

# Lego 10351

## **Sherlock Holmes: Book Nook**

### *Installation Guide*

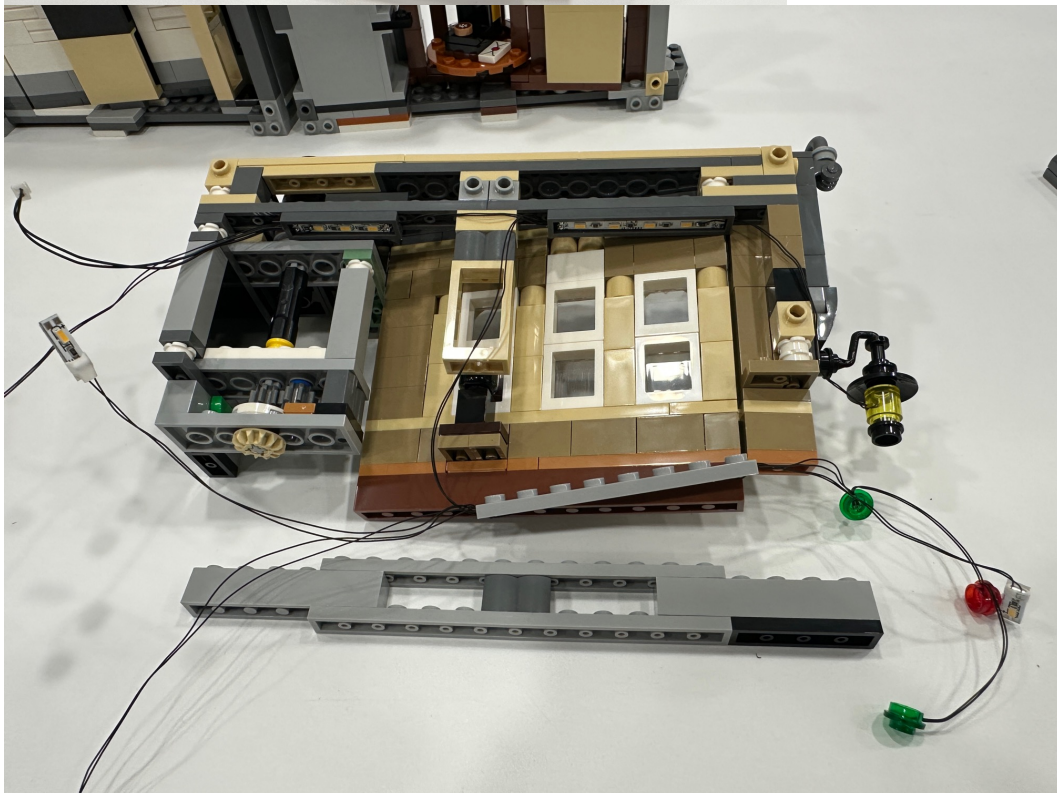

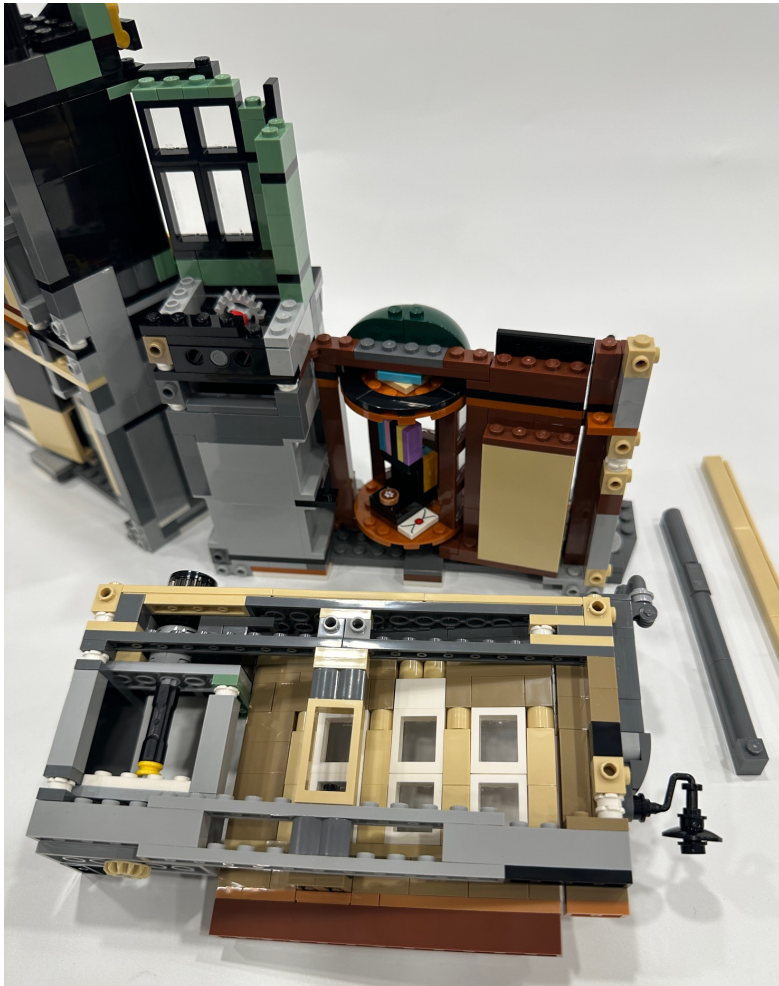

Remove the side panel of both sides and take lighting part A to assemble on shown side

