

Lego 21009

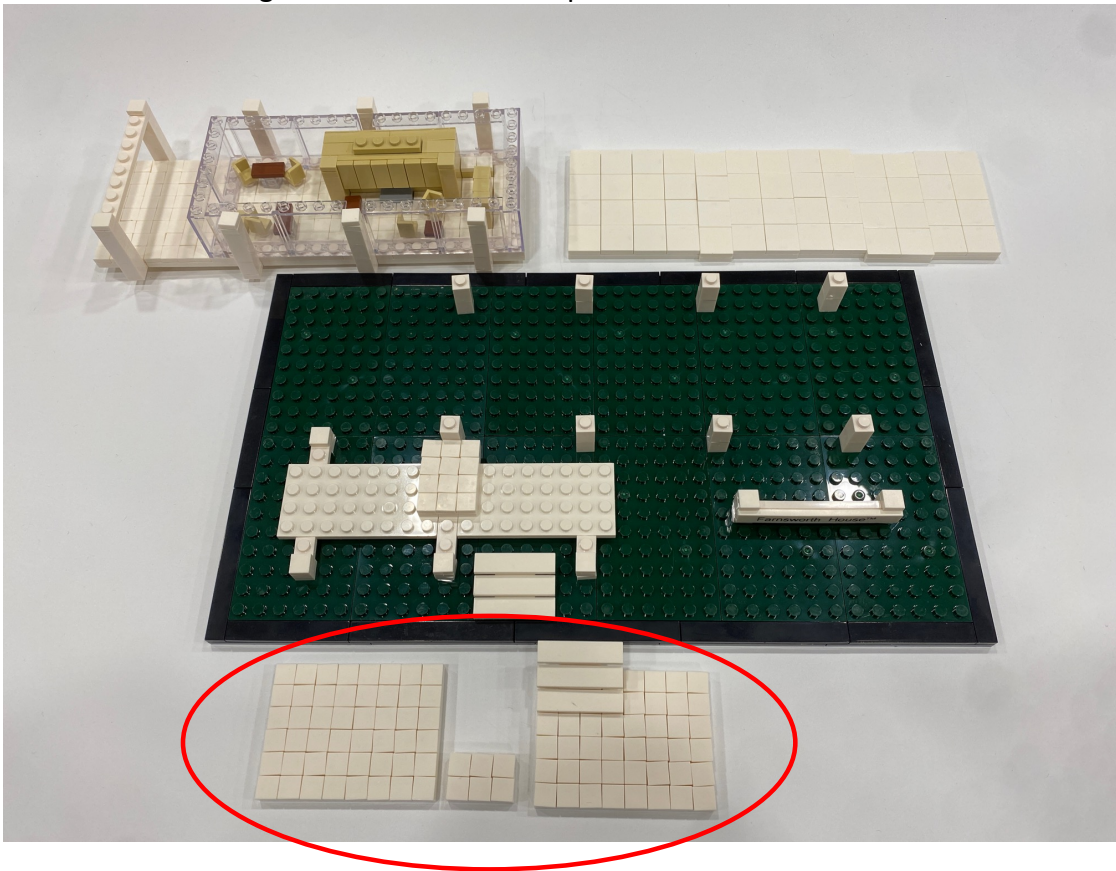

Farnsworth House

Installation Guide

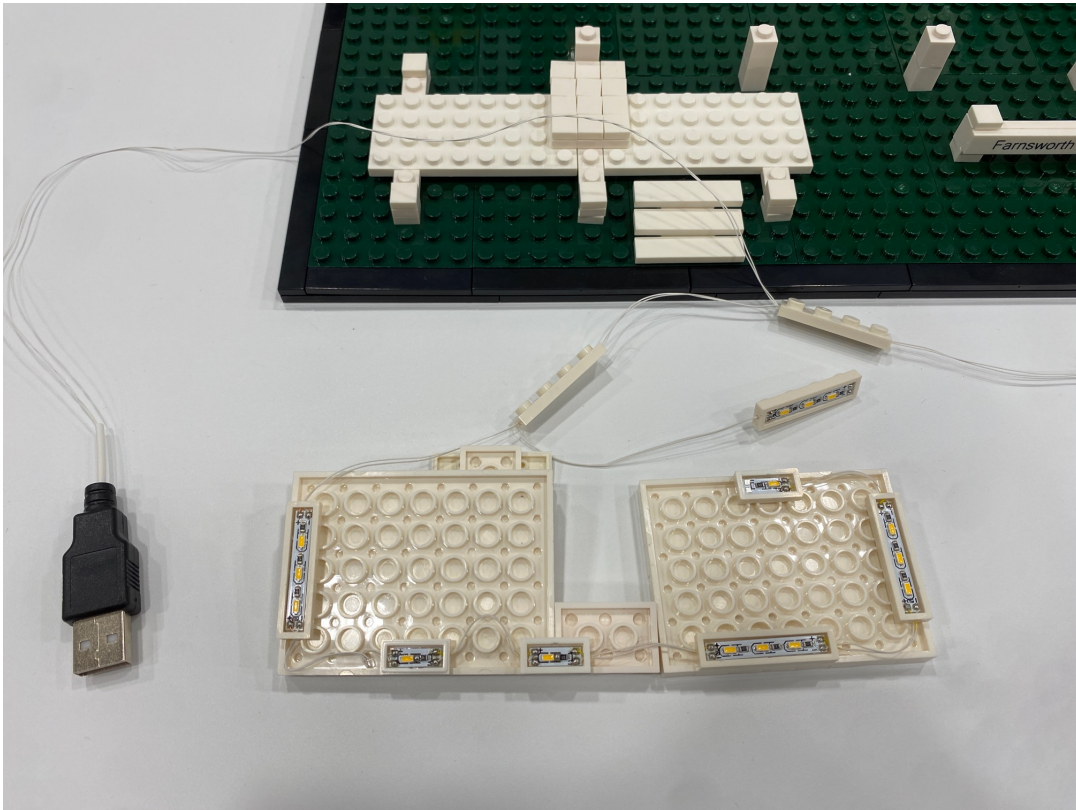

