

Lego 75354

**STAR
WARS**

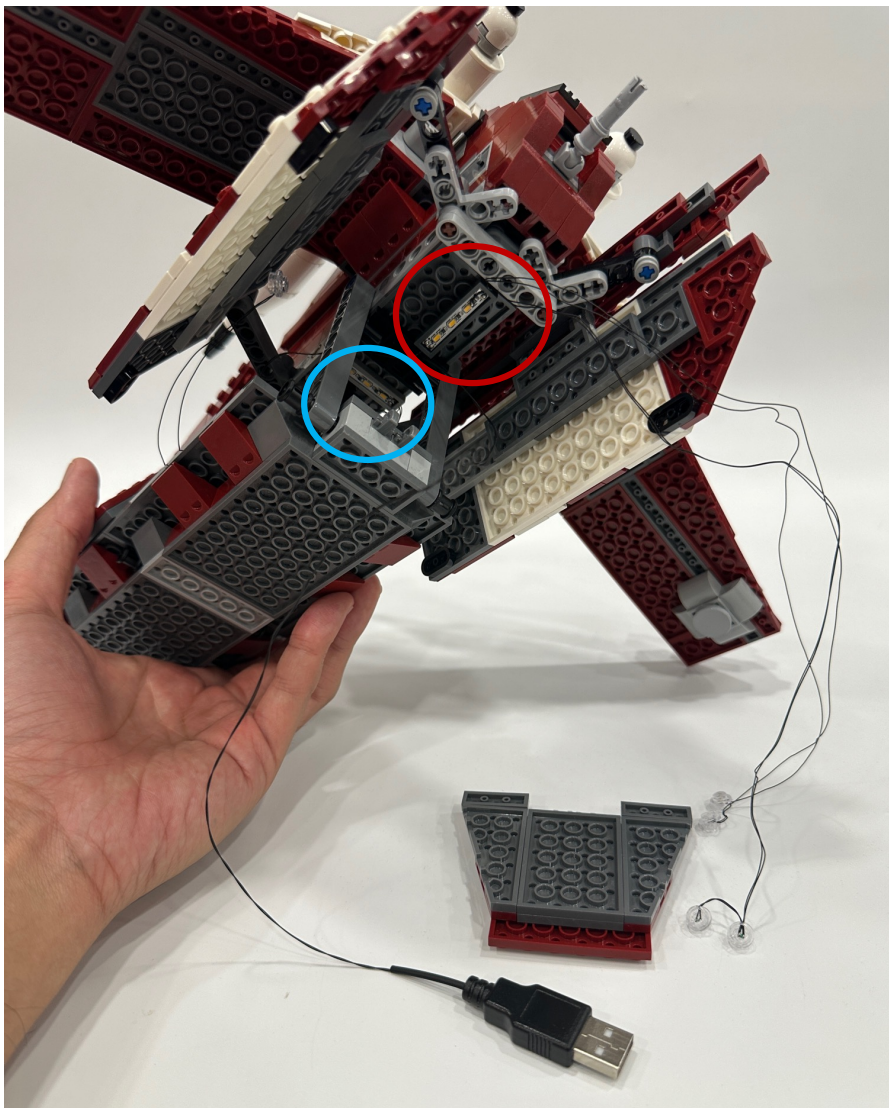

Coruscant Guard Gunship

Installation Guide

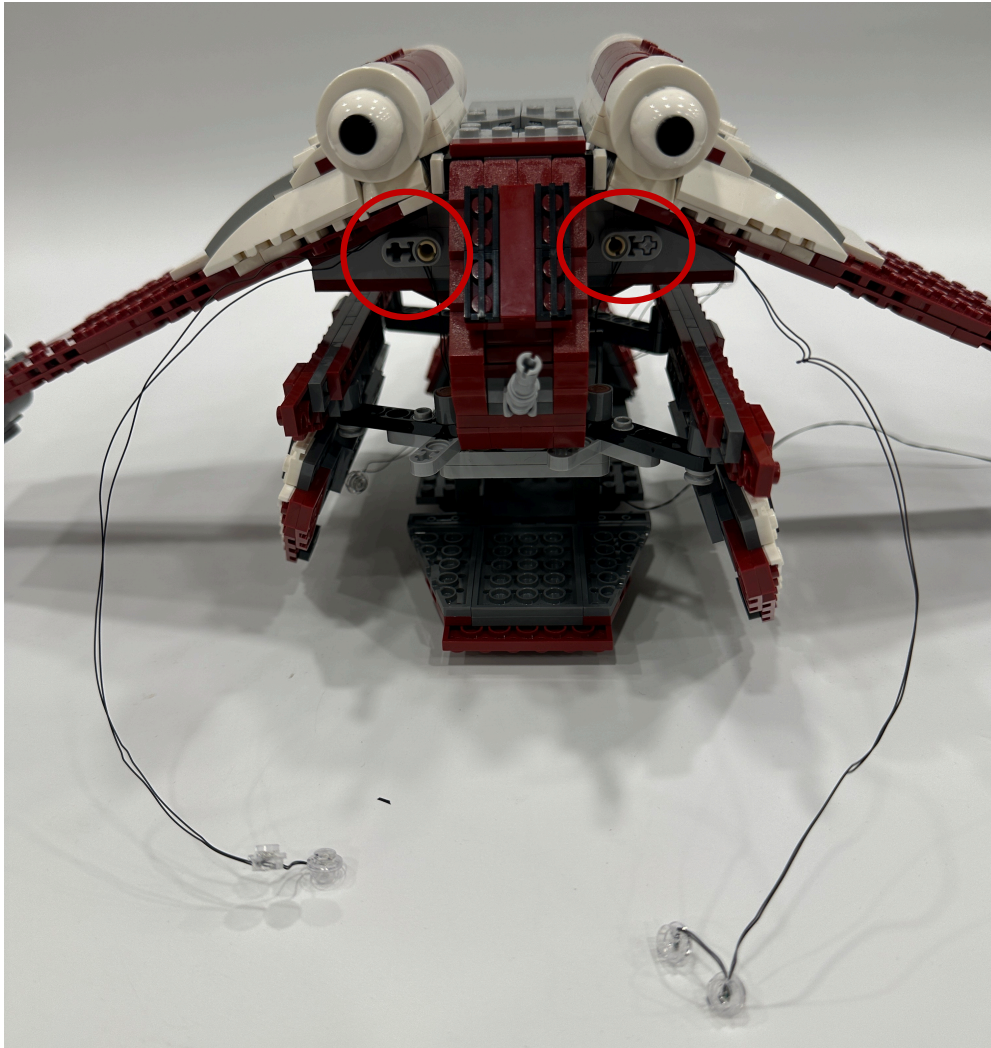

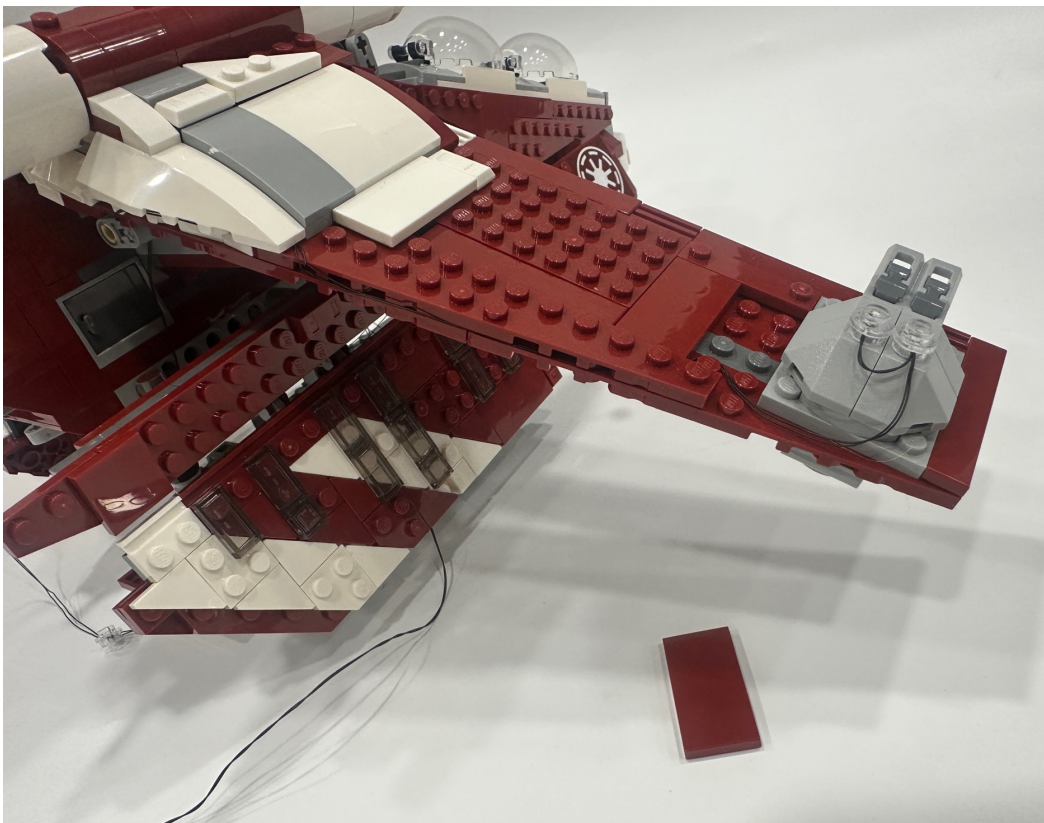

Get the dark grey lighting plate connect to the USB cable and assemble it at the end side of the cargo (red circle) then assemble the light grey lighting plate in the middle (blue circle)

Take the 2 connected clear lighting round plates out to both sides of the wings and stable the wires by the grey parts in red circles

