

Lego 40521

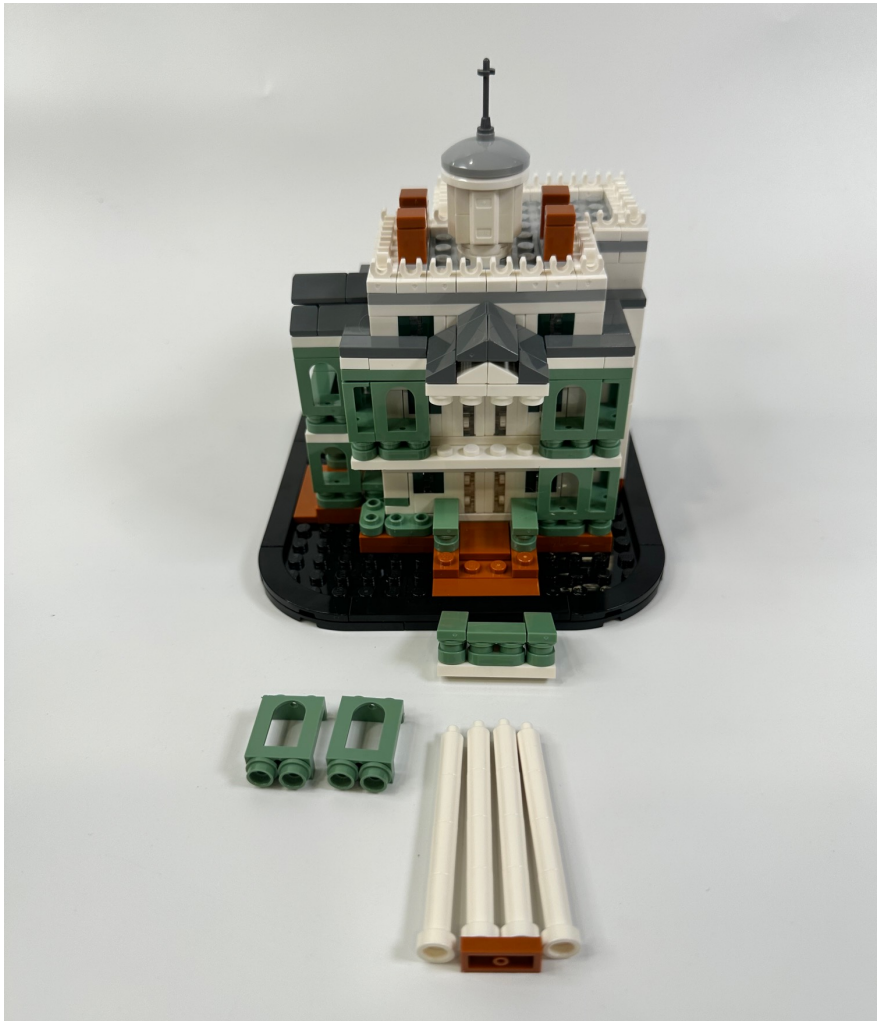

the Haunted Mansion

Installation Guide

Firstly, split the shown parts at the front

Assemble the 2pcs of 1x4 lighting plates and place the remain lights
pass the corner

