

Lego 40591

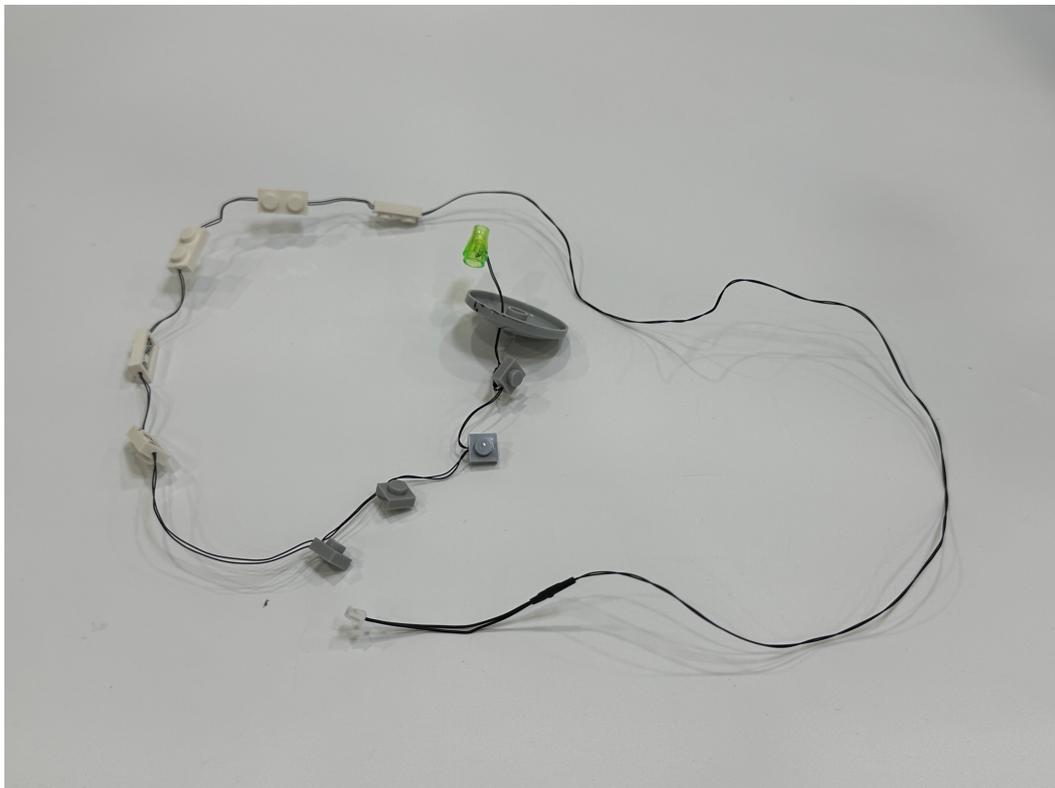

STAR WARS

Death Star II

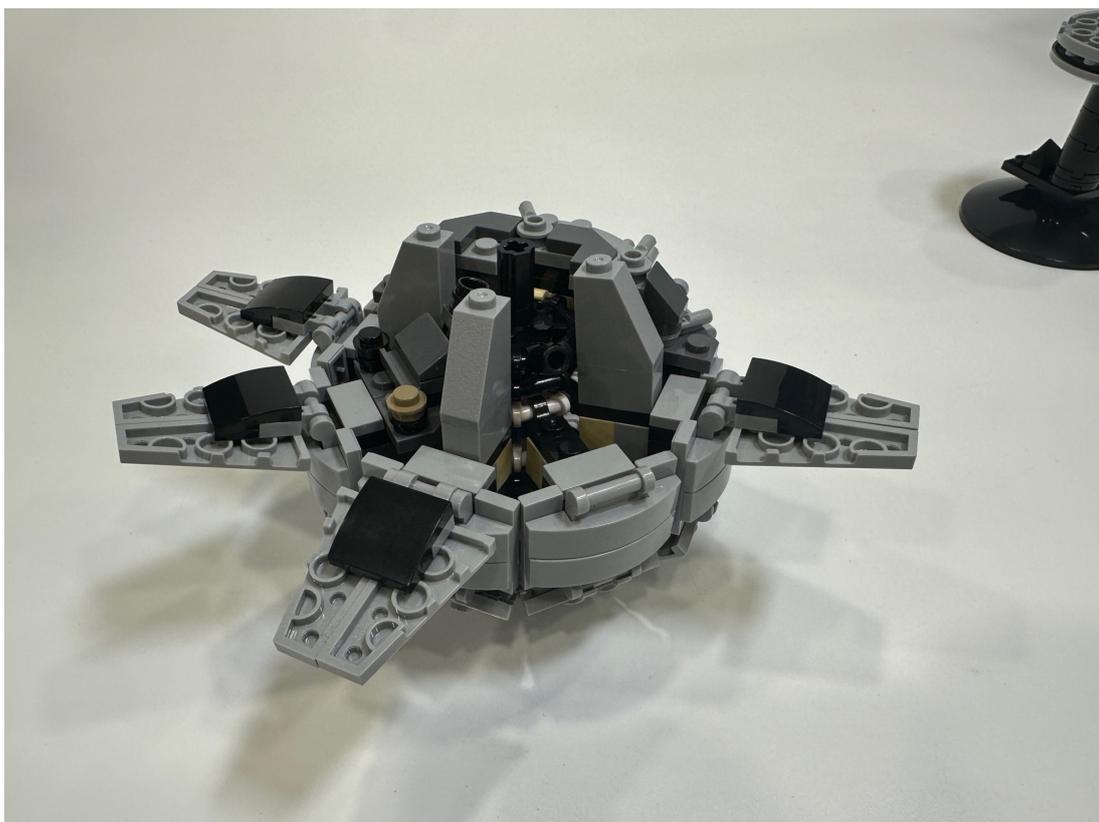