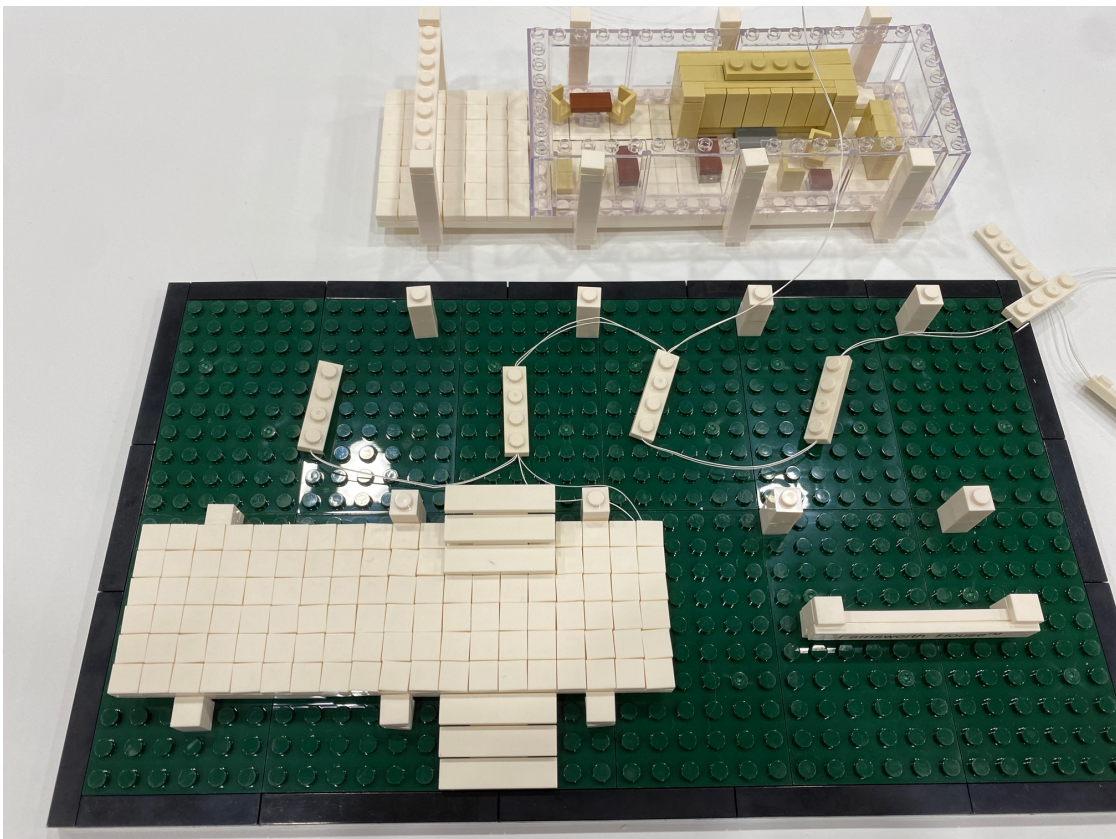

Start by splitting the building as shown
Assemble the the lights from the red circle parts first

