

Lego 76989

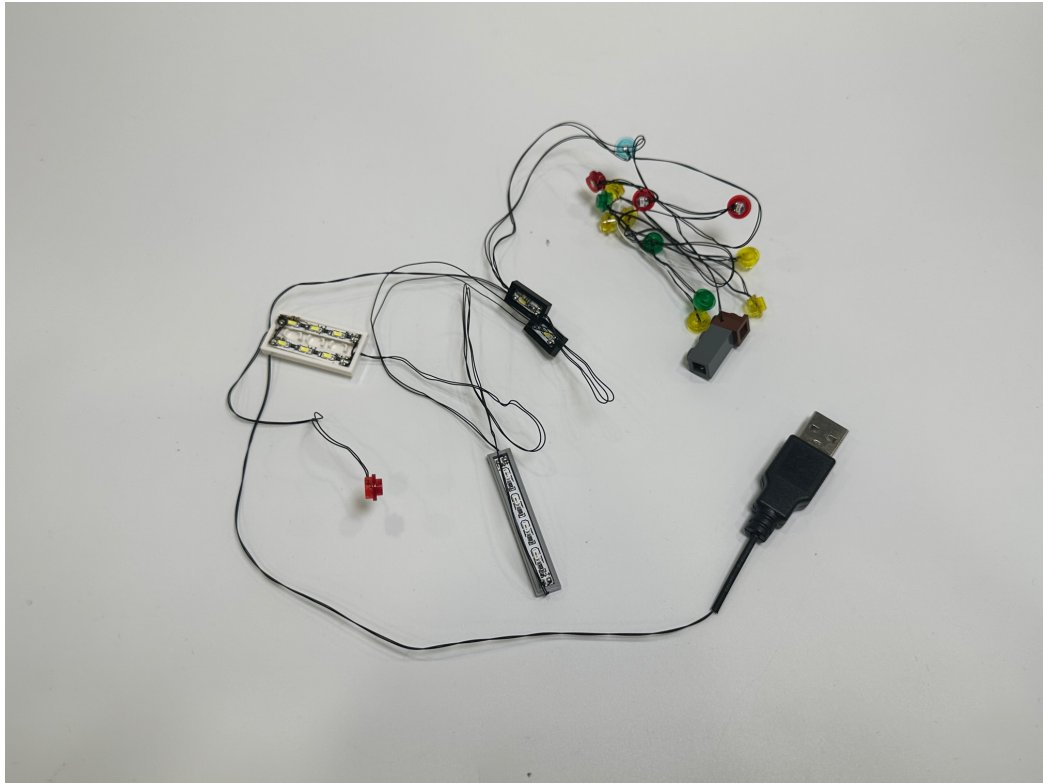

HORIZON

FORBIDDEN WEST™

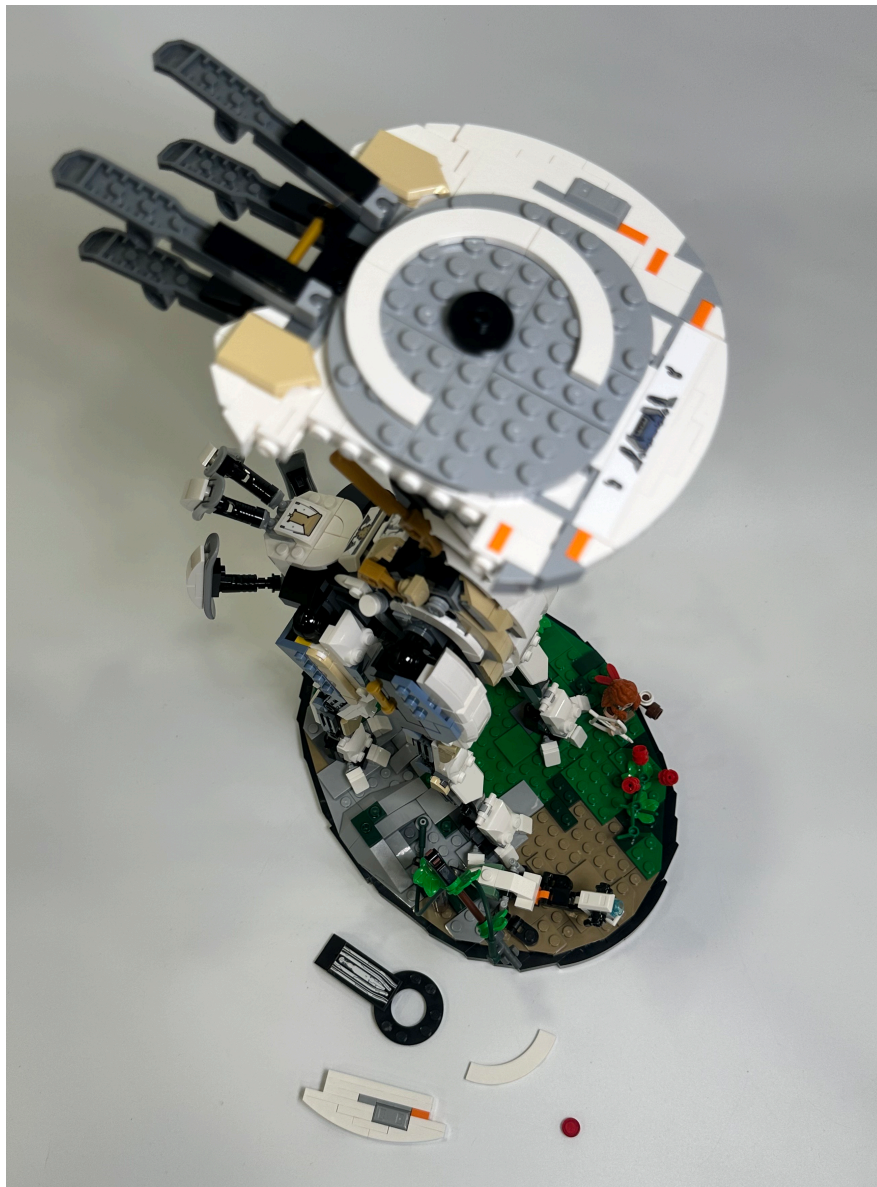

Installation Guide

Start the installation from the