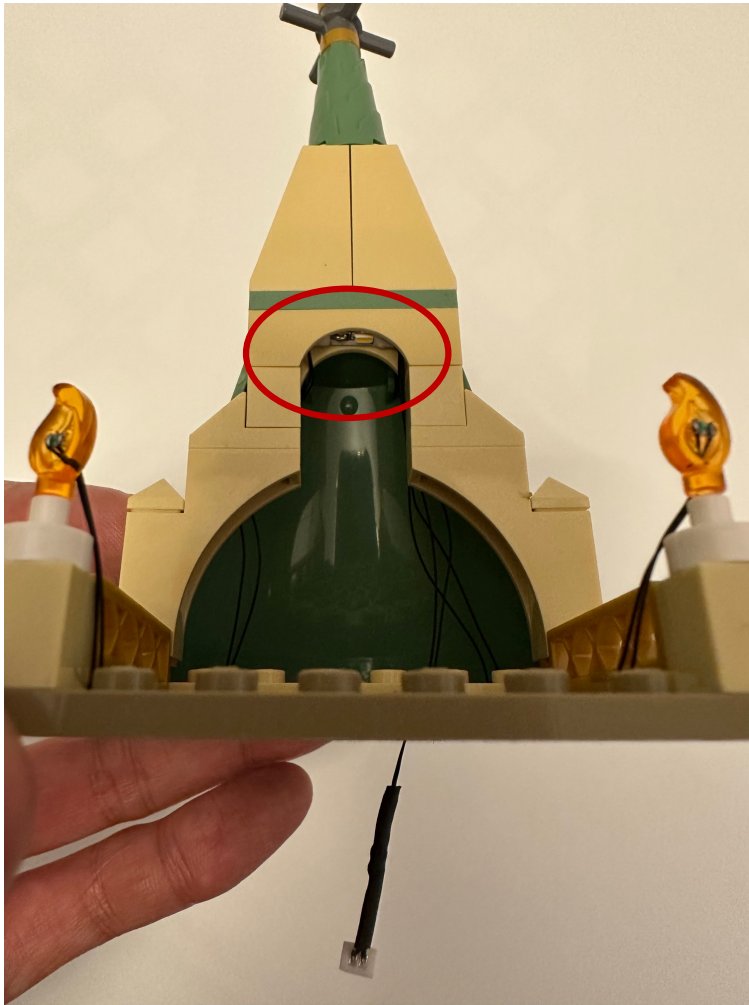

Detach the top, replace the flame by the lighting parts

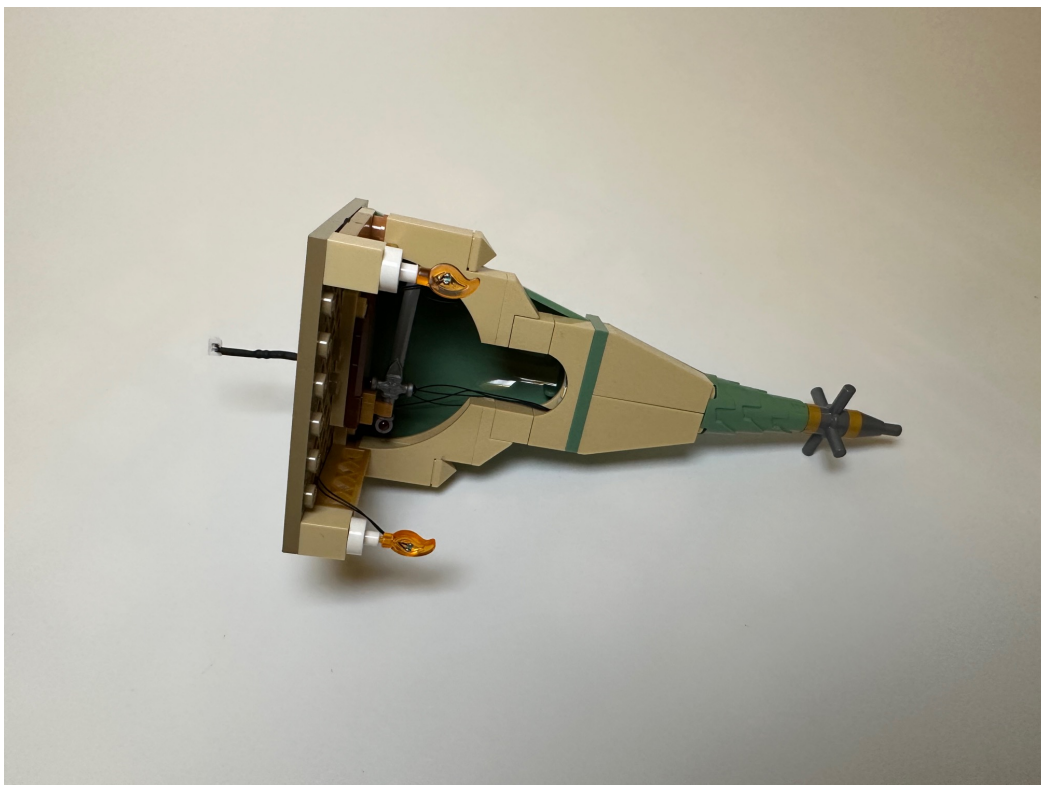

Restore the top and the cables would be placed behind the plate