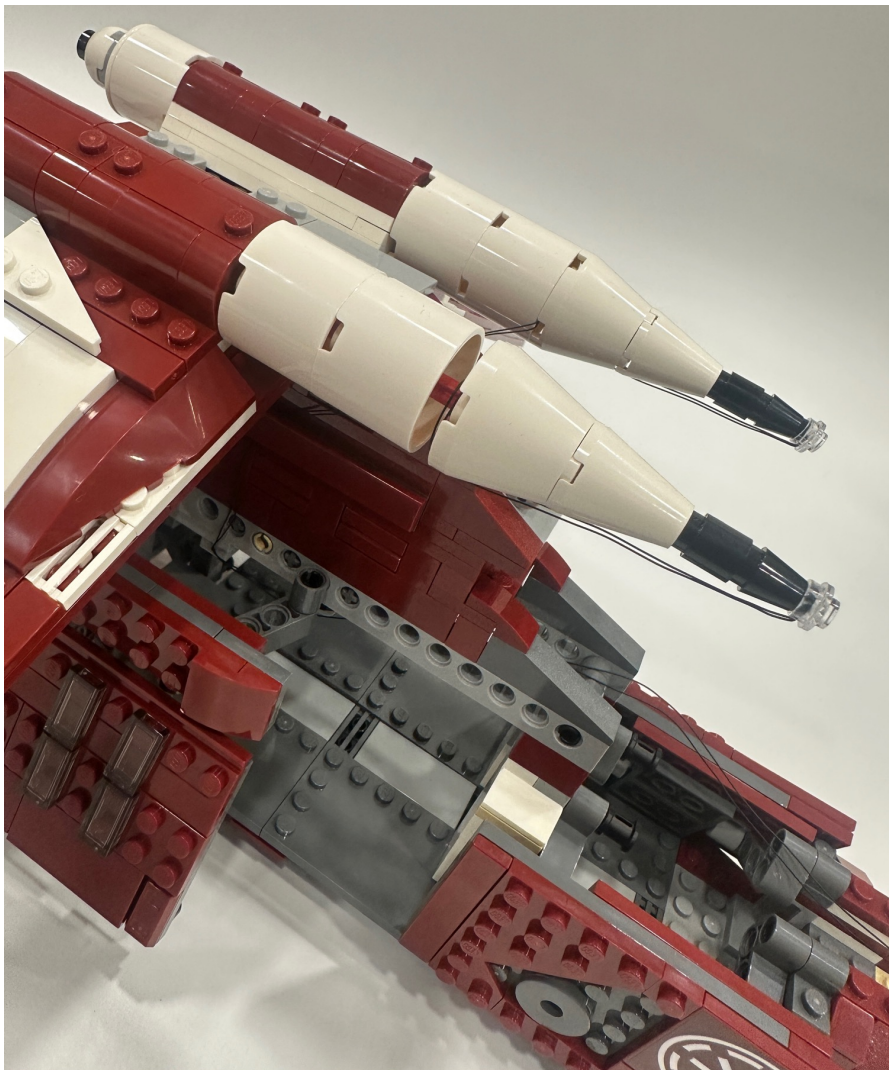

Move the clear lighting round plates to the end side of the wing and assemble them as shown, hide the wire inside the gap of the plates