Installation Guide

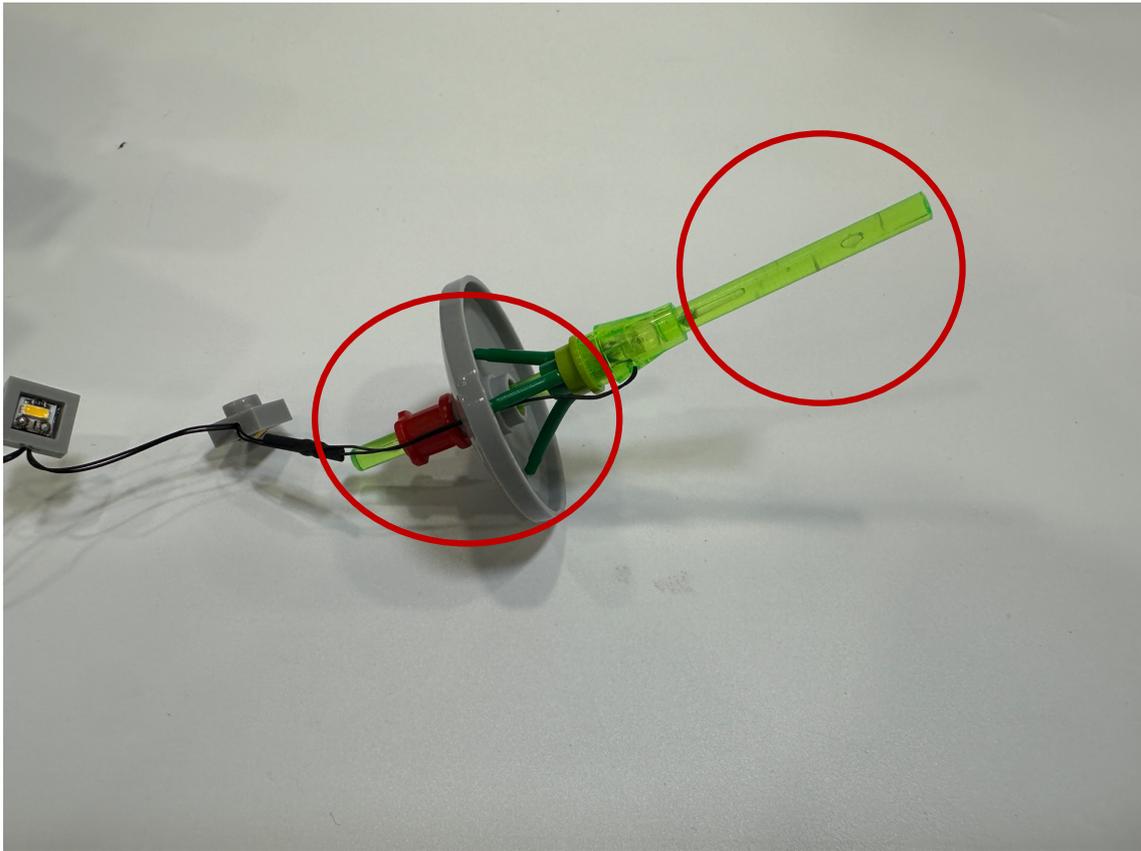

**GB GLOW
BRICKS**