Stick the led bar on the top in the red circle area

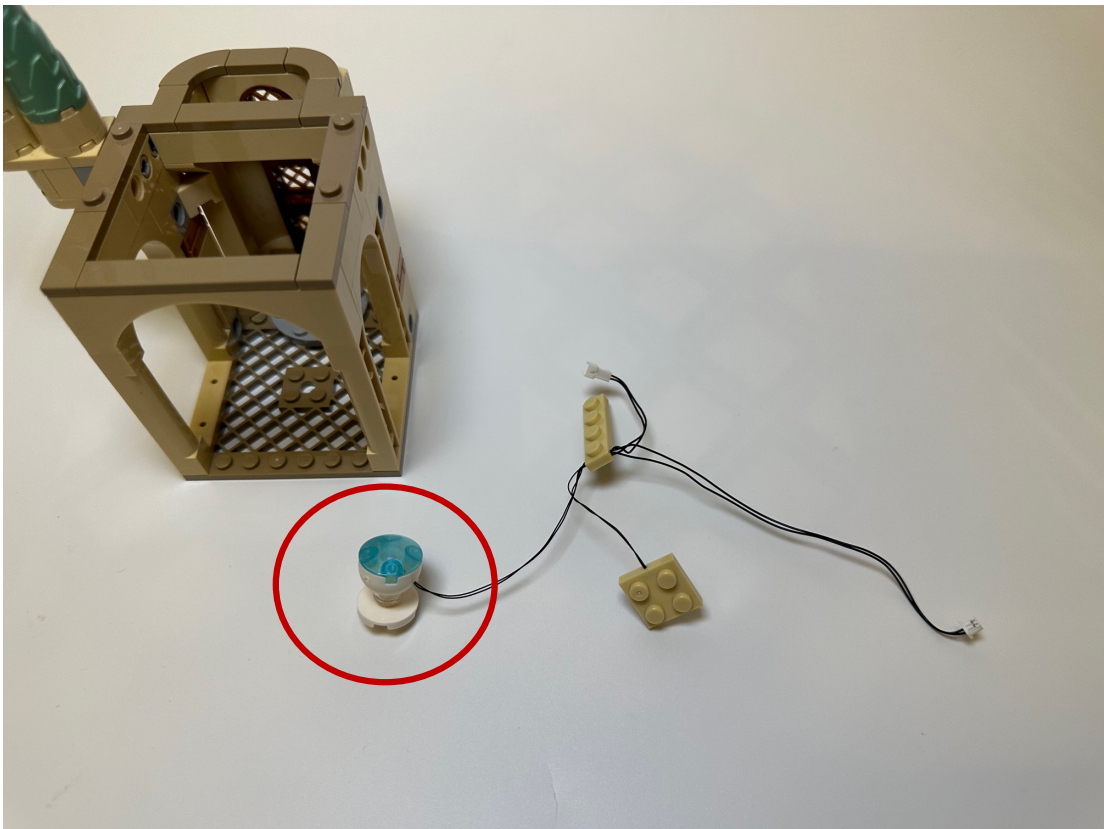

Pass the connector through the bottom

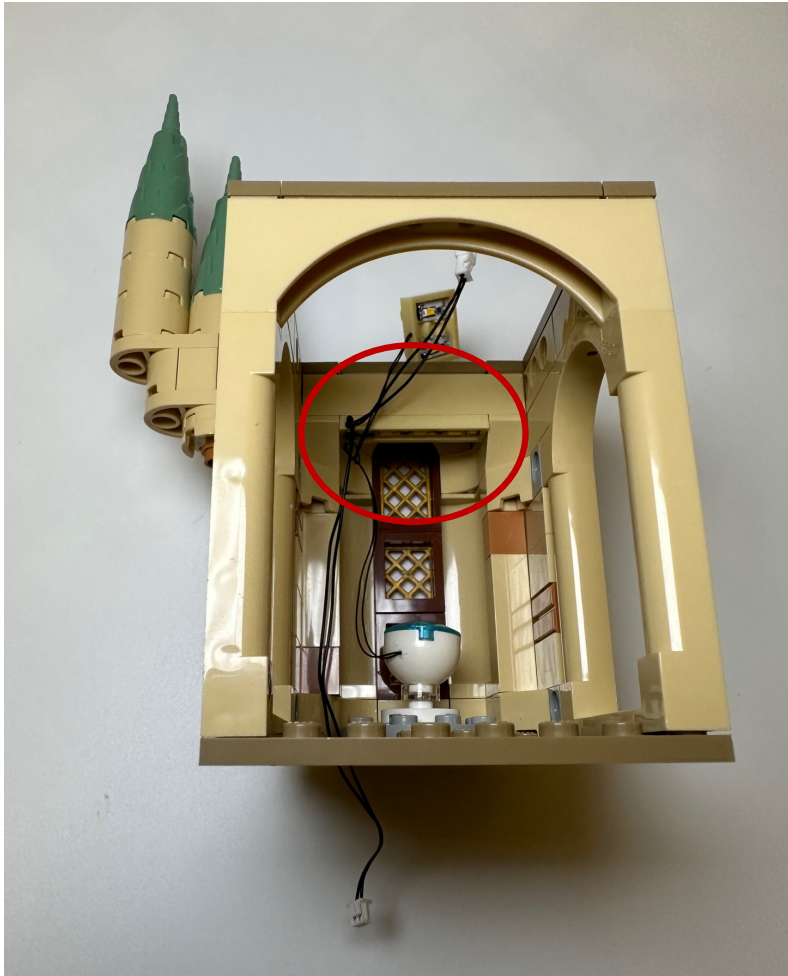

Take the lighting part B to assemble to the building part below the roof