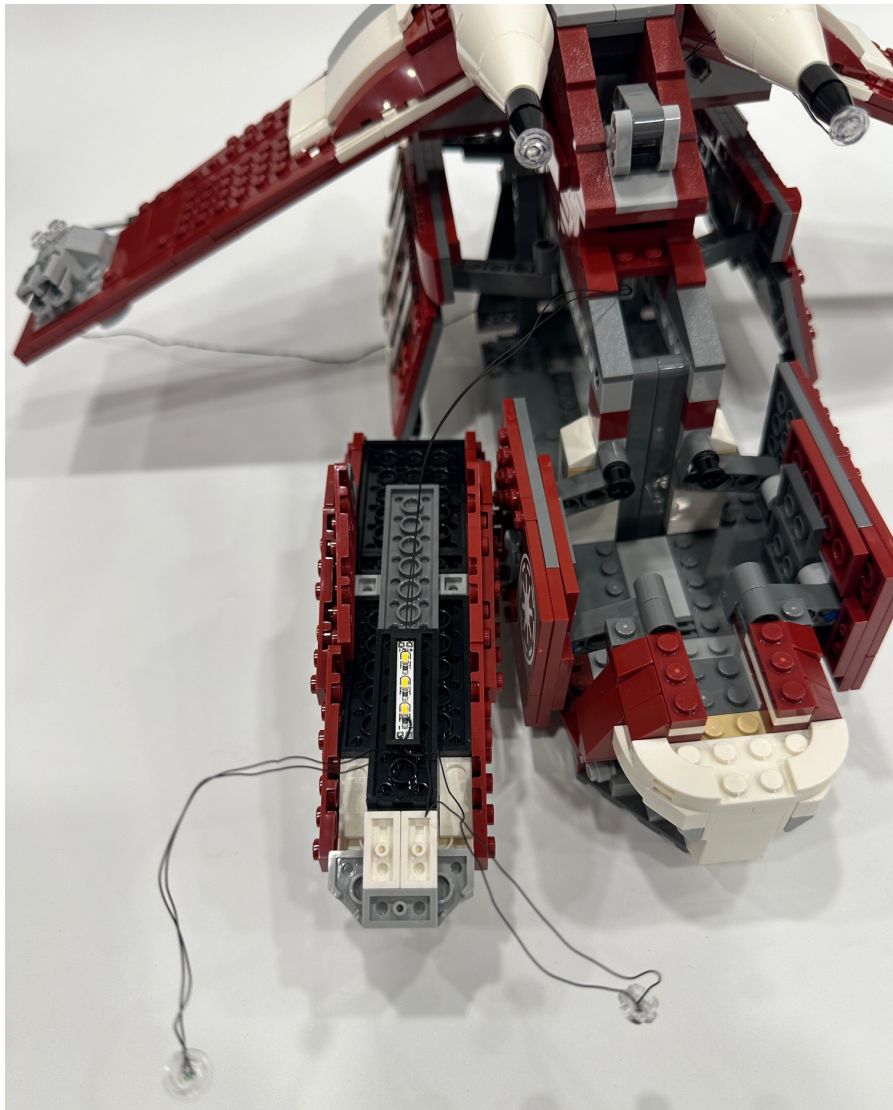

Do the same way on the other side

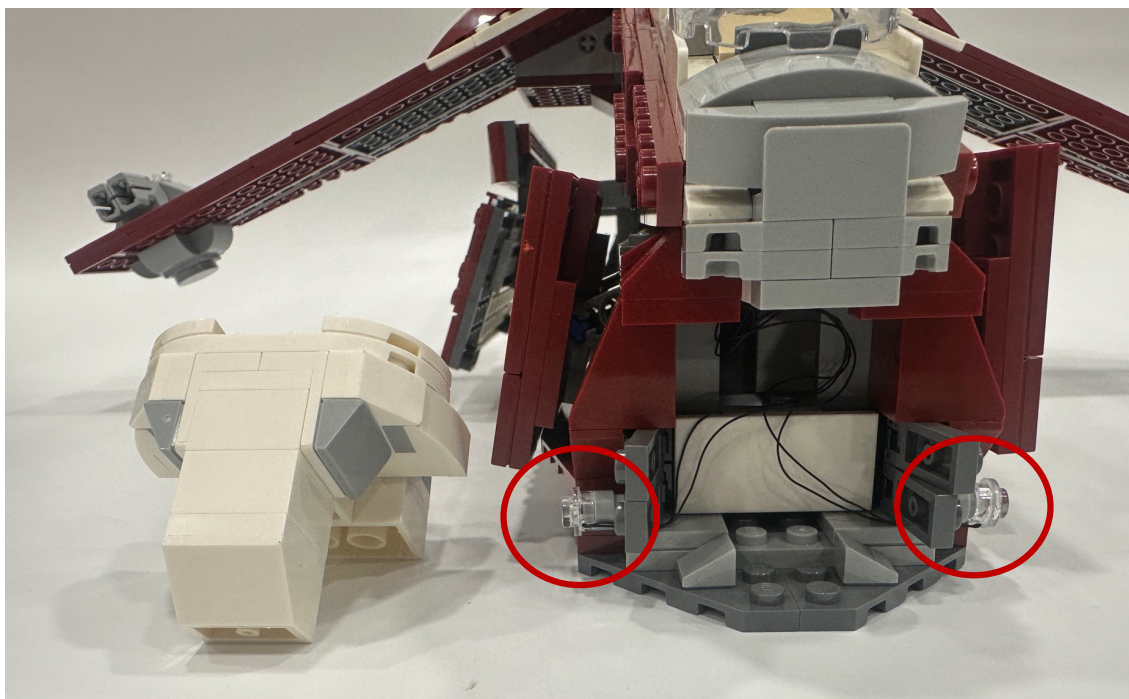

The two pieces of the single headed clear lighting round plates would be assembled on the black cones as shown, place some wires in between the white parts

Remove the head side and assemble the black lighting plate at the front side

Restore the head and remove the white part as shown to make space for the clear lighting round plates get through to the bottom and assemble them as shown

Restore the head side of the ship then you can light up the model by the USB cable