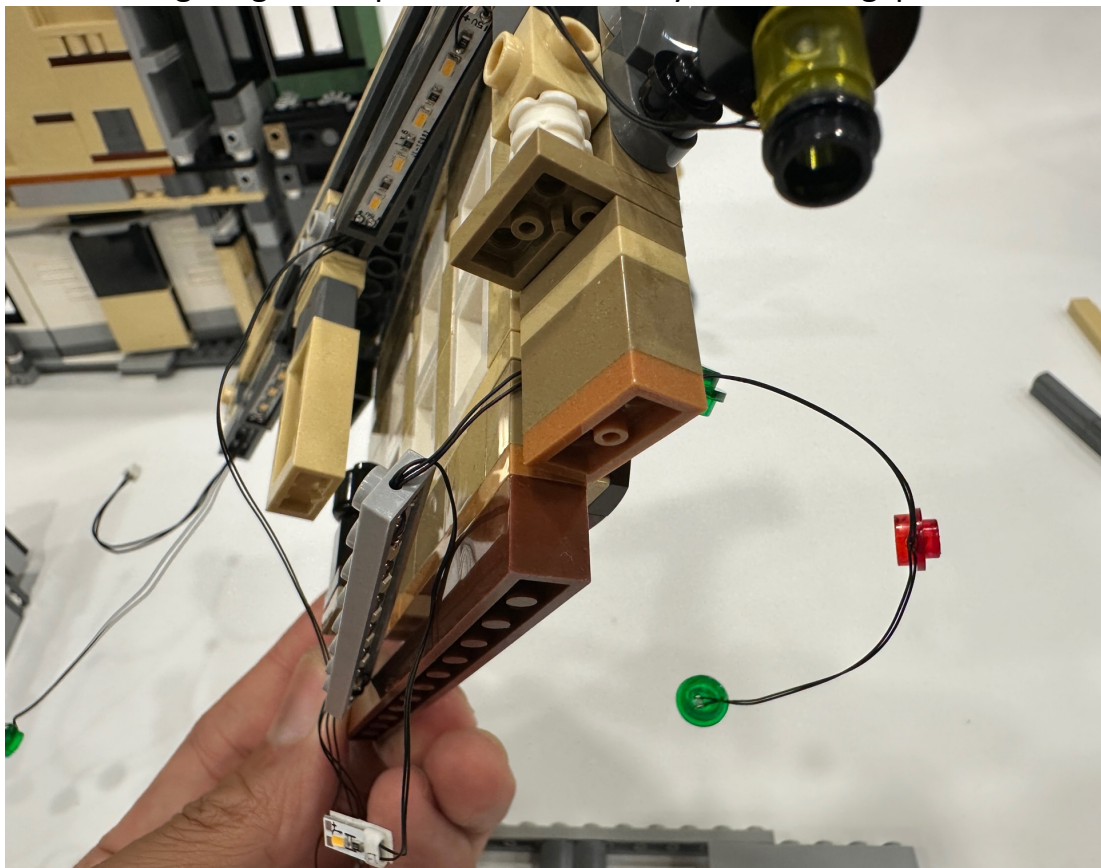

Detach the second floor and the poles, split it as shown in the below picture then assemble the two dark grey lighting plates at the second floor then replace the round block in the light

Move the lighting round plates to the front by the shown gap

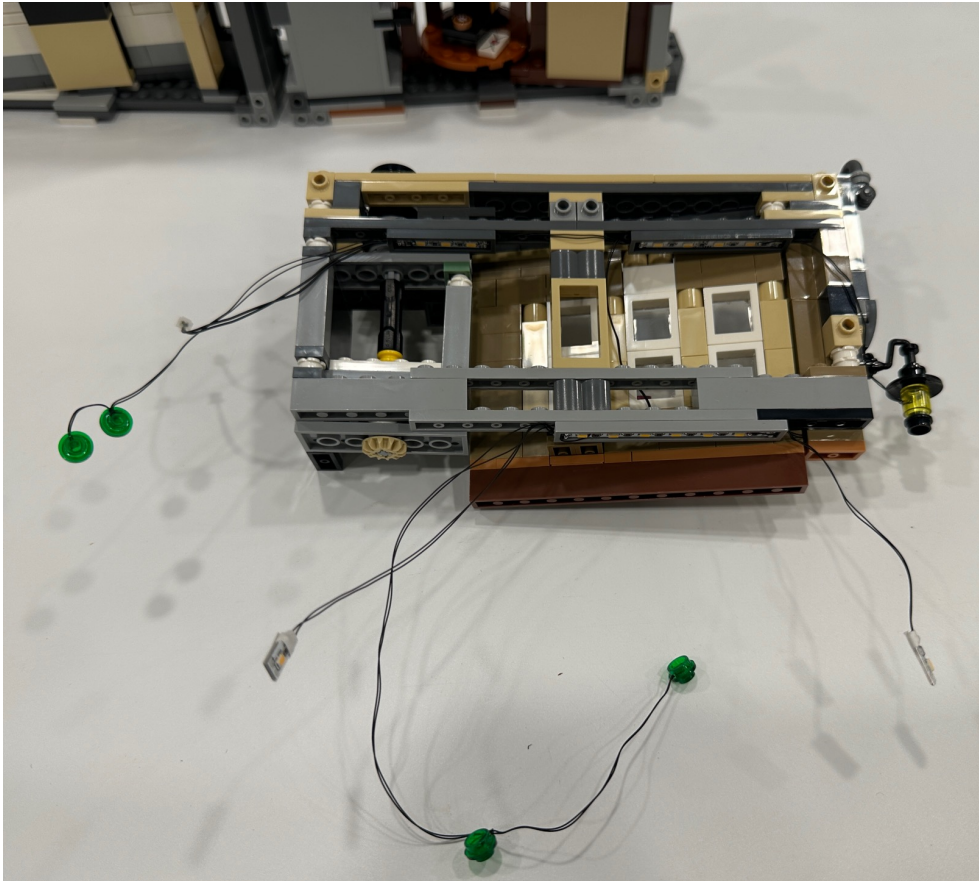

Then assemble the lighting round plates on the leaves, cover the wires by the shown parts

