Black Dahlia Flower

Installation Guide

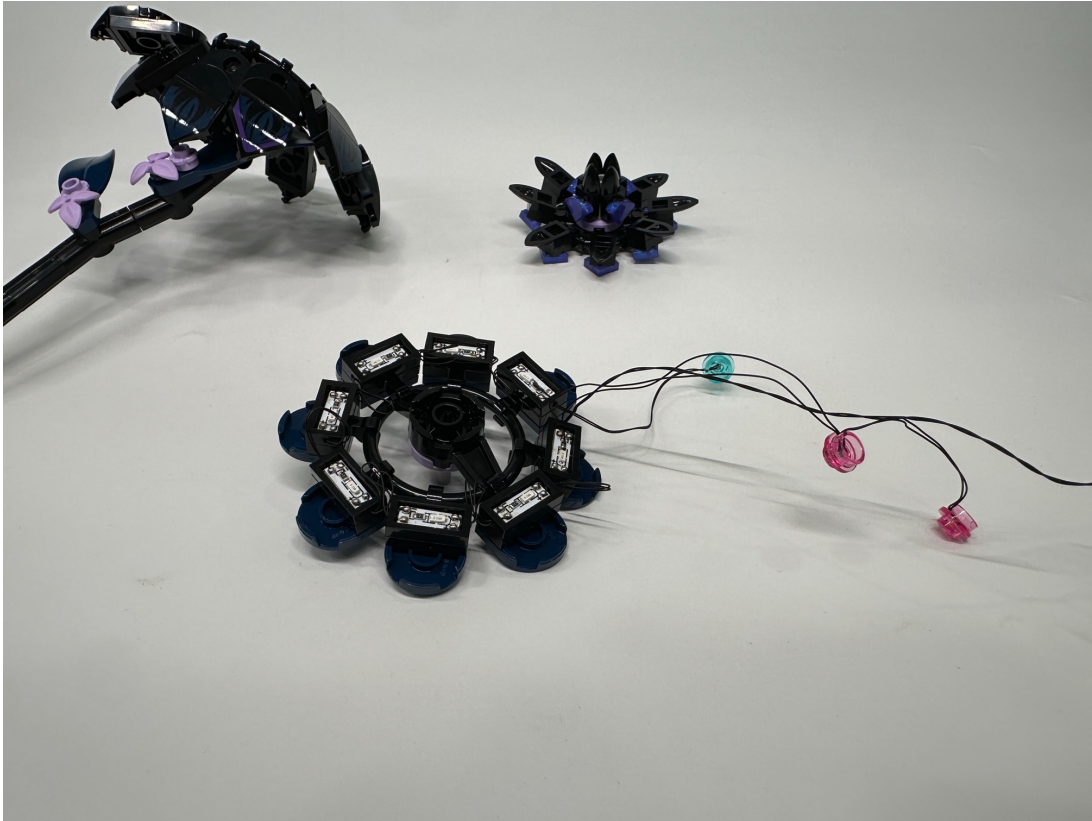

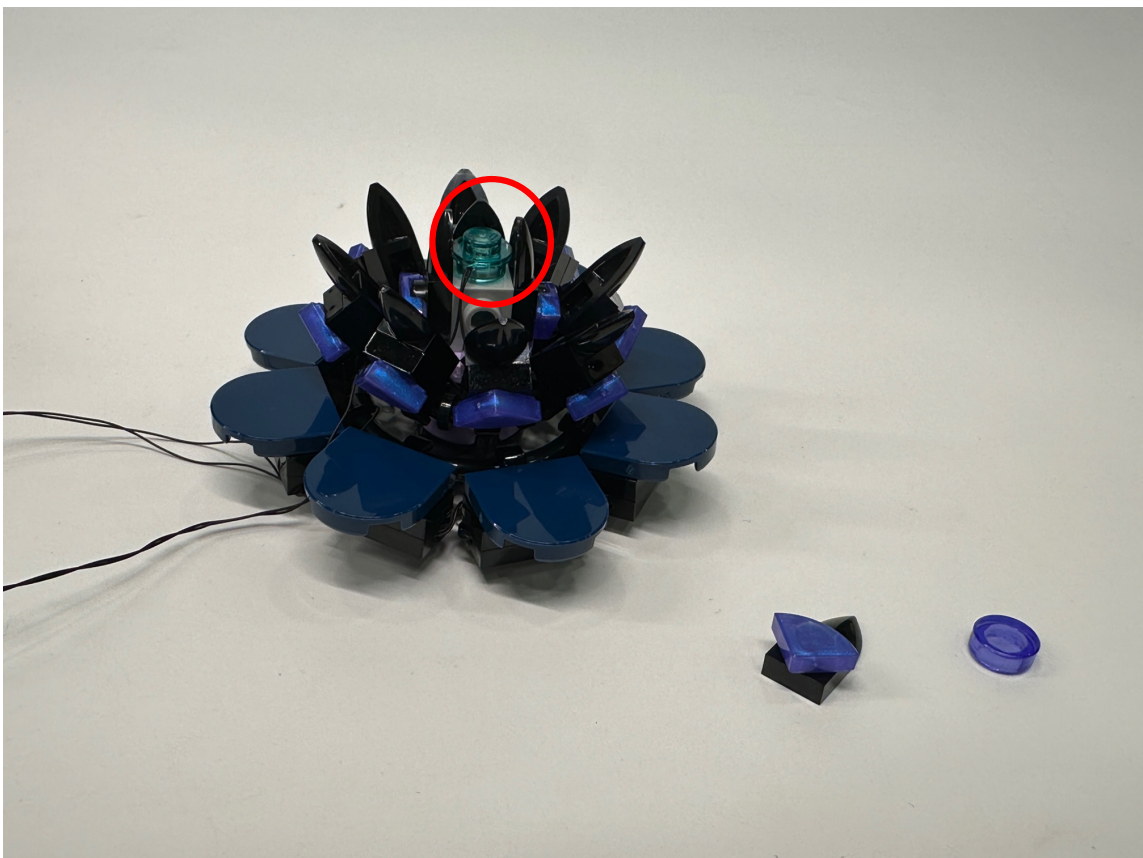

First of all split the flower as shown and take the certain lighting parts for the flower