Restore the removed parts from the previous step
Then remove the shown parts

Assemble the 2pcs of 1x2 lighting plates

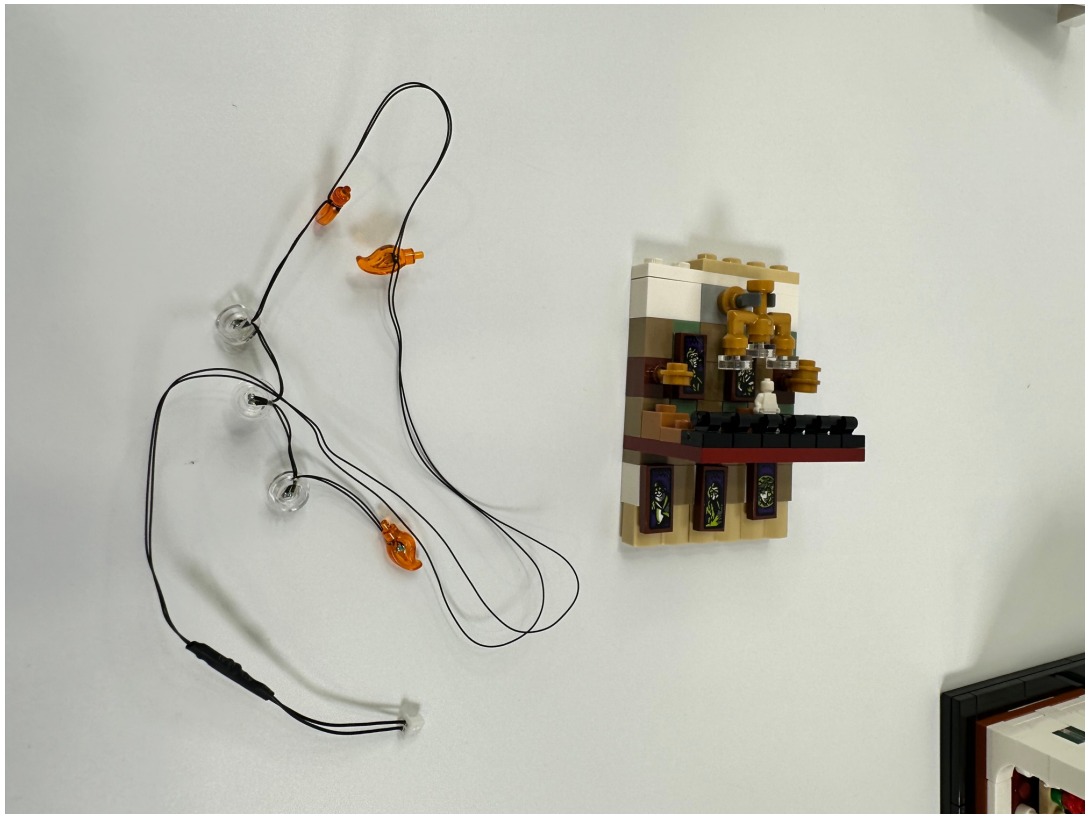

Remove the roof and the shown parts, pass the cable through the wall then restore the white wall