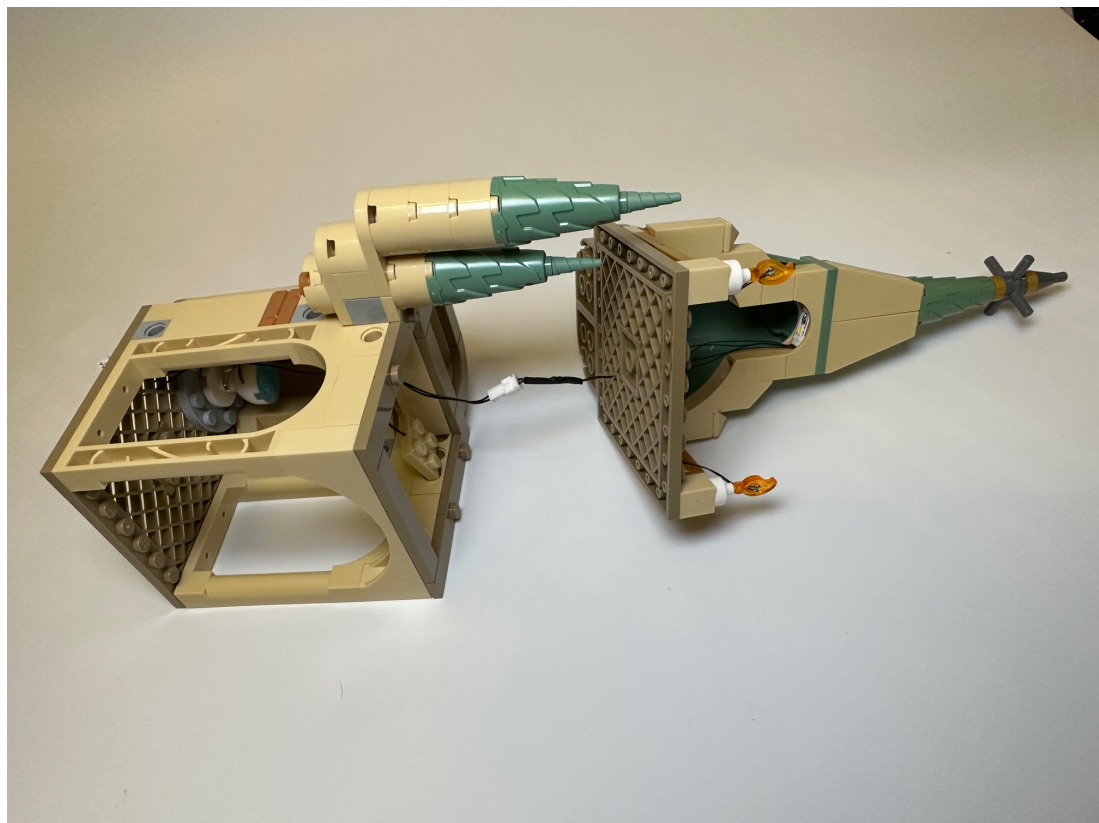

Replace the white round block by the lighting part

Assemble the 1x4 lighting plate, then pass the connector through the bottom

Connect with the plug from top then combine them

