

Lego 10369

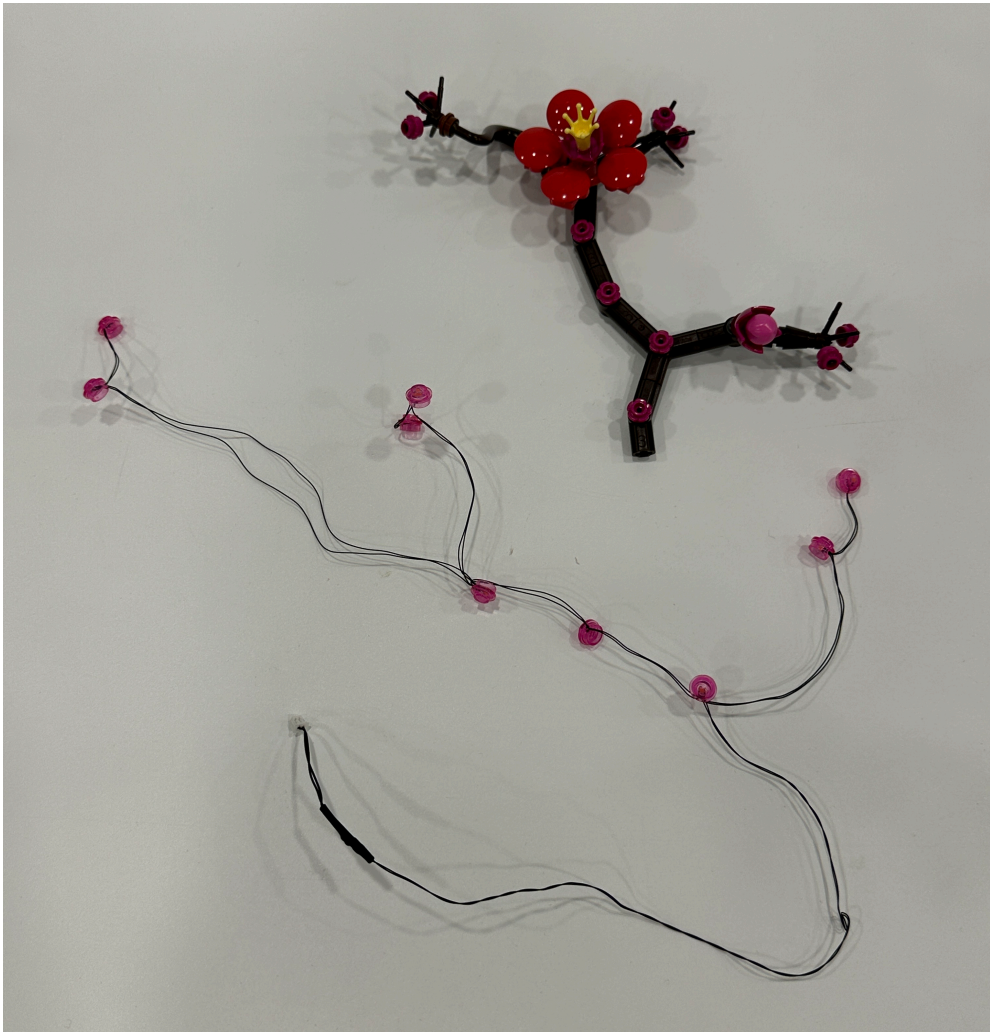

Plum Blossom

Installation Guide

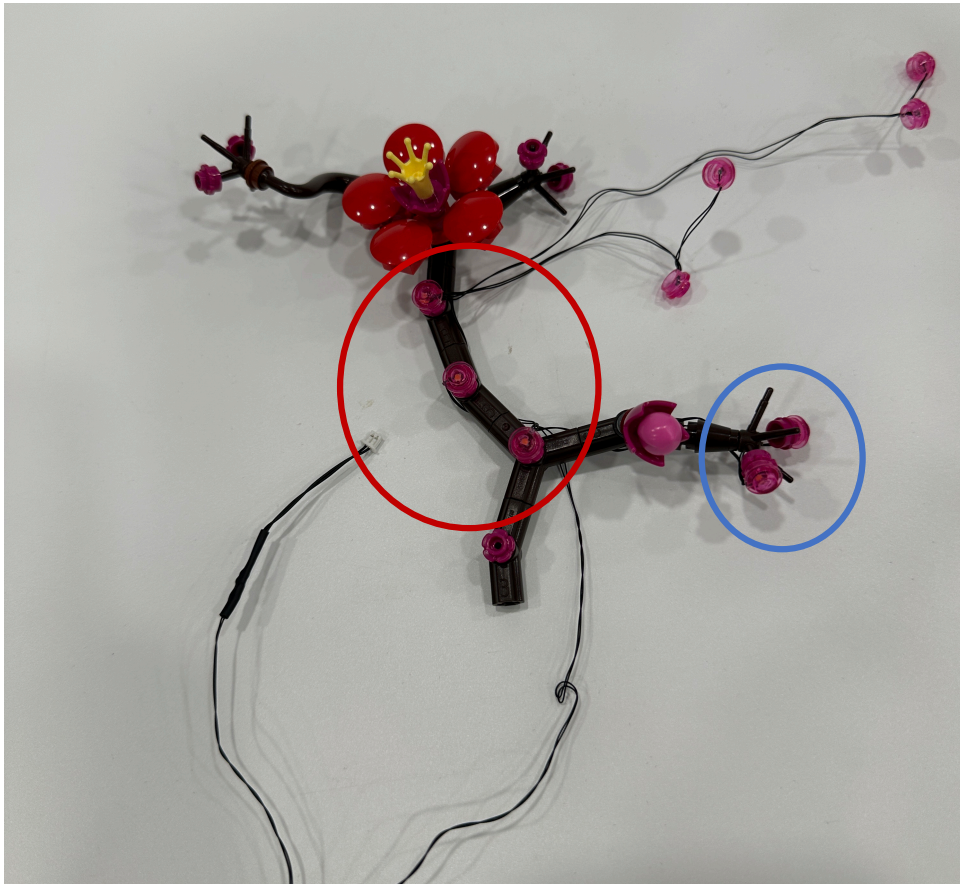

Remove both branches out, take the lighting part A to assemble on the shorter branch

