

Hummer H2 Assault Vehicle – Installation Guide

M38-B0837

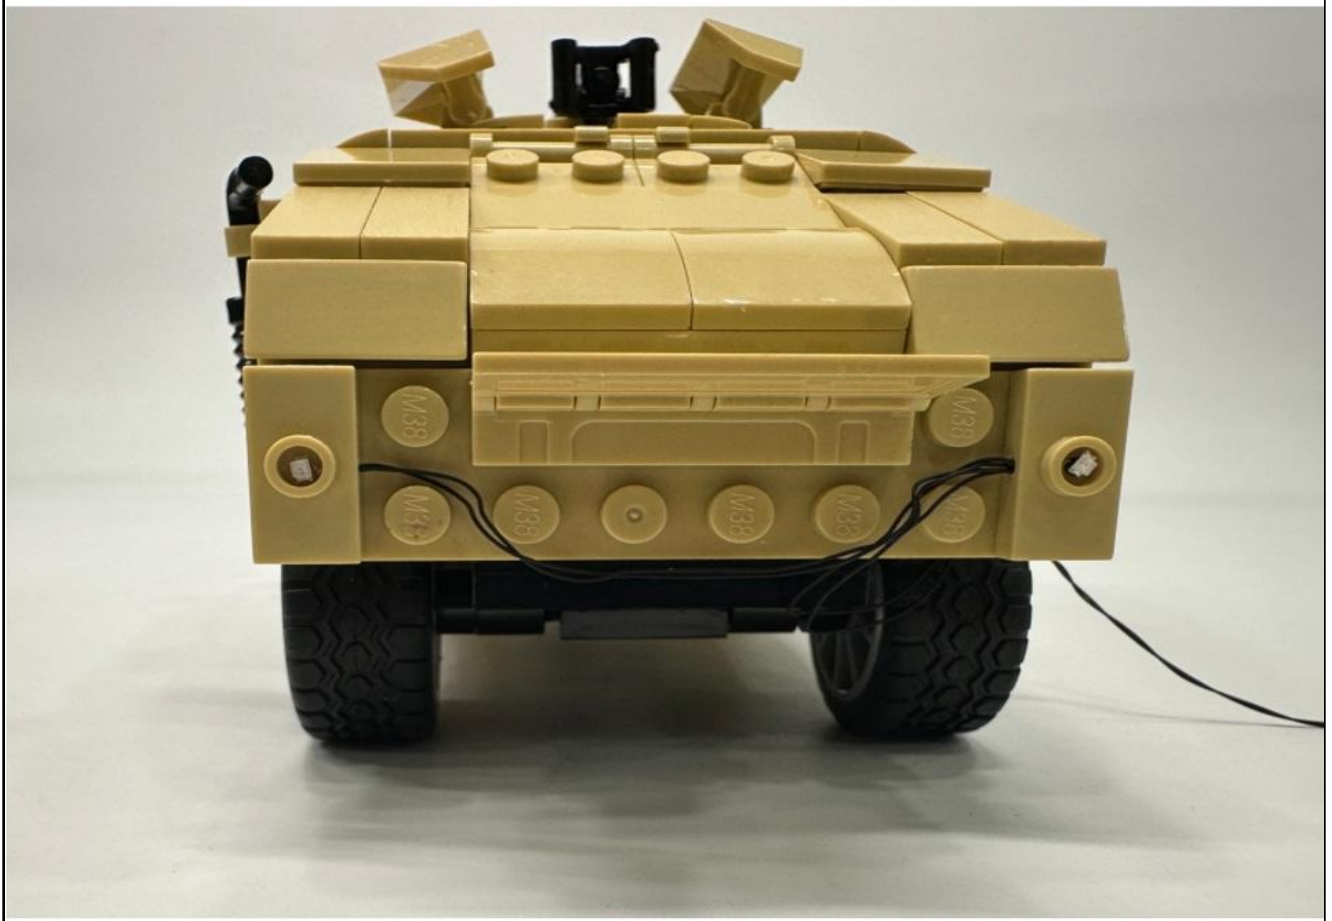

Hummer H2 Assault Vehicle

Installation Guide

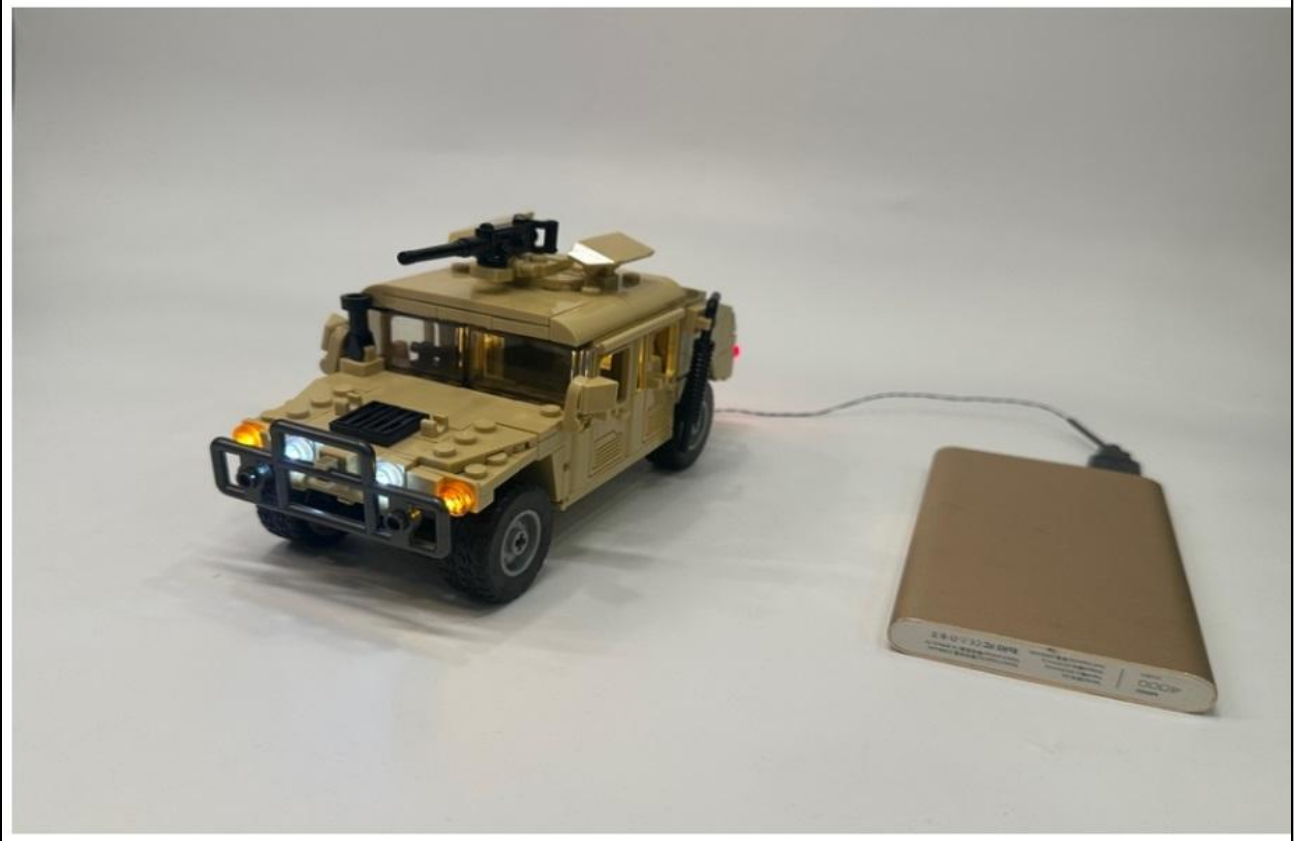

Step 2: Replace the orange round lighting plates and attach the clear round tiles to the lighting components. Reattach the front cover to the vehicle, then position the lighting plate inside the vehicle.

Step 3: Route the remaining lighting components and USB plug out through the opposite door. Remove the parts from the rear section, install the lighting components, and place the wires between the studs.

Step 4: Reattach the parts to cover the wires mentioned in the previous step. Your model is now ready to light up.