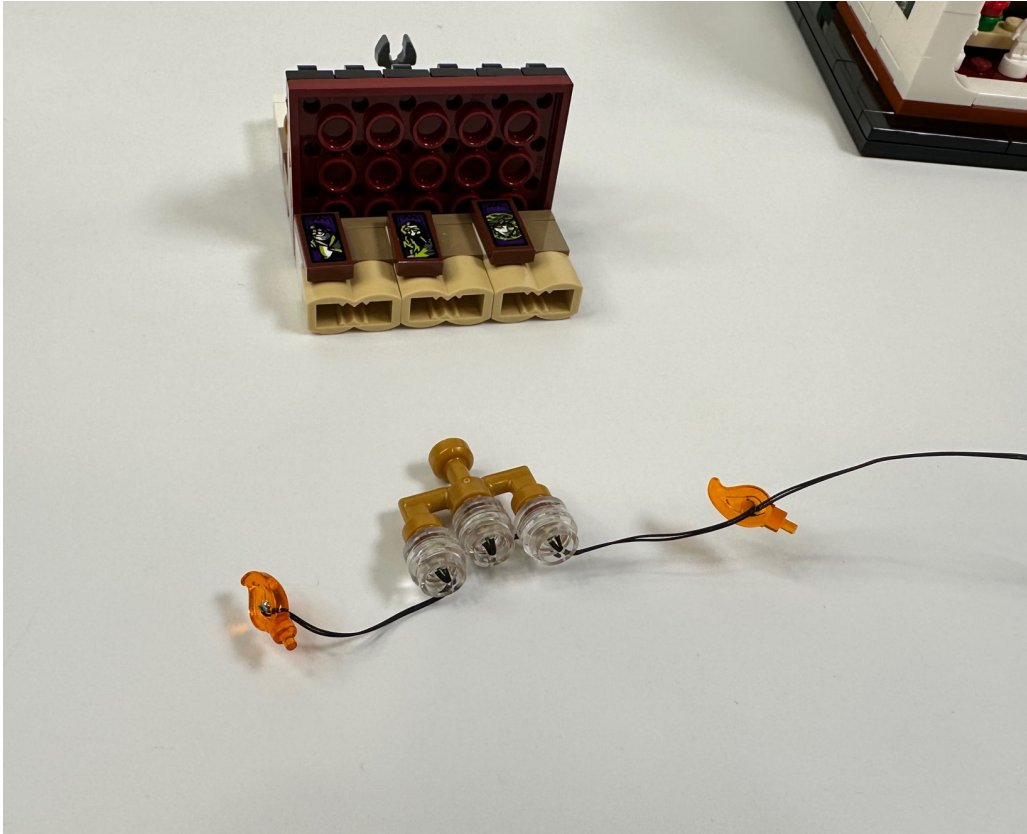

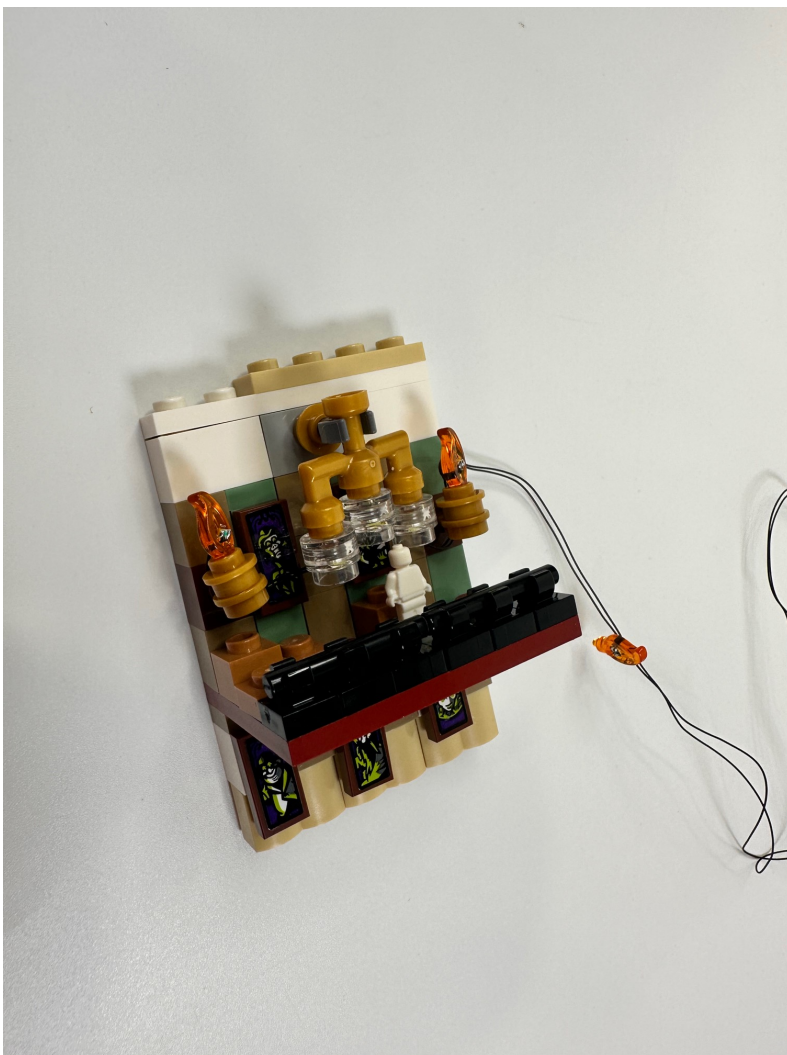

Now take the shown part aside and assemble by the remain lighting part

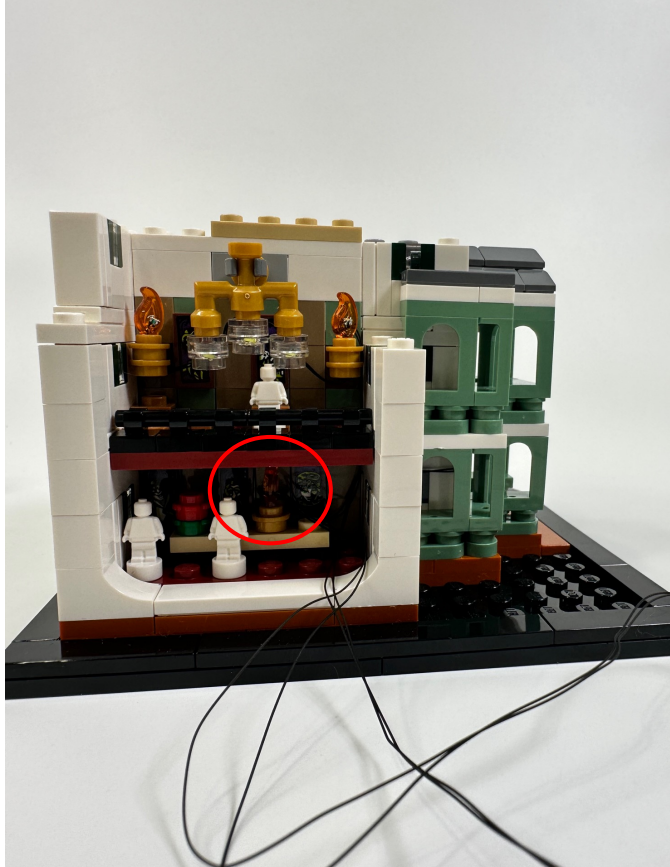

Take the lamp out and assemble the clear lighting round plates on it

Restore the lamp and assemble the lighting fires on both sides

Pull it back to the house and assemble the remain lighting fire at
downstair

At last, put the roof back and connect the USB cable then you
can light it up