top, remove the shown parts as the first step

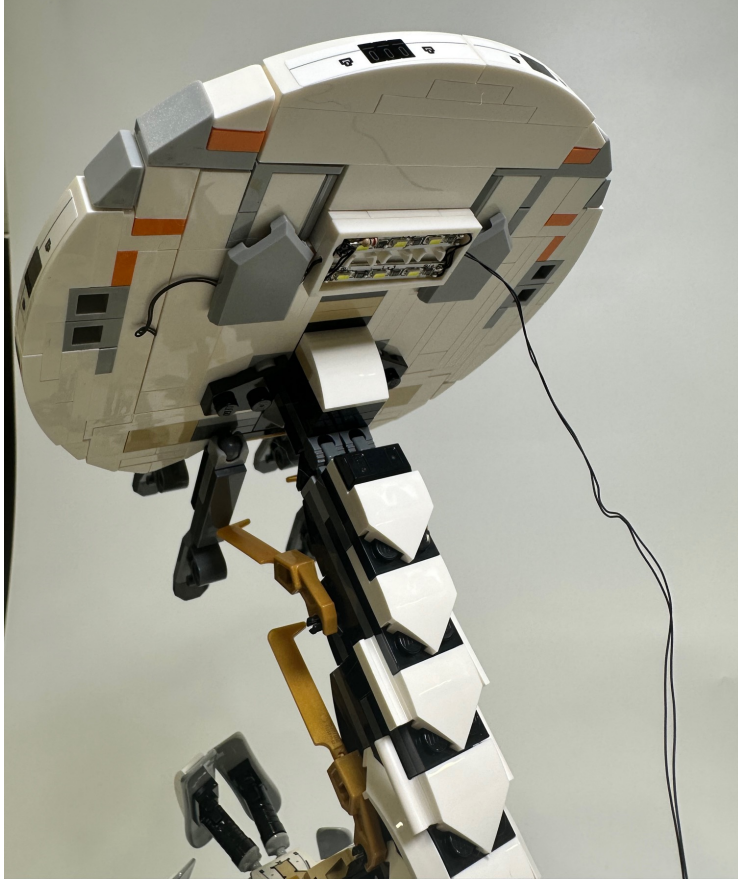

Assemble the red lighting round plate at the top, then hide the wire in between the grey plates