The left behind 2x2 lighting plate will be assembled here

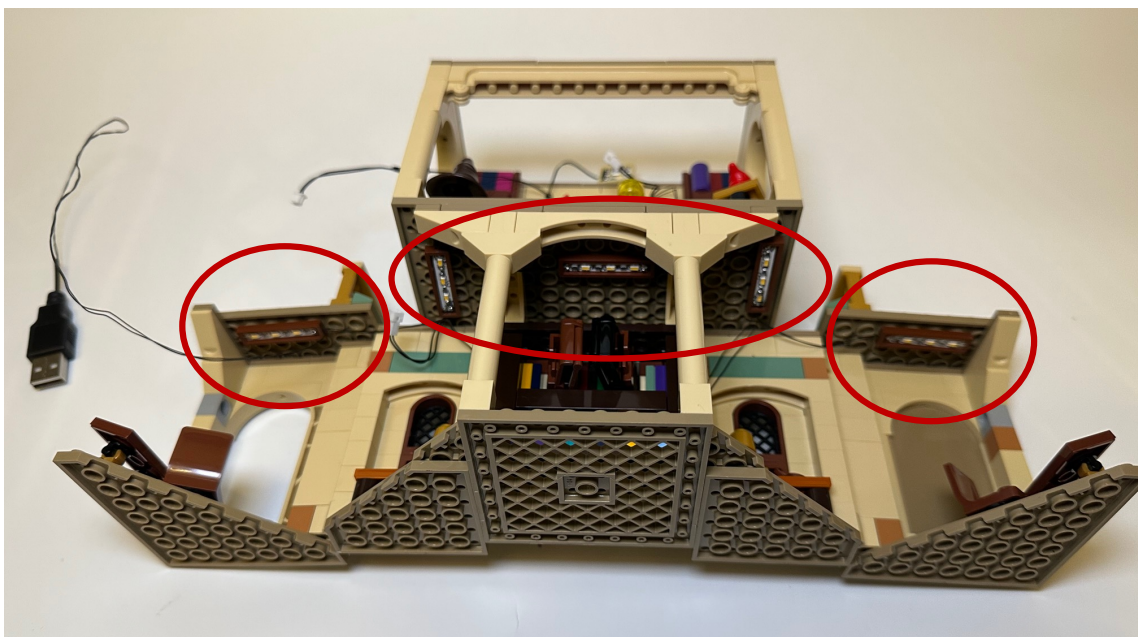

Take lighting part C, assemble the 1x4 lighting plate
Then replace the clear parts by the lighting parts