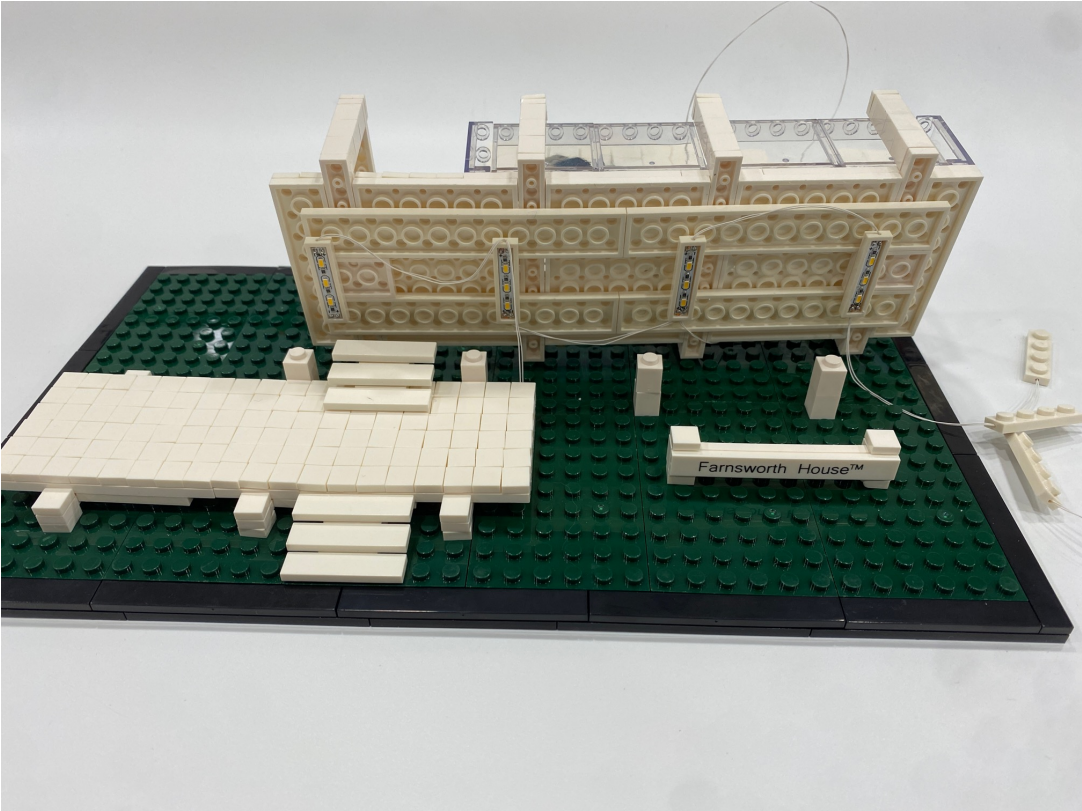

Take the end side of the lighting parts which is the 1x2 plate and assemble them as following

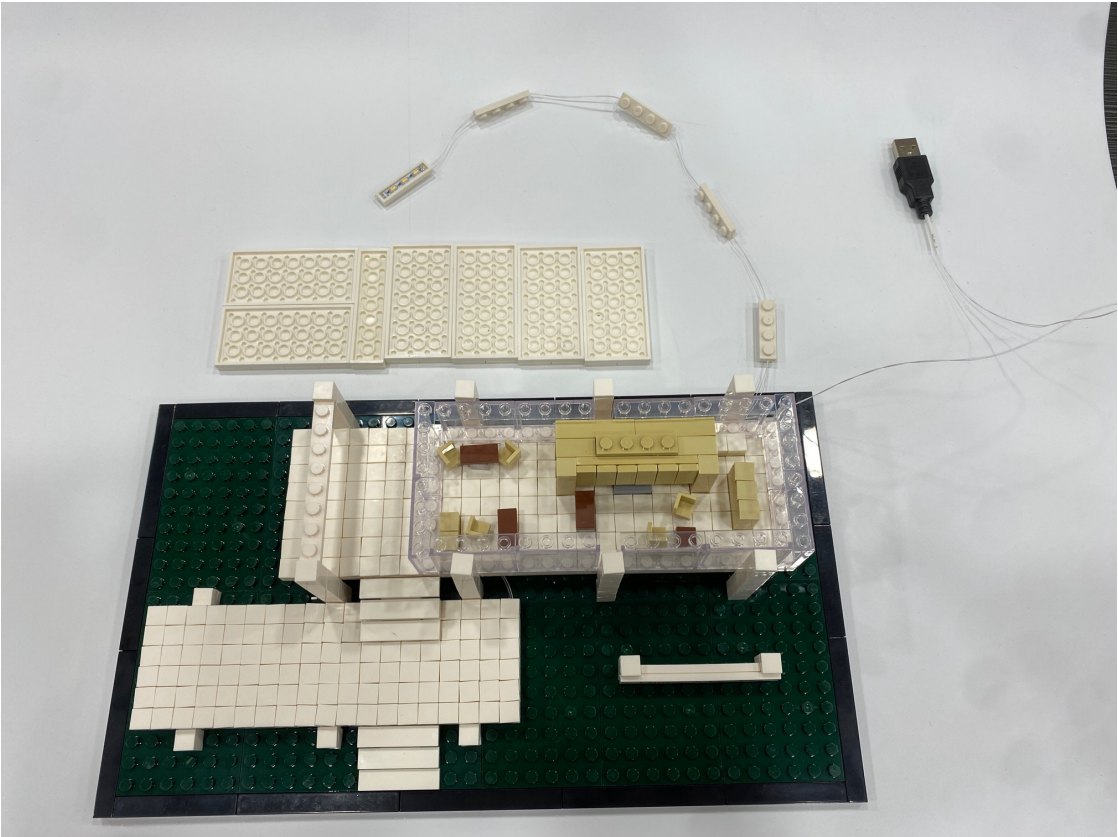

Then Restore the parts back to the building and place four 1x4 lighting plates for next step

Get the main house and assemble the 4 pcs of 1x4 lighting plates

Now restore the main house back

At last, assemble the remain lighting plates to the tiles as shown
Then put them back on the building