Assemble all the lighting plates under the flower

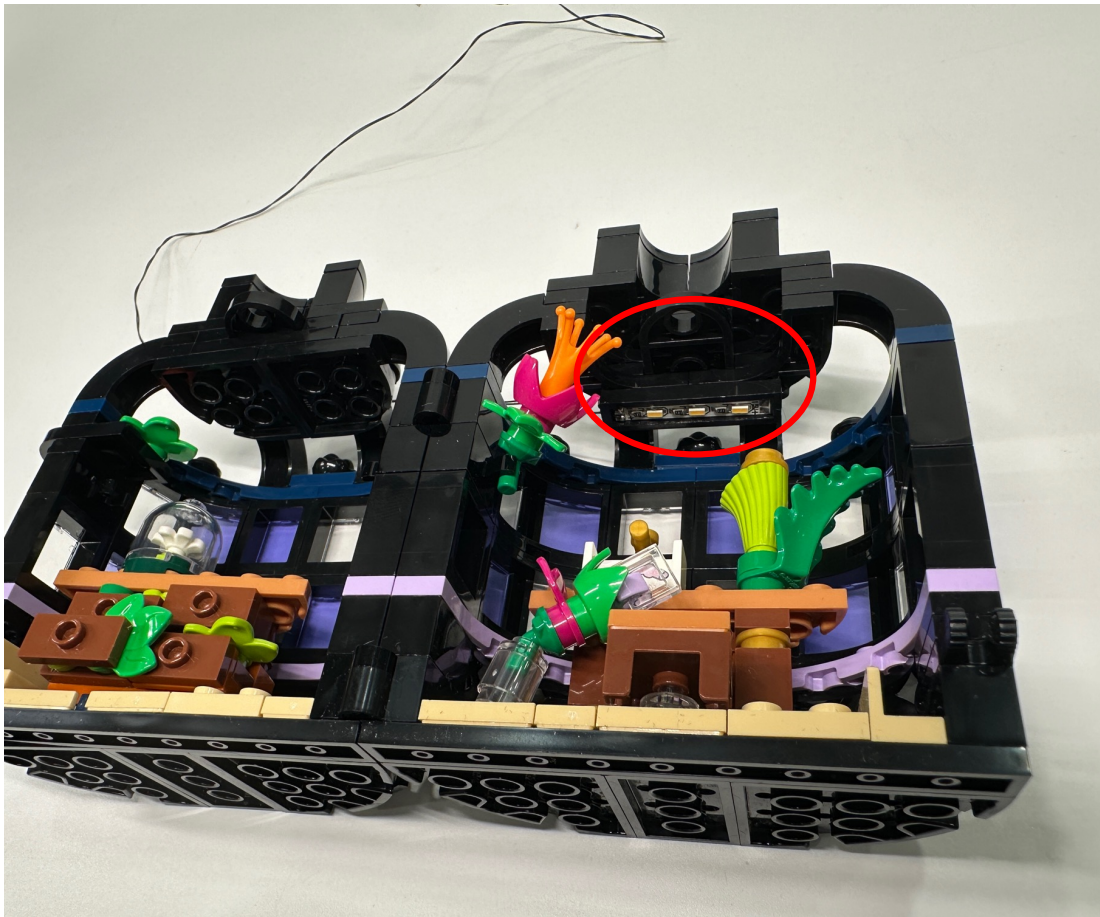

Combine with the top and assemble the blue lighting round plate on it

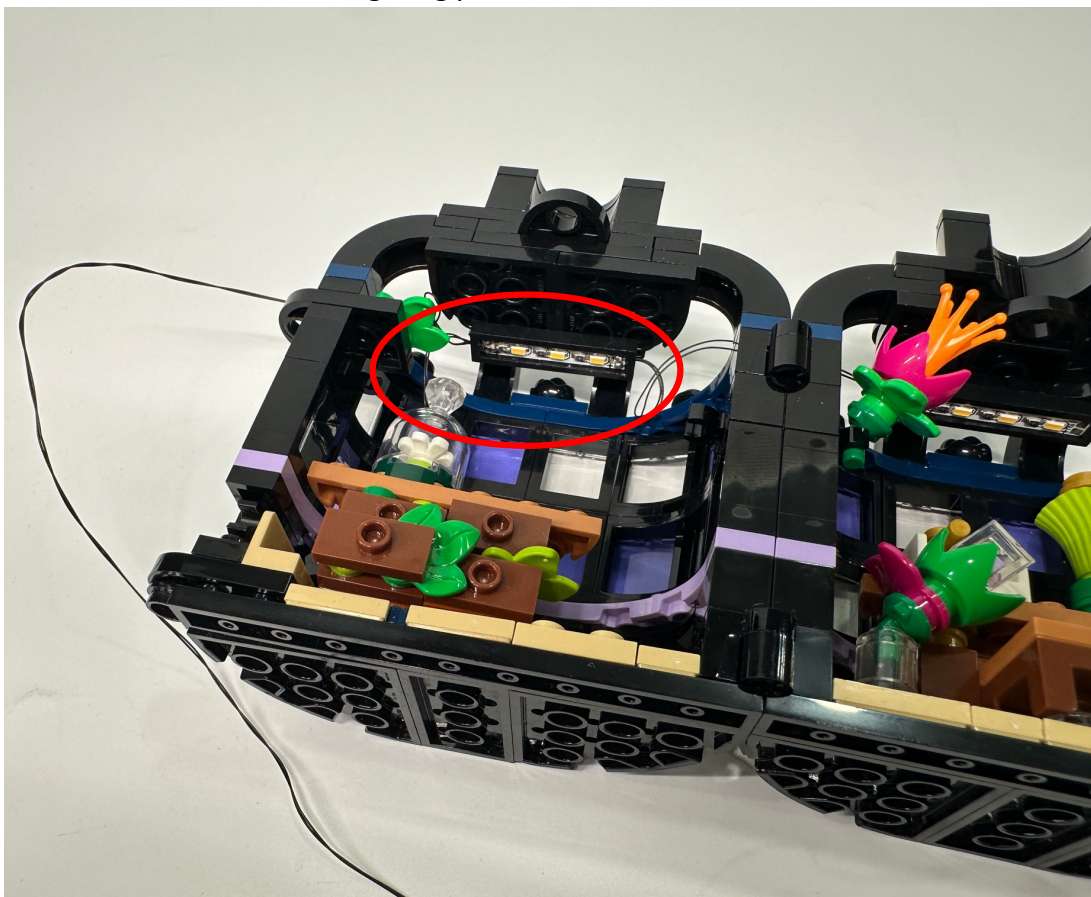

Restore the flower and move the pink lighting round plates to the bottom

For the house, take the lighting plate at the end side assemble it to the side of the house without diamond

Then assemble the remain lighting parts to the other side

At last put the flower back to the house and connect two plugs to the USB
