# Lego 75349

Captain Rex Helmet
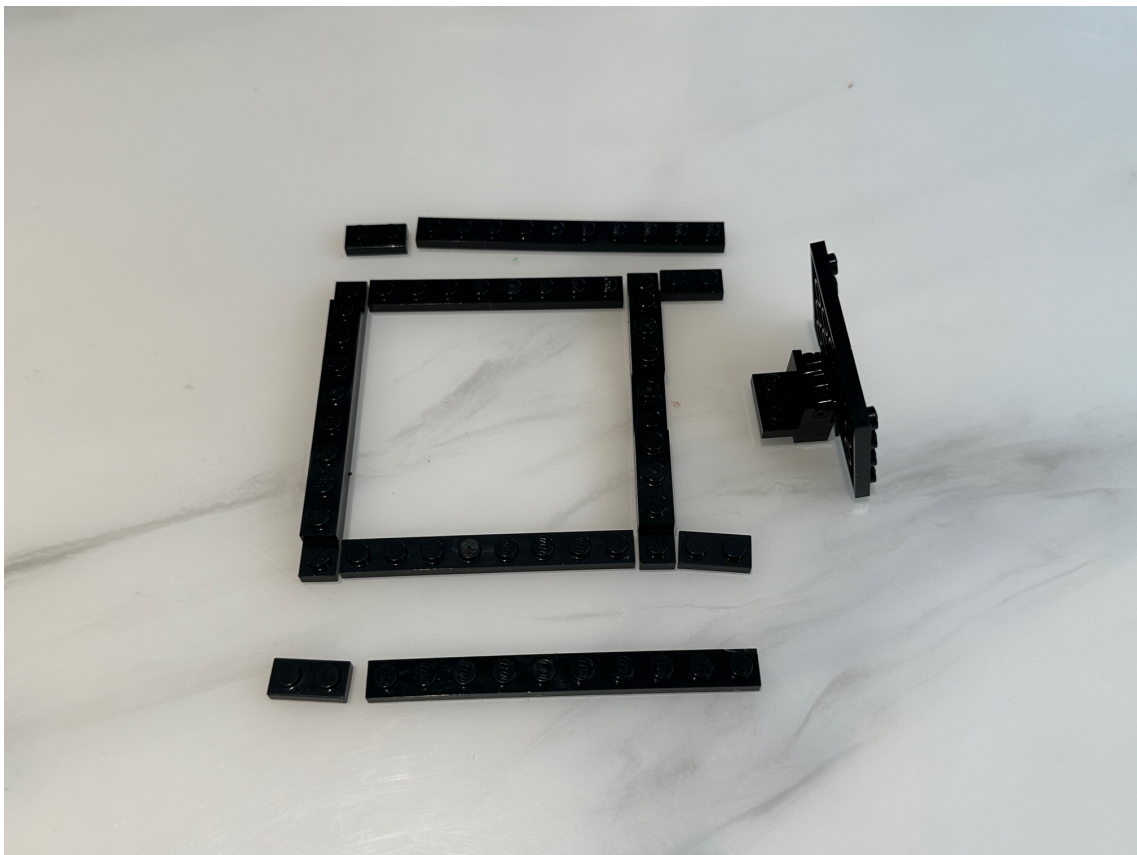

Installation Guide

First of all, split the base from the helmet to modify it by the plates provided

Detach the base as shown, split the 1x8s and 1x10s

Rearrange the base by putting the 1x8's at the bottom with one 1x2 plate on each side, the cover the top by the remain 1x2 and the 1x10

Then assemble the spot lights on the extended corners
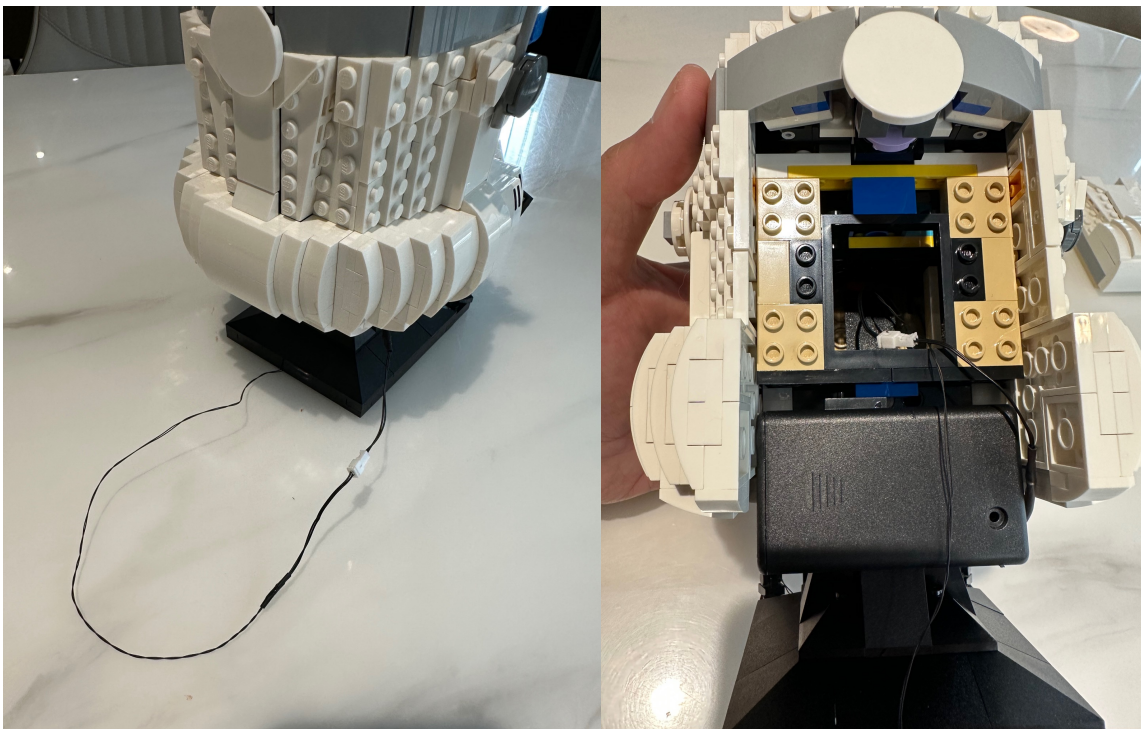

Then restore the helmet with the base

To power by USB just connect it with the cable

If you want to use battery, attach the battery case at the back of the helmet by the plate sticked on the case

Connect the cable and you can light it on, or you could hide the connector inside the helmet by removing the back cover of it

*Beware, if you powered by power bank with protection it might be turned off by itself due to the power consume is too little, then you need to power by AC adaptor or use the battery