Assemble three lighting plates at the shown position

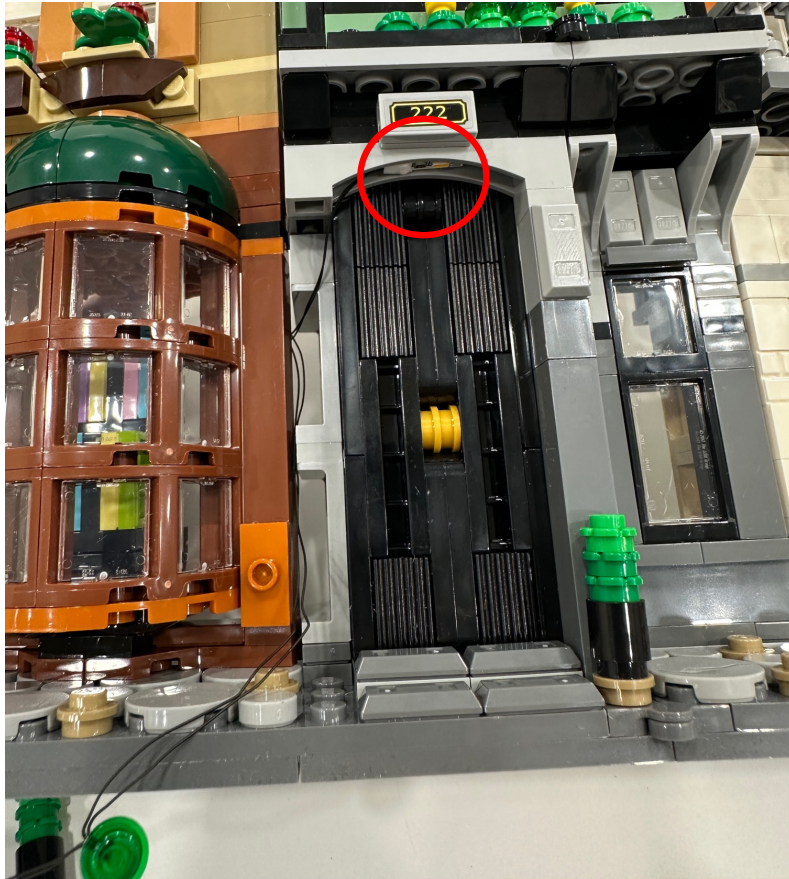

Place the 2<sup>nd</sup> floor back on top, remove the shown blocks then move the lighting round plates and the led bar to the front