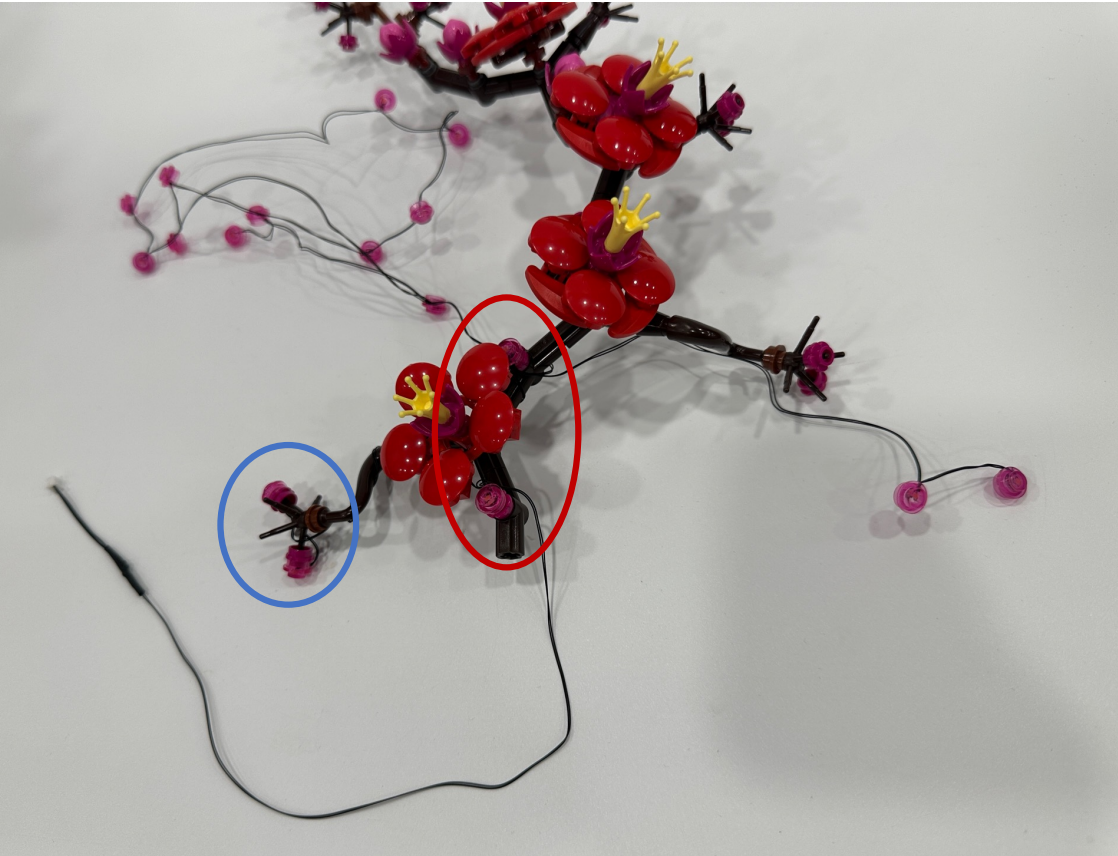

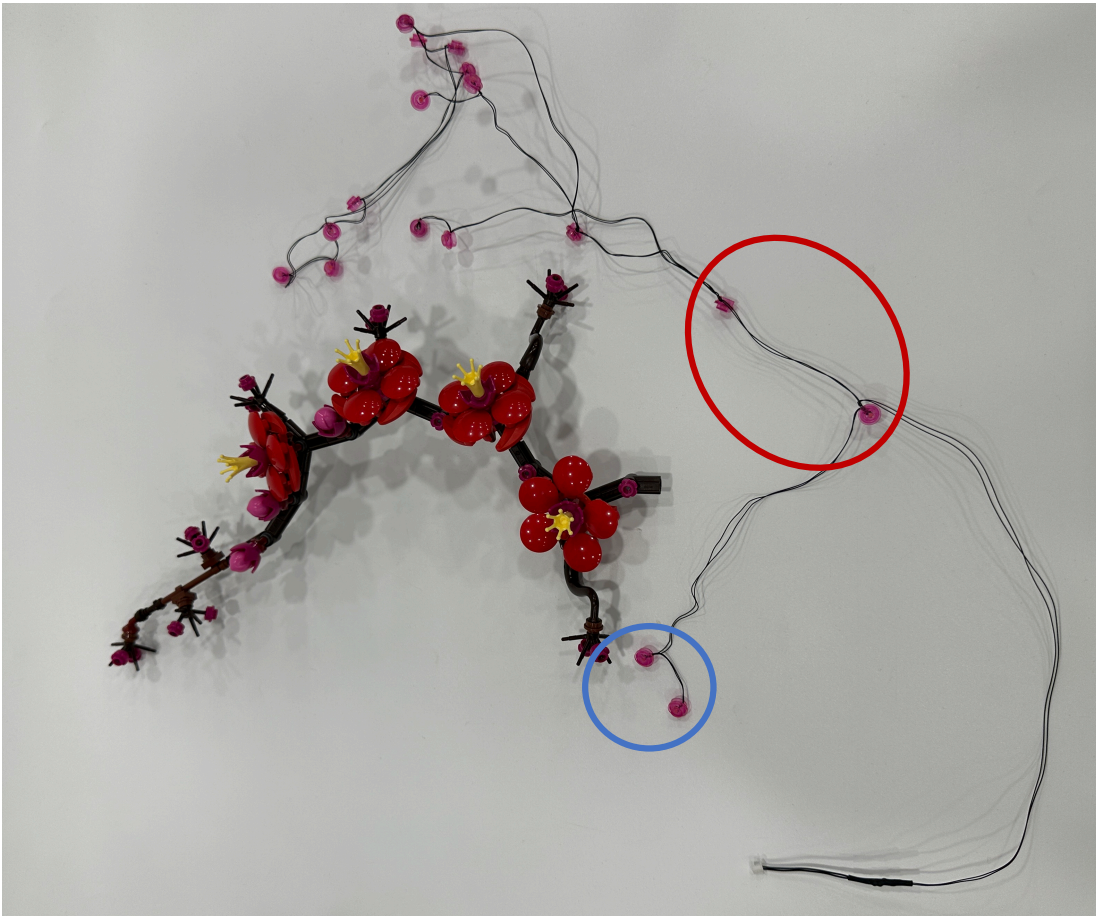

Remark from the picture in previous step, the three connected lighting round plates would be assembled on the main body of the branch (red circle) and put the two connected round plates on the splitted branch (blue circle)

For the remain lighting round plates, assemble the one with shorter cables on the shorter end (red circle)

For lighting part B, assemble the lighting round plates inside the colored circles to the corresponding spot on the branch

Then assemble the lighting round plates on the certain spots in red circles

After assembling the lighting parts, put both branches back and connect the plugs with the USB cable to power on
