

Lego 75351

**STAR
WARS**

Princess Leia

(Boushh) Helmet

Installation Guide

First of all, take the clear green 1x1 tiles out from the model and assemble them on the lighting plate

Remove the shown parts from the helmet, then assemble the lighting part

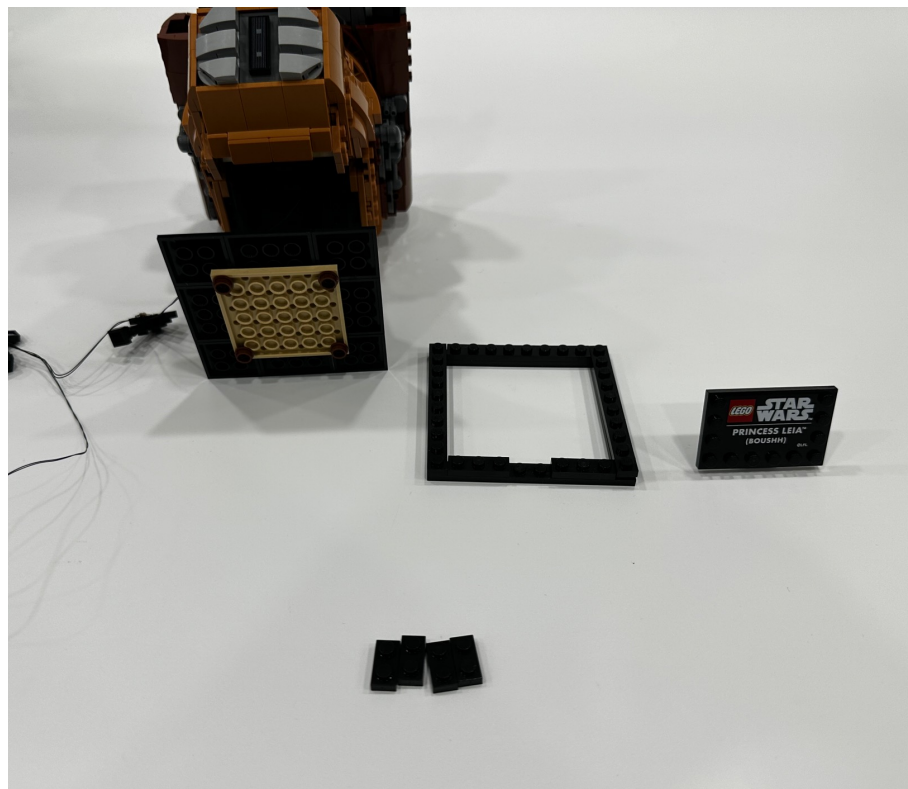

The wire can be hidden by restoring the removed parts from previous step

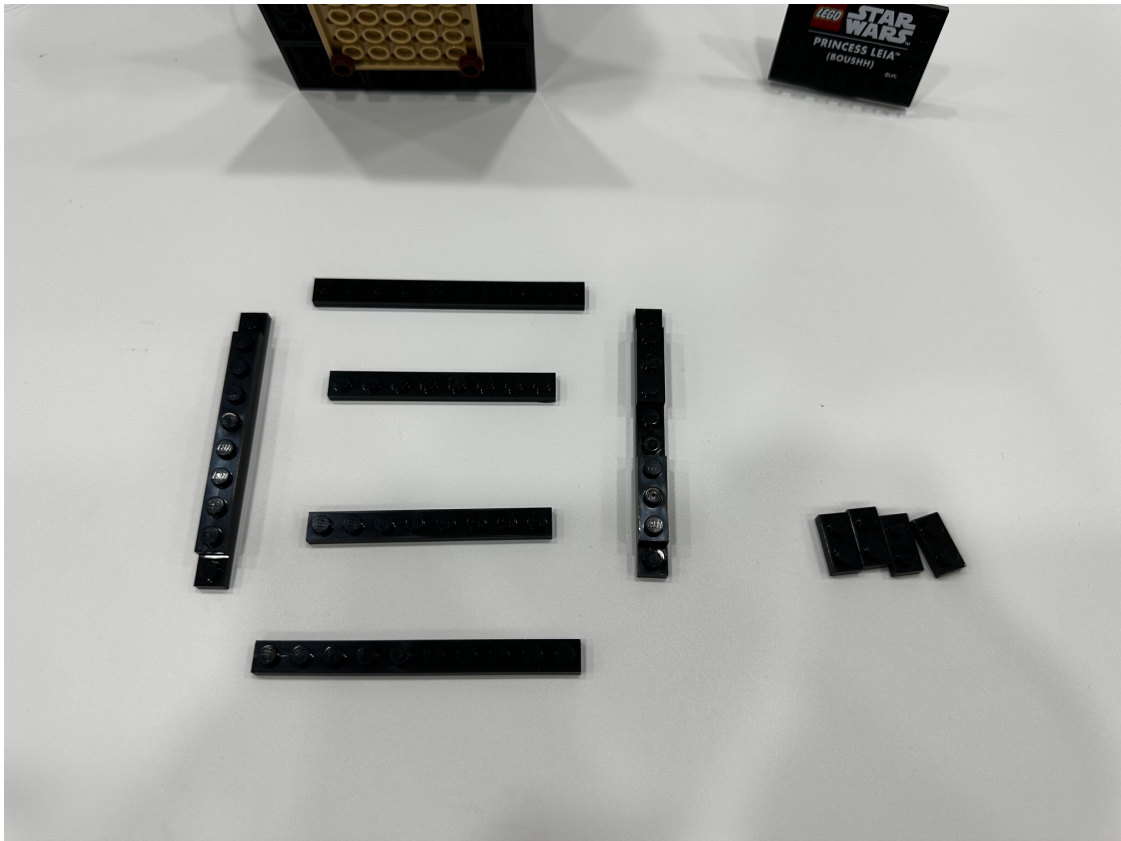

Now the wires should be hidden by the surface of the helmet