Then restore the parts removed at the first step

Then assemble the 2x3 lighting plate underneath the head, and move the remain parts to the bottom, the wire should be follow by the neck

Now stick the lighting grey tile at the bottom of the model
Beware of direction, the wire attached with the remain parts should face the front

Assemble the two black lighting plates at the front feet, check out the direction by the position of the USB cable should come out at the left side

Replace the bricks look like traffic light by the lighting part
The wire can be tied around the pole

Then switch the clear black round tiles from the model to put on the lights

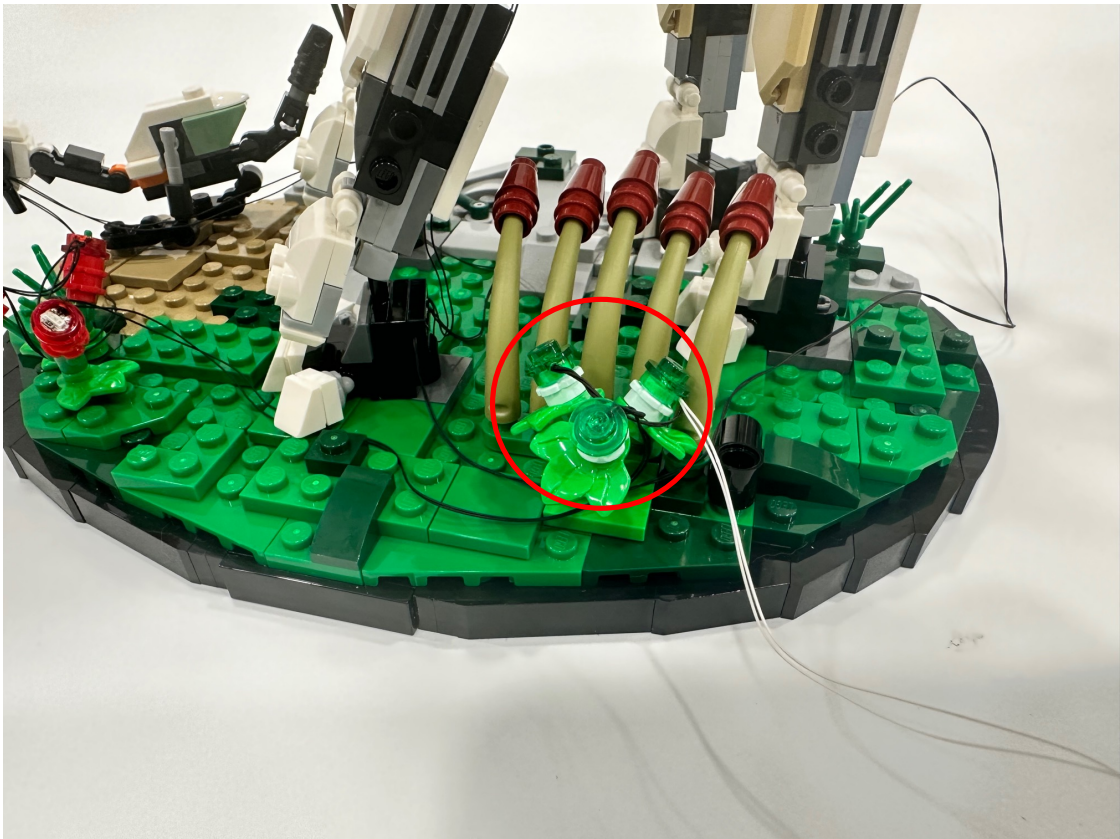

Assemble the remain lighting round plates
Start from the blue one, replace the one on the dog's head

Then assemble the red lighting round plates on the red flowers

Then the green lighting round plates

At last, move the yellow lighting round plates to the tree and put them on the tree randomly

Finally, connect the USB cable to power up the lights