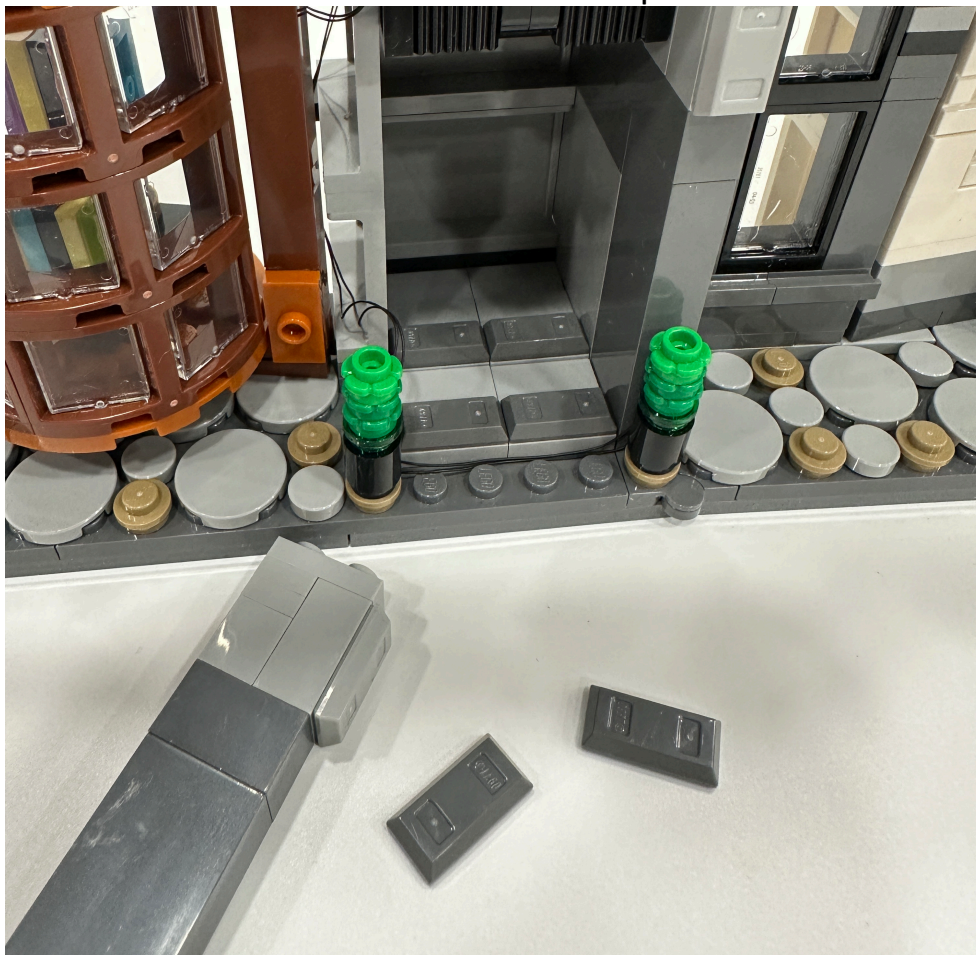

Stick the led bar under the arch

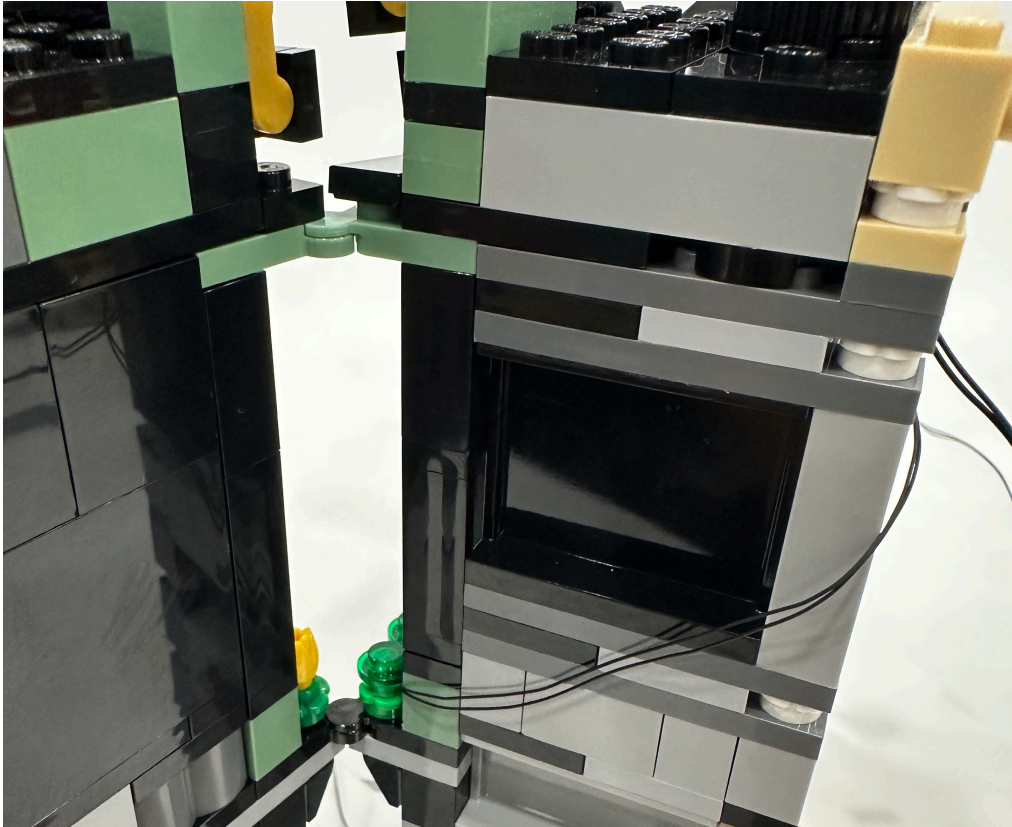

Then assemble the lighting rounds plates to the poles and hide the wire between them under the stairsteps