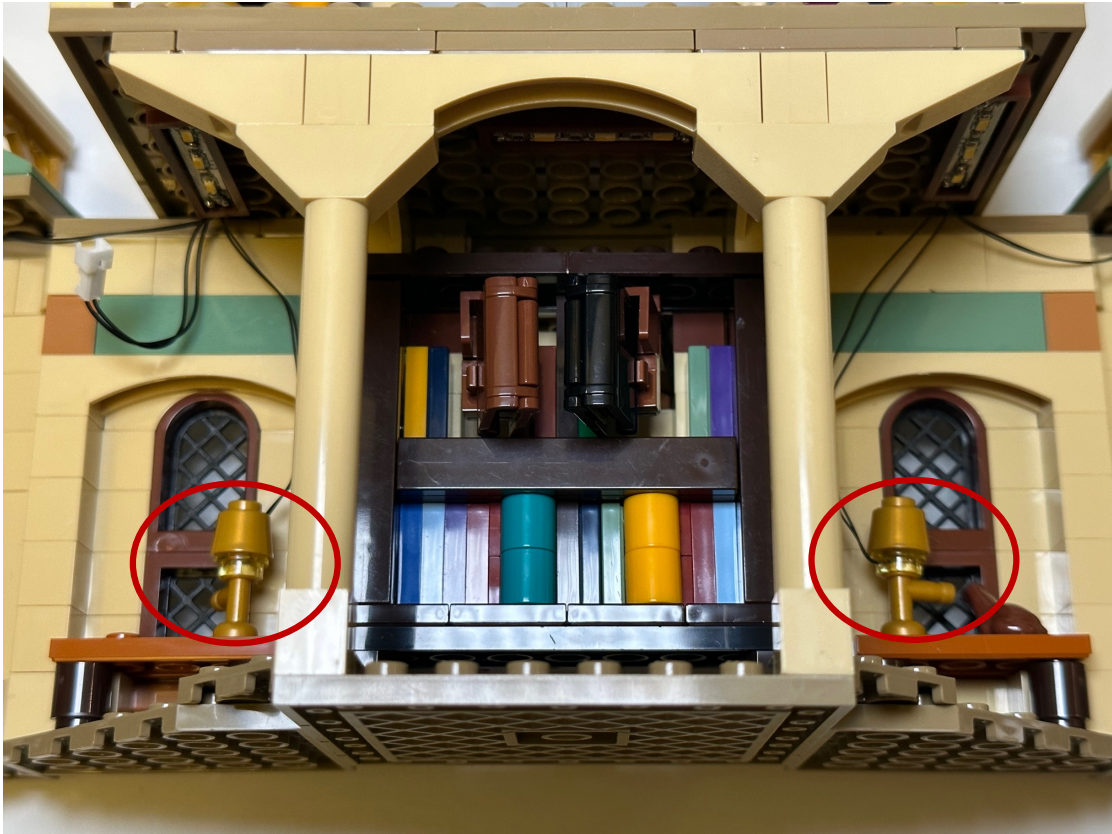

The led bulb will be placed inside the clear yellow round block

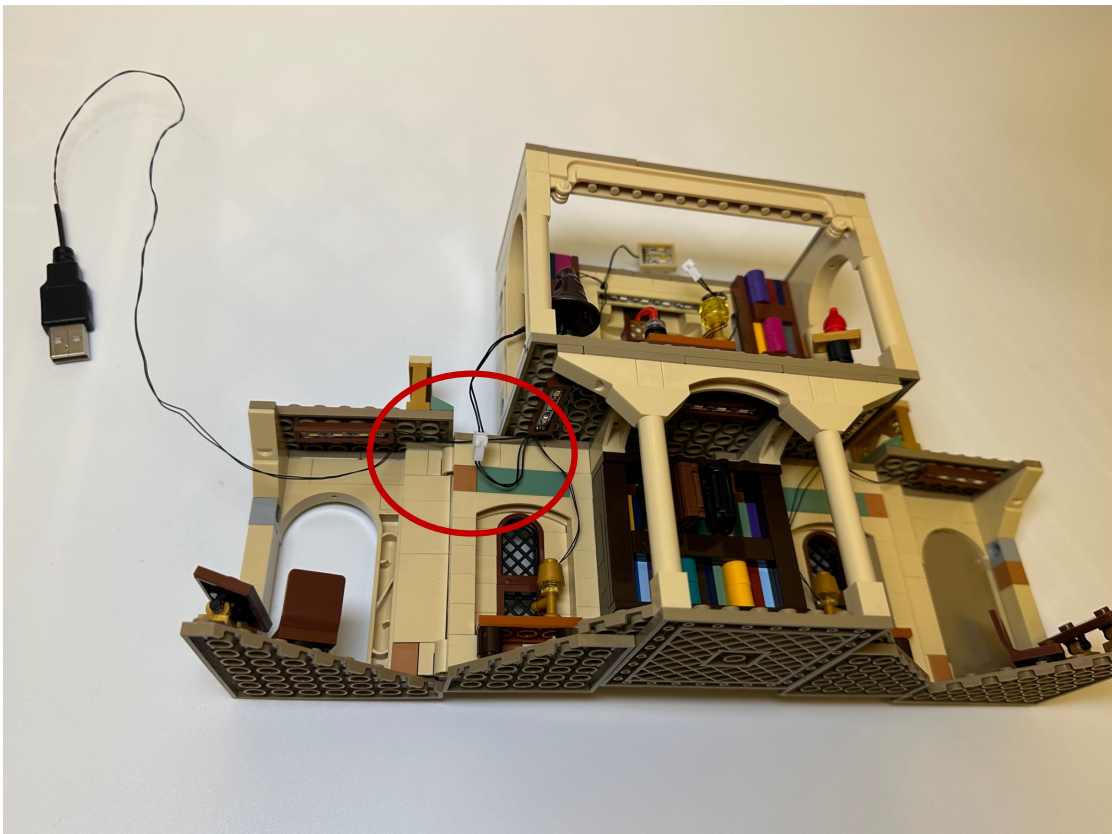

Now take the lighting part D, assemble all the lighting brown plates follow by the picture below, beware the position of the USB cable