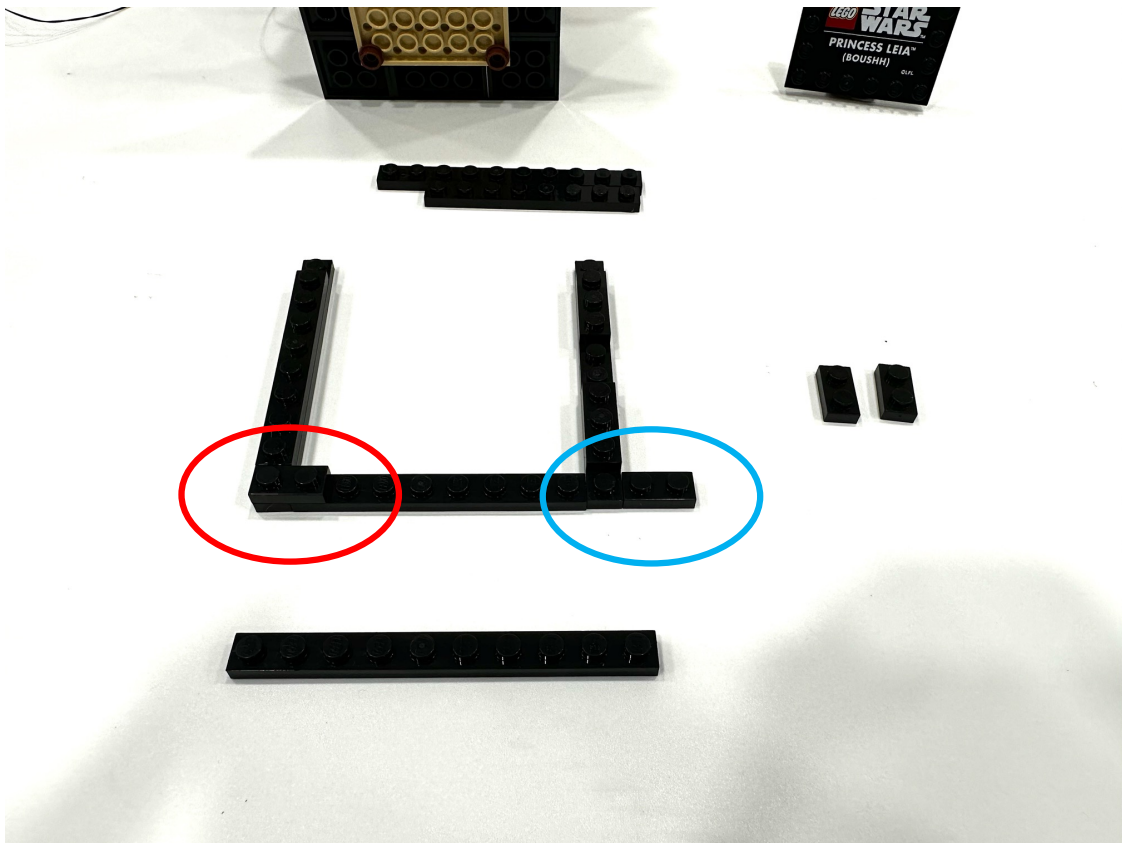

Remove the bottom plates as shown

Take the name tag away and detach the base as shown

Take one of the 1x2 plate provided to place on the top at the red circle area
Then assemble with the 1x8 attached and another 1x2 plate on the blue circle

Now put the 1x10 on top and one side would be done
Then do the same procedure for the other side

At last, place the 2 spot lights at the front corner and
connect the USB cable to power it up