Move the remain lighting round plates to the front on 2<sup>nd</sup> floor

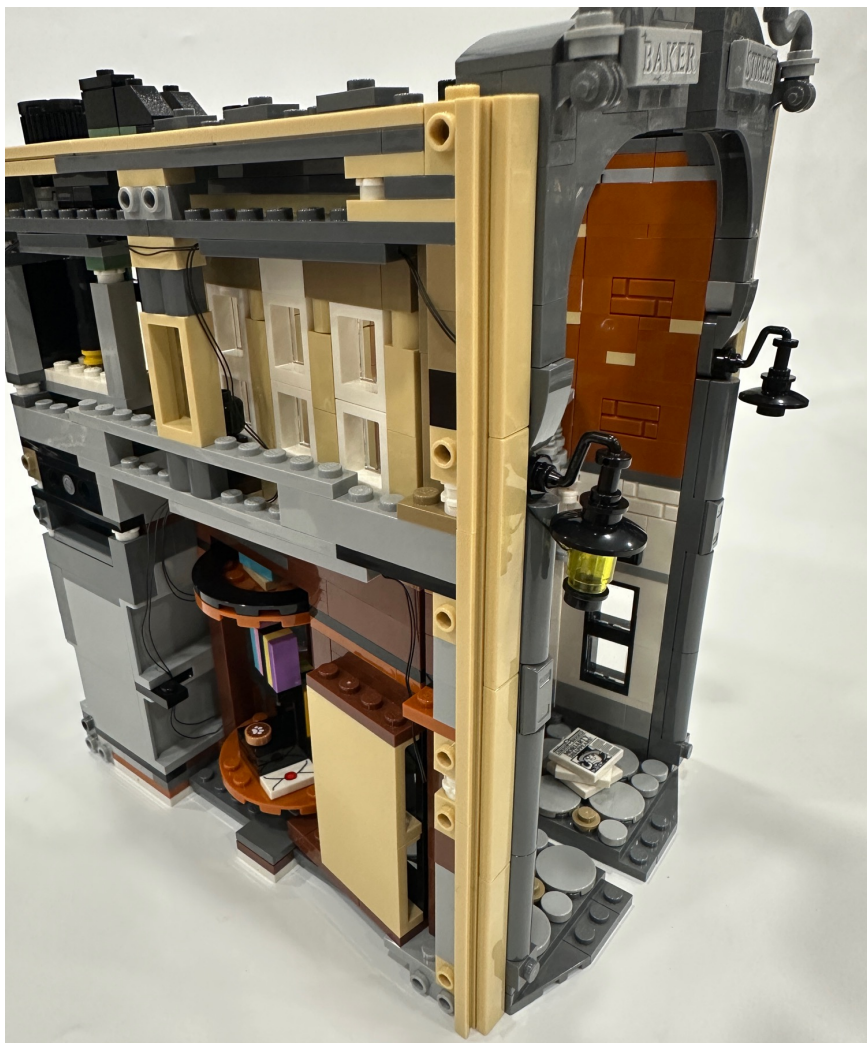

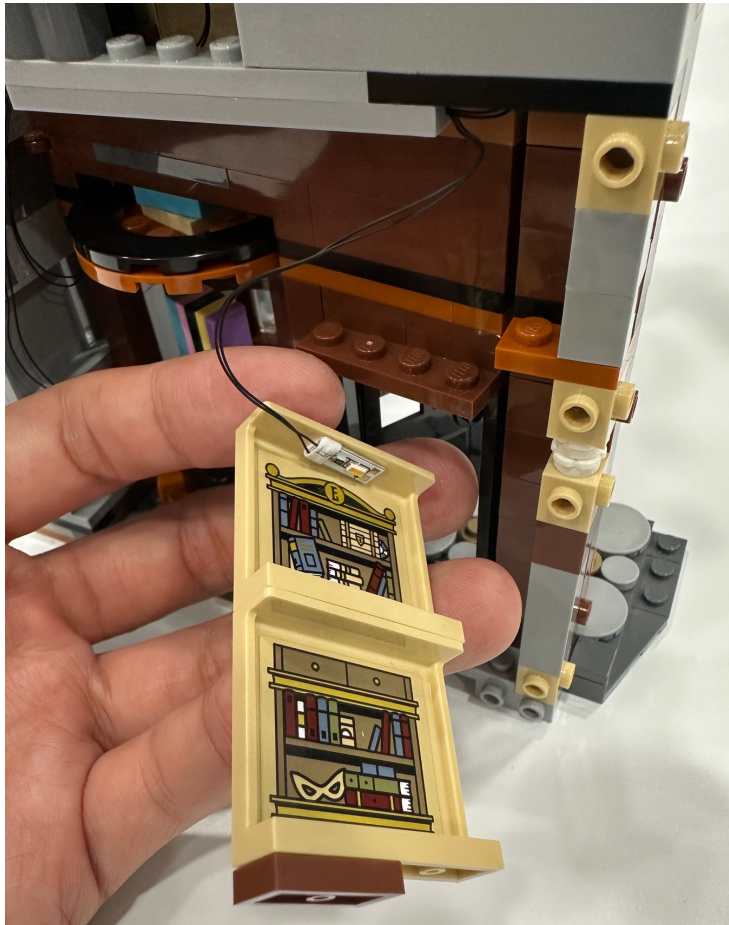

Assemble the round plates and restore the pole at the main door

Stick the remain led bar on the other door

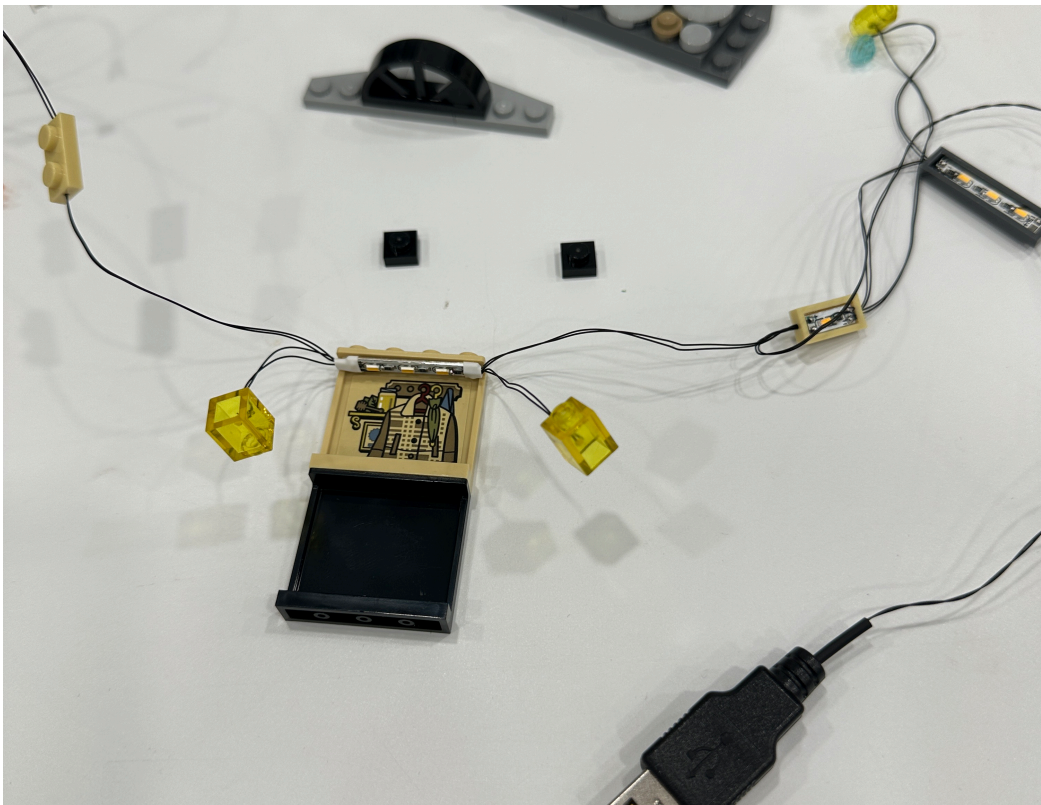

Before assembling lighting part B, remove the shown parts and detach the 2<sup>nd</sup> floor first