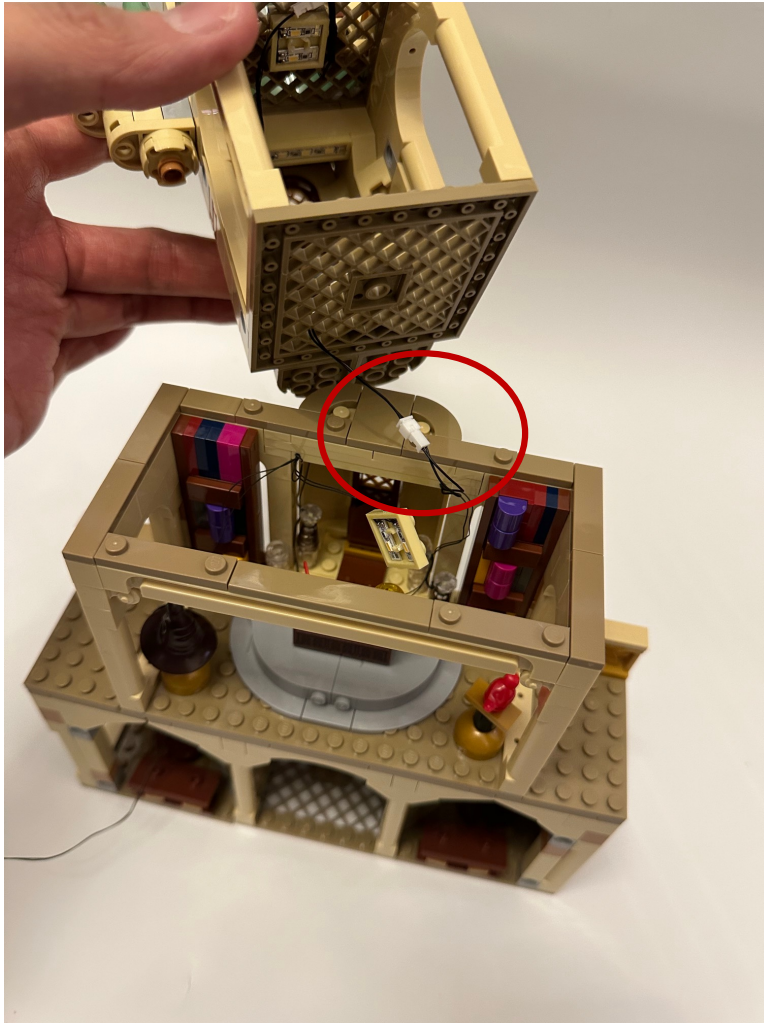

The remain two lighting yellow round plates will be used to replace the one for the lamps

Now connect the lighting parts C and D

Restore the top and connect the plugs

Assemble the 2x2 lighting plate from part C as shown

Now the set up is done