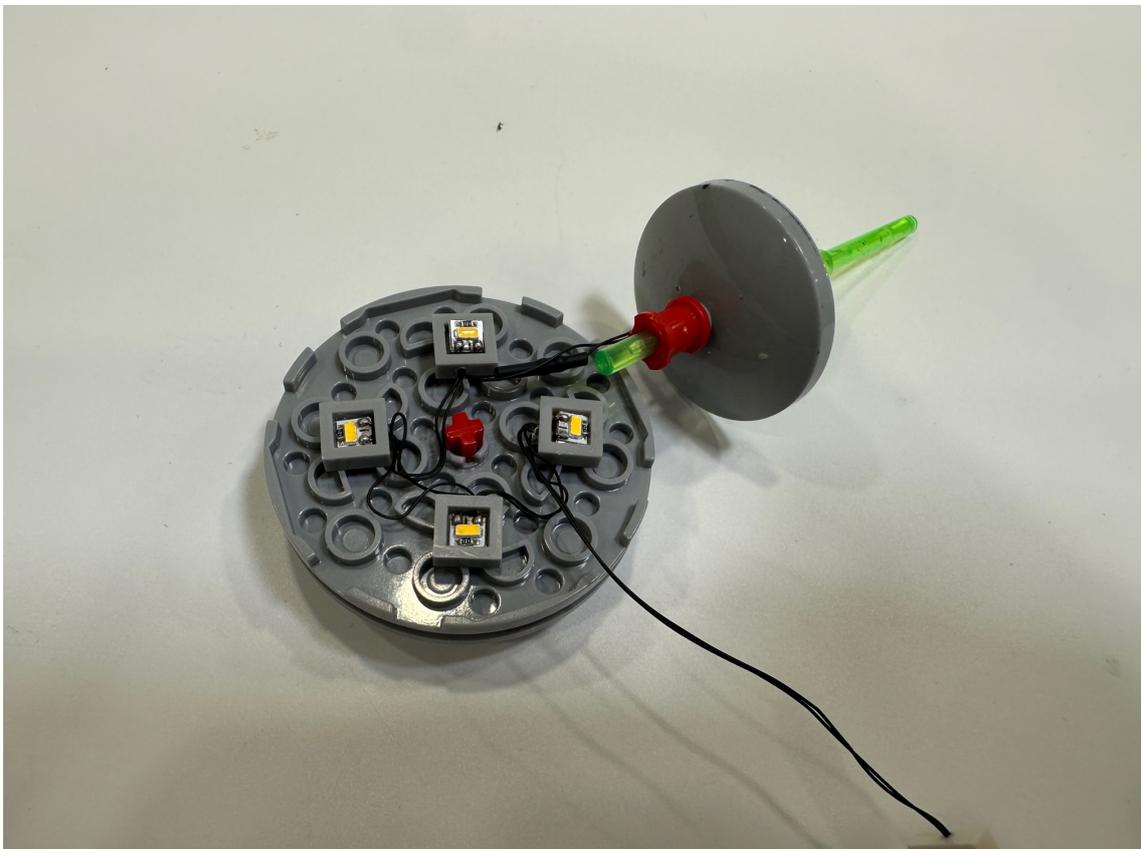

First of all, take the Death Star out from the base and open the plates at the top