Take away the top of the white blocks and remove the clear blocks from the lamps

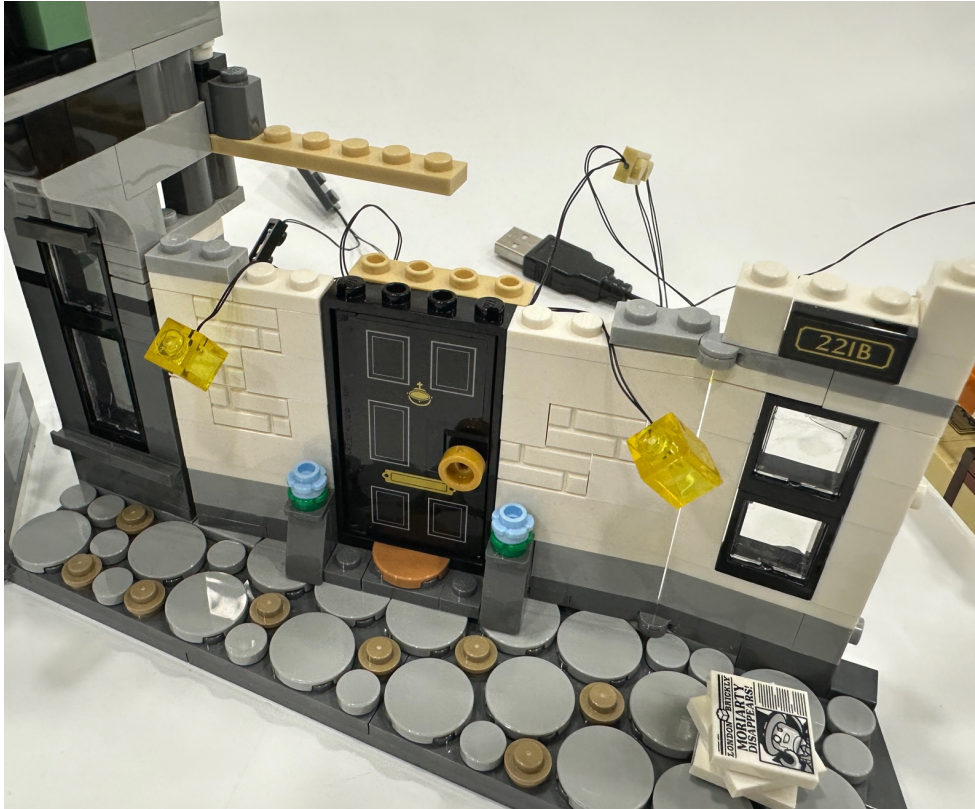

Take the lighting parts, stick the led bar on the parts behind the door. Beware of the direction, the USB plug must placed as shown

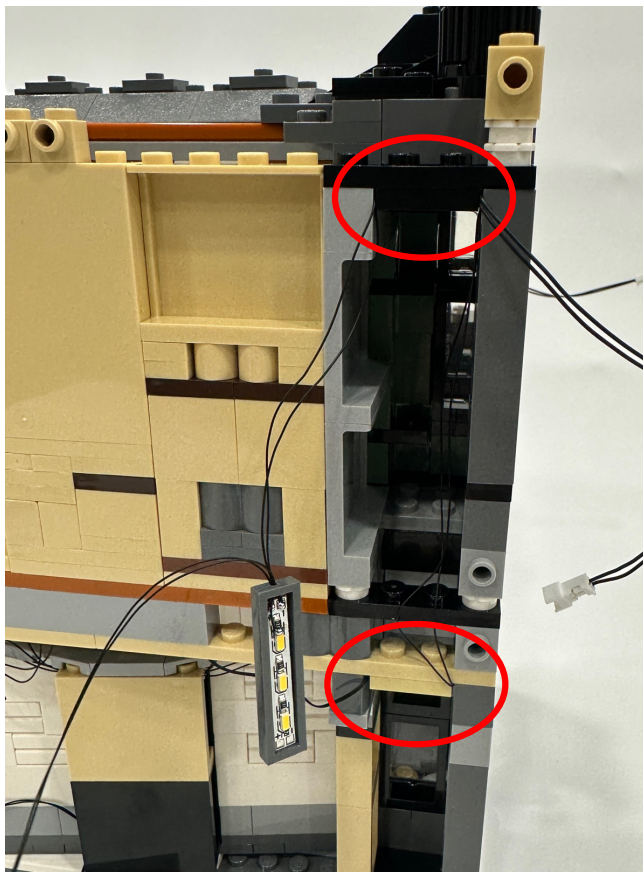

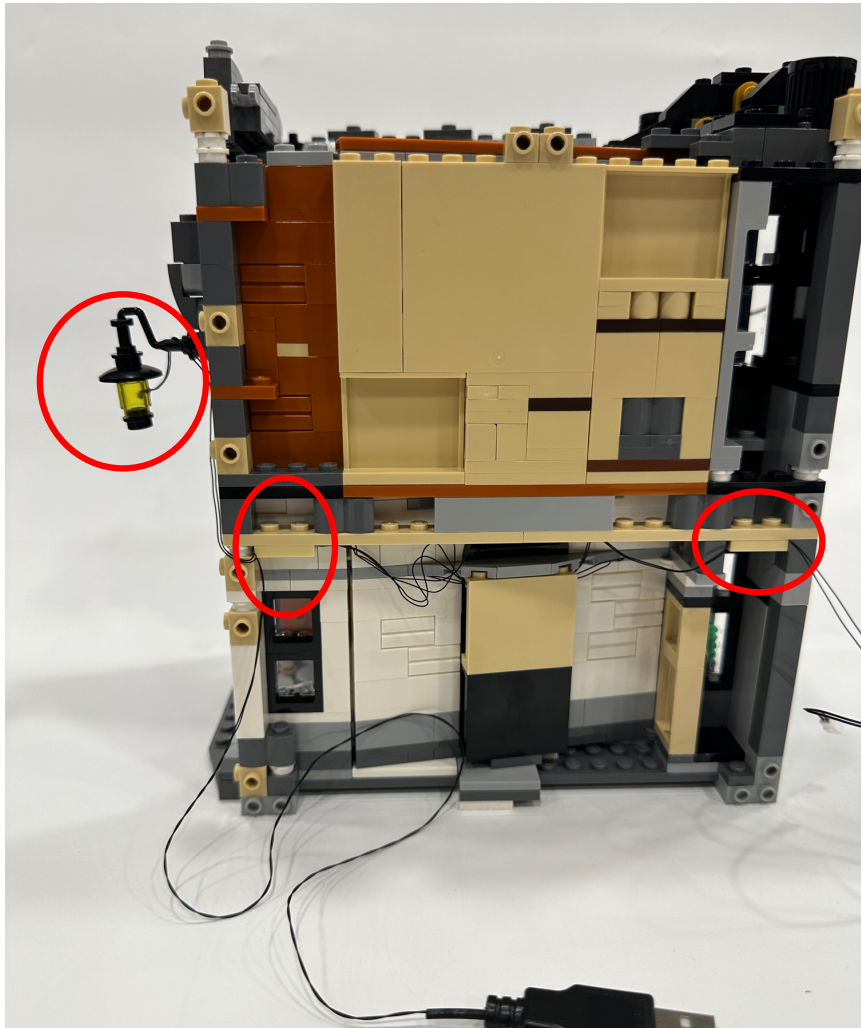

Restore the part from the previous step, remember to place the wires of the yellow blocks in between the studs

Restore the white parts on top and assemble the yellow lighting blocks to the lamps

Restore the back side of the 2nd floor, assemble the lighting plates and the lamp

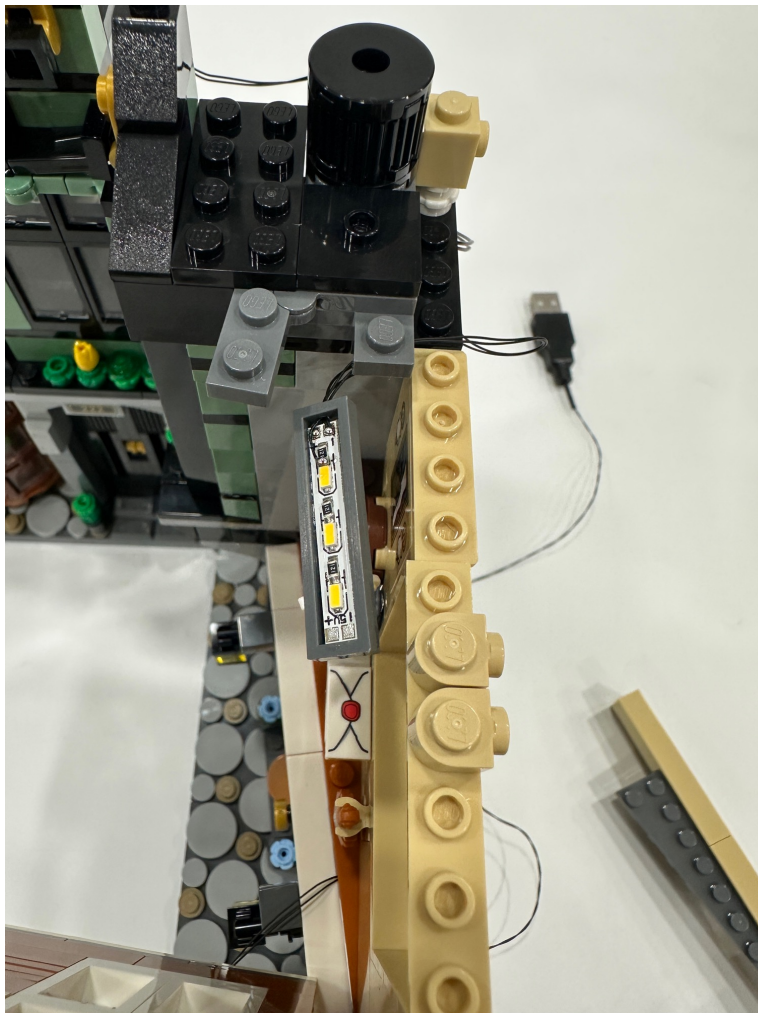

Take the inner side of the wall on 2<sup>nd</sup> floor, replace the fire on the fireplace and hide the wire under the brown parts