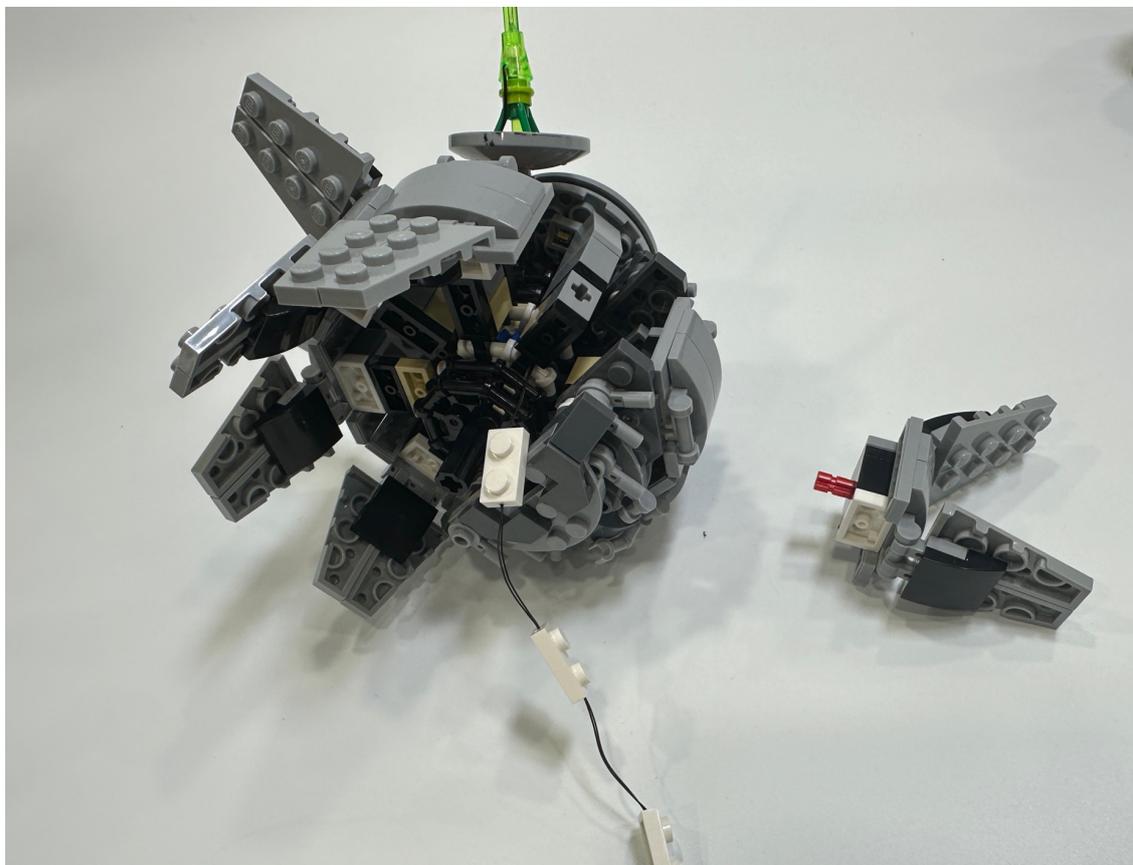

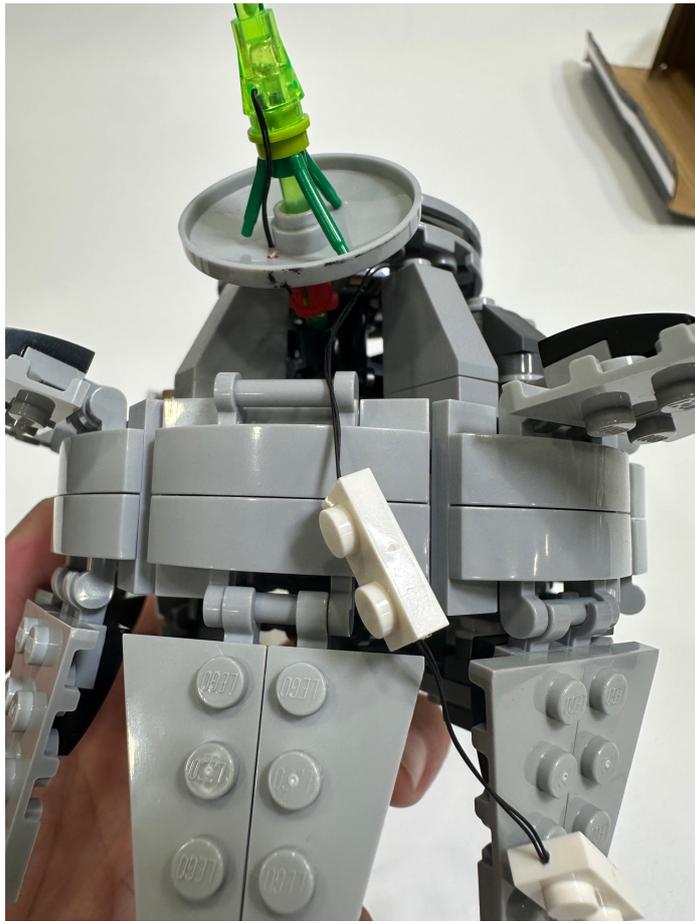

Get the parts shown from the model and combine it with the lighting parts

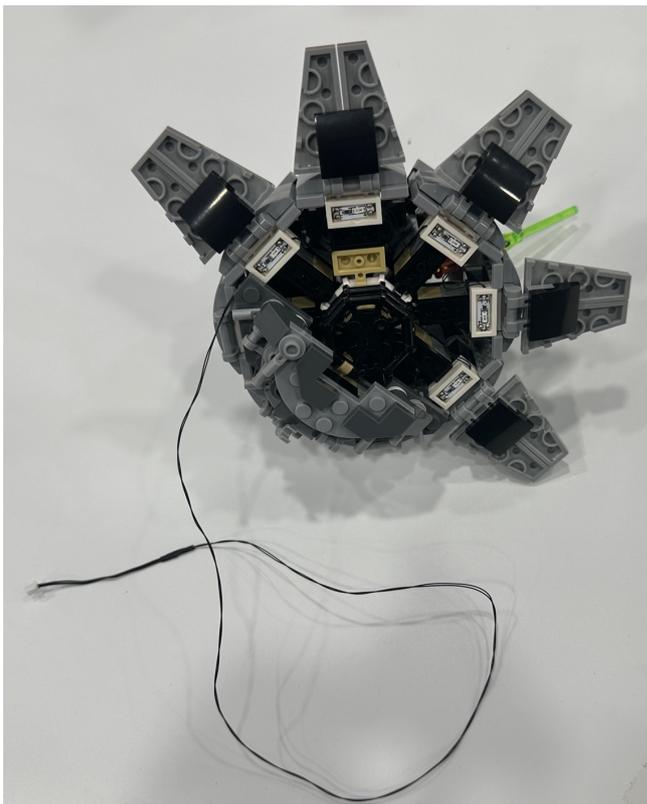

Assemble the 1x1 lighting plates to the top part of the Death Star

Restore the top and take the shown parts out to move the remain parts down to the bottom

Restore the removed side after the lighting plates are passed through to the bottom, then assemble them and stable the wire by the hook at the back

At last connect the USB cable to light it up