Restore the wall and get the 1x4 lighting plate inside

Restore the roof and assemble the 1x4 lighting plate

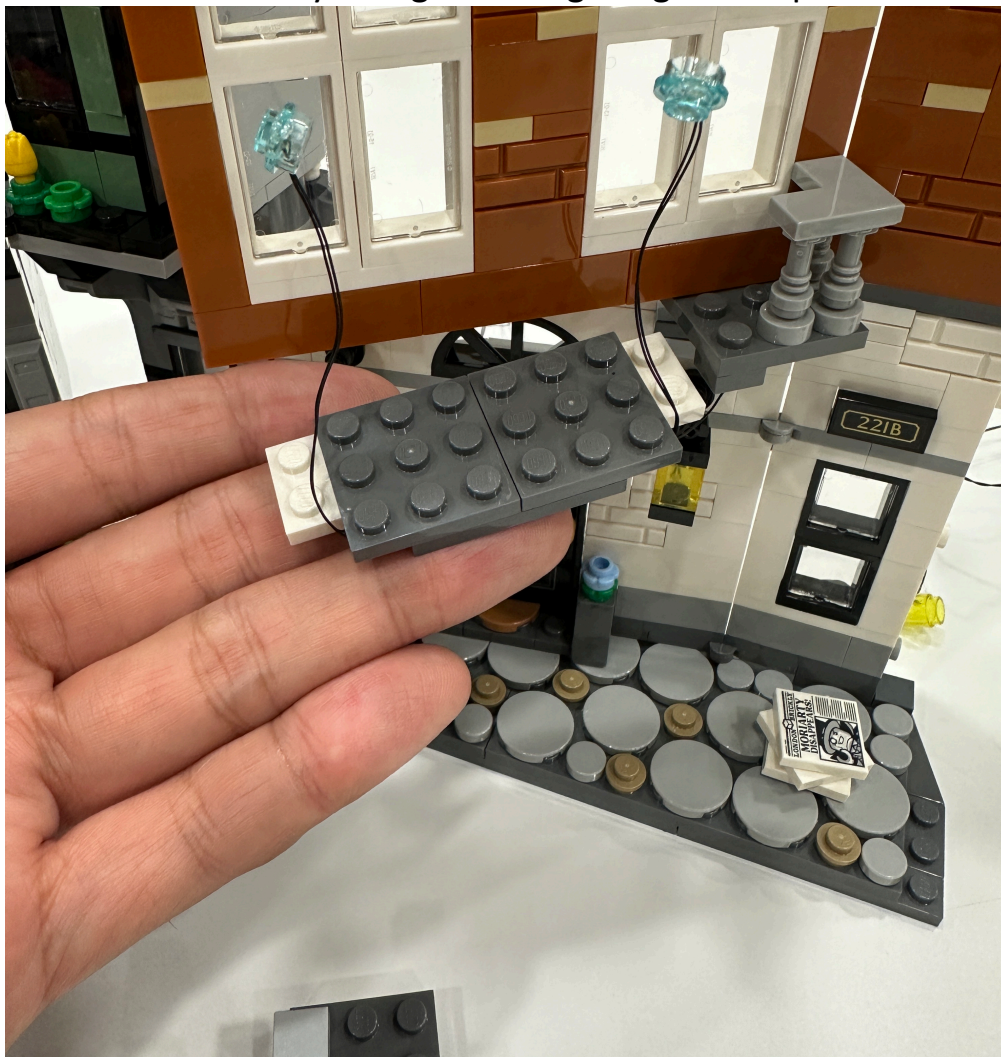

Get the front wall of the 2<sup>nd</sup> floor, assemble the grey lighting plate in the middle as shown

Detach the balcony and get two lighting round plates on the balcony

Assemble the lighting round plates with the flowers then restore the balcony

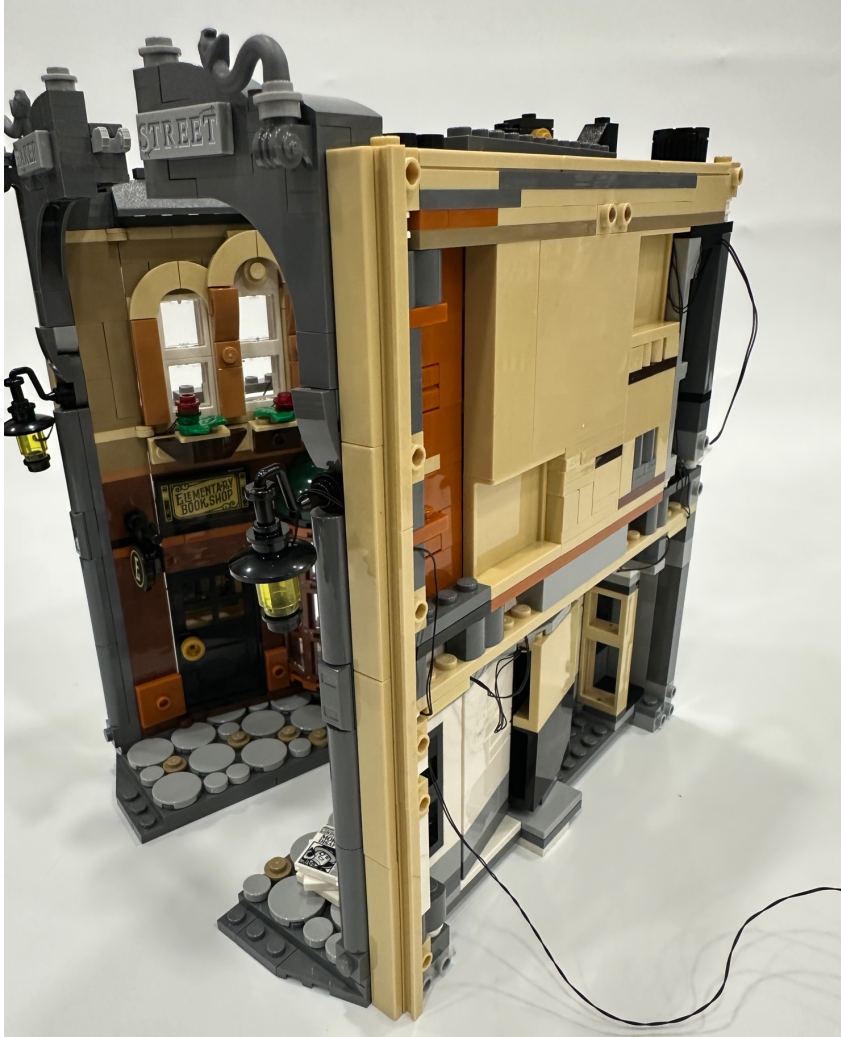

After that restore the whole roof to stable the 2<sup>nd</sup> floor

Restore all the removed parts after the lights are installed

At last, restore the side panel and connect the plugs of both parts
